According to Gandhiji, ideal society is a Stateless democracy, the state of enlightened anarchy where social life has become so perfect that it is self-regulated. "In the ideal state, there is no political power because there is no State." Gandhiji believed that perfect realization of an ideal is impossible. However "the ideal is like Euclid's line that is one without breadth but no one has so far been able to draw it and never will. Village Swaraj as conceived by Gandhiji is thus a genuine and virile democracy which offers a potent cure for many of the political ills that mark the present political systems. Such a pattern of decentralized genuine democracy will have a message for the whole of humanity.

Tabla virtuoso, composer and percussionist Zakir Hussain is an international music phenomenon. The eldest son of the legendary Ustad Allarakha, Zakir gave his first public concert at the age of seven and was immediately hailed a child prodigy. In later years, his masterful dexterity and creative genius led to his becoming one of the most sought-after accompanists to the very best of Hindustani classical musicians and dancers. Zakir Hussain is equally recognized as one of the foremost contemporary jazz and world music percussionists; he has performed at innumerable concerts both as a solo artist and with renowned jazz musicians on the grand stages of the world, from the Royal Albert Hall to Madison Square Garden. With John McLaughlin, L. Shankar and T.H. Vinayakram, Zakir Hussain created music history with the band Shakti. He has acted in James Ivory's Heat and Dust and Sai Paranjpye's Saaz, and scored music for directors such as Bernardo Bertolucci (Little Buddha), Aparna Sen (Mr. & Mrs. Iyer) and Ismail Merchant (In Custody, The Mystic Masseur); he has also played the tabla for countless 1960s Hindi film soundtracks. In an in-depth conversation with Zakir Hussain, Nasreen Munni Kabir takes the readers through the story of his life: how he was deemed an 'unlucky' child; the early years of growing up in Mahim; his training from age four with his extraordinary father; and his experiences and memories working with a host of legendary musicians, including Pandit Ravi Shankar, Ustad Ali Akbar Khan and Ustad Vilayat Khan. A born storyteller, Zakir speaks with humour and humility of his understanding of music, his relationship with his students, his dedication and love for the tabla, and the way he negotiates life as an acclaimed celebrity living in both America and India. Zakir Hussain: A Life in Music is a brilliant introduction to the life and times of a huge music star, a revered role model and a visionary world musician.

**M.S. Subbulakshmi's life was one of extraordinary achievement. Although she was portrayed in many ways - as a musician who sought and achieved an all-India appeal; a philanthropist and supporter of noble causes; an icon of style; a woman of piety and devotion; and a friend and associate of the good and the great - she was first and foremost a classical vocalist of the highest rank, of unmatched gifts, who lives on in the musical history of India. Of Gifted Voice looks at her life and times, and the great musical tradition she belonged to and to which she brought so much, against the larger backdrop of the developments in the world of Carnatic music. It describes how music came to be performed in concerts; the impact the gramophone, the radio and the talkie had on music; the decline of the traditional performing families; and the appearance of women on public platforms. The book also delves into Subbulakshmi's brush with films as well as her concert style and that of her celebrated contemporaries. Though her story has often been told, we know little of the woman behind the image and the musician behind the public persona. Of Gifted Voice attempts, with warmth and keen-eyed perception, to understand the music, the history, the artiste and her incomparable presence.**

**One day before he is assassinated, Gandhi steps out of Birla House into newly independent Delhi, wanting his approaching death to be a final, redemptive message; Sasi begins to clean up the crime scene after her lover leaves to arrange for the disposal of her husband's body, but suddenly, the wall clock begins to tick backwards, setting off a dramatic reversal of**

events; resurrected from death by her brother, Nallathangaal roams the forests with her seven children for decades until the love of a carousel man frees her from the curse; Cheenu returns to his beloved wife to find that the years of warped urges in jail have changed him irrevocably. Farewell, Mahatma brings together ten tales that introduce us to the brilliance and distinctiveness of Devibharathi's imagination and craft. These stories explore the dark and dichotomous realities of our history and present, our social and individual lives, deeply probing themes such as freedom, need, desire and the volatile spaces between man and woman. At once unnerving and illuminating, these are short stories at their best.

This volume contains 55 publications in the field of Acoustics and includes the famous landmark paper On the Mechanical Theory of Vibration of Bowed Strings--perhaps the most important contribution to the theory of violins since Helmholtz, and also the English translation of Raman's celebrated monograph, Musik instrumente und ihre Klänge (Musical Instruments and Their Tones) in the Springer Encyclopaedia of Physics. The volume includes six remarkable papers on the acoustics of Indian musical instruments--the mridangam and tabla, the only percussion instruments in the world that produce harmonic vibrations, and the tanpura and veena.

This book presents a comprehensive overview of the basics of Hindustani music and the associated signal analysis and technological developments. It begins with an in-depth introduction to musical signal analysis and its current applications, and then moves on to a detailed discussion of the features involved in understanding the musical meaning of the signal in the context of Hindustani music. The components consist of tones, shruti, scales, pitch duration and stability, raga, gharana and musical instruments. The book covers the various technological developments in this field, supplemented with a number of case studies and their analysis. The book offers new music researchers essential insights into the use of the automatic concept for finding and testing the musical features for their applications. Intended primarily for postgraduate and PhD students working in the area of scientific research on Hindustani music, as well as other genres where the concepts are applicable, it is also a valuable resource for professionals and researchers in musical signal processing.

***In this collection of in-depth interviews, today's leading violinists discuss making music on one of the world's most beloved instruments. Whether they're child prodigies just coming onto the stage or cultural icons whose careers have had a lasting influence on generations of players, they provide a rare glimpse into the fascinating life of the classical violin soloist. How they practice, how they work with other musicians, their performance secrets and anxieties, what moves and inspires them - all this and more comes to life in this series of revealing one-on-one conversations. Each of the interviews was conducted by a fellow musician and first published in the pages of Strings magazine, where both professionals and dedicated amateurs share their passion for music. This book is a study of khyal, the genre of North Indian classical music which has dominated in performances by highly trained vocalists for at least the past 150 years. It is also a study of cultural history. Spanning as it does a good portion of the periods of the British raj in India, the struggle for independence, and the flourishing of India as a republic, the history of khyal and of khyal singers is a story of generous patronage by native princes, of the loss of this patronage when courts were dissolved, and of the resilience of musicians in adjusting to the vicissitudes of contemporary artistic life. The book contains an extensive bibliography and discography, as well as illustrations of khyal in performance genealogical charts and maps. The accompanying cassette illustrates much of the music described in the book.***

*"August Seventeenth two thousand and one" draft.*

*It's the nineties, and Kashmir is in turmoil. The tourism industry has taken a big hit, and the youth are disillusioned, with no jobs or hopes for the future. In this climate, Malla Khaliq waits day after day for guests to arrive at his three beloved houseboats - Gul, Gulshan and Gulfam - on the Dal Lake, and struggles to keep his three sons together. While Noor Mohammed loves his father, and tries to keep the faith, despite evidence that business is on the decline, Ghulam Ahmed and Ghulam Qadir have plans that might place them in the path of danger. Meanwhile, as Khaliq prepares for his much-pampered daughter Parveen's wedding, the sudden arrival of a mysterious American girl sets in motion events that threaten to disturb the precarious equilibrium of his household. Gul Gulfam Gulshan paints a portrait of a Kashmir in transition, and of a man who is trying to salvage the memories and values of his youth. Once a popular television series, this novelization vividly recreates the streets of Srinagar and the once-living economy of the Dal lake. This is a deeply affecting story about relationships, migration, ambitions and dreams of preserving one's homeland.*
