All the Year Round

Emma Curtis Hopkins led a life of extraordinary diversity and achievement. Here at last is a study that salutes her remarkable life as it explores the route by which she melded spiritual healing, metaphysical idealism, and exotic philosophies into multiple careers of unsurpassed dynamic. As a charismatic teacher, Hopkins instructed or ordained every prominent New Thought leader who founded a major denomination of the movement's churches. Her considerable talents as a mystic and noted author reached fruition with the publication of High Mysticism in 1923. Furthermore, her ideas on healing and prosperity took root in both secular and religious organizations, touching millions around the globe to this day. The long-forgotten Hopkins is now given her due in a book that allows her to triumph in the roles she so ably mastered in life: mentor and mystic, healer and feminist, missionary and biblical prophet, writer and editor.

New Studies and Perspectives

Sir Robert Peel provides an accessible and concise introduction to the life and career of one of the most political leaders of the nineteenth century. Perhaps best known for seeing through the Repeal of the Corn Laws, Peel had an enormous impact on political life of his age and beyond. Eric J. Evans reassesses Peel's career, arguing that although Peel's executive and administrative strengths were great, his arrogance, lack of empathy with the development of political parties and his inflexible commitment to economic liberalism presented political problems which he was incapable of solving. This expanded and fully revised second edition: fully engages with the extensive new historical work on Sir Robert Peel published since the first edition appeared fifteen years ago includes a glossary of key terms plus an updated and expanded bibliography, including listing useful websites. Sir Robert Peel is the perfect introduction for all students of nineteenth-century history.

William Ewart Gladstone (1809-98) was the outstanding statesman of the Victorian age. He was an MP for over sixty years, a long serving and exceptional Chancellor of the Exchequer and four times Prime Minister. As the leader of the Liberal party over three decades, he personified the values and policies of later Victorian Liberalism. Gladstone, however, was always more than just a politician. He was also a considerable scholar, a dedicated Churchman and had a range of interests and connections that made him, in many respects, the quintessential Victorian. Yet important aspects of Gladstone's life have received relatively little recent attention from historians. This study reappraises Gladstone by focusing on five themes: his reputation; his representation in visual and material culture; his personal life; his role as an official; and the ethical and political basis of his international policies. This collection of original, often multidisciplinary studies, provides new perspectives on Gladstone's public and private life. As such, it illustrates the many-sided nature of his career and the complexities of his personality.
