BPP Learning Media is an ACCA Approved Content Provider. Our partnership with ACCA means that our Study Texts, Practice & Revision Kits and iPass (for CBE papers only) are subject to a thorough ACCA examining team review. Our suite of study tools will provide you with all the accurate and up-to-date material you need for exam

success.

The examining team reviewed P1 Practice & Revision Kit provides invaluable guidance on how to approach the exam and contains past ACCA exam questions for you to try. You will learn what to expect on the test, how to analyse questions and also be able to attempt additional questions prepared by BPP Learning Media that reflect the scenarios and technical questions you will find on the exam.

The P3 Practice and Revision Kit contains invaluable guidance on how to tackle the exam. It focuses on what you should look for in questions on different syllabus areas and what question requirements are asking you to do. The questions the Practice and Revision Kit provides enable you to put these skills into practice, as they reflect the types of scenario, question requirements and breadth of coverage that we expect to see in the exam. The Practice and Revision Kit includes Section A questions in the same format as you will see in the exam, questions based on scenarios that appear in all three Strategic level Kits.

BPP Learning Media is an ACCA Official Publisher. P2 is a very challenging paper which builds on the knowledge and skills acquired at earlier levels in the preparation and analysis of financial reports for single entities and groups. It takes these areas to a higher level, putting into context the role of the accountant as a professional steward and

adviser, who is responsible to the stakeholders of an organisation. It has five main sections: 1. Regulatory and ethical framework and current issues 2. Reporting the financial performance of entities 3. Group financial statements 4. Specialised entities 5. Analysis of the financial performance of entities. The main new topics introduced at this level relate to group accounts, but other topics are tested with a different emphasis and in more depth than at the Fundamentals Level. We provide material for both International and UK streams. Question practice is essential for all papers, but for P2, there is a strong "fear factor". Questions look intimidating, and it is only once you get into the detail that you realise that there are easy marks and more complicated parts that are not essential to get a pass. Our practice and revision kit follows the order of the text and there are a large number of questions on all syllabus topics. Our kit gives ample opportunity to practice the long, 50 mark case studies, which will be the compulsory Section A question in the exam. Three mock exams, including the December 2007 exam, also reflect this format. As a gentle introduction to many of the topics, there

are preparation questions giving instructions in basic techniques. Most questions have marking schemes, so that you can see that the examiner awards marks for these techniques. The General Theory of Employment, Interest, and Money, written by legendary author John Maynard Keynes is widely considered to be one of the top 100 greatest books of all time. This masterpiece was published right after the Great Depression. It sought to bring about a revolution, commonly referred to as the 'Keynesian Revolution', in the way economists thought—especially challenging the proposition that a market economy tends naturally to restore itself to full employment on its own. Regarded widely as the

cornerstone of Keynesian thought, this book challenged the established classical economics and introduced new concepts. 'The General Theory of Employment, Interest, and Money' transformed economics and changed the face of modern macroeconomics. Keynes' argument is based on the idea that the level of employment is not determined by the price of labour, but by the spending of money. It gave way to an entirely new approach where employment, inflation and the market economy are concerned.

Cambridge International AS and A Level Accounting has been endorsed by University of Cambridge International Examinations.

The examiner-reviewed P7 Practice and Revision Kit provides invaluable guidance on how to approach the exam. It contains past ACCA exam questions for you to try and a question plan to assist with your revision. Three mock examinations provide ample opportunity to practise questions and marking schemes show you how the examiner awards marks.

This book explores current digitalization issues in finance and accounting with particular focus on emerging and transitioning markets. It features models, empirical studies and cases studies on topics such as Fintech, blockchain technology, financing renewable energy, and XBRL usage from sectors such health care, pharmacology, transportation, and education. Such a complex view of current economic phenomena makes the volume attractive not only for academia, but also for regulators and policy-makers, when deliberating the potential outcome of competing regulatory mechanisms.

This volume of official SQA past papers is designed to help you prepare fully for your exams. It contains a wide variety of actual exam questions and helps you practise in all topic areas and build up your confidence.

New 2018 edition based on the updated 2018 ICAEW Study Manual and including analysis of mark allocation in all recent past papers through to September 2017 (December 2017 markscheme not available at the time of writing). Provides over 1,000 short form questions to help you learn all aspects of the complex and detailed FAR syllabus. Designed to complement past paper practice by splitting topics and concepts into smaller and more manageable chunks which you

can revise many times before the exam, helping the knowledge to sink in. Helps to build your confidence and avoid becoming overwhelmed by the large number of learning points in full exam standard questions. Instead, our Q&A tests one thing at once and therefore allows you to learn an issue properly before moving on. All questions are designed to split topics into smaller parts, allowing you to study one thing at once and gradually build up knowledge. Analysis of distribution of marks in past papers covering the 2009 to September 2017 period to help you focus your revision on key areas (December 2017 markscheme not available at the time of writing).

Contains all relevant Financial Accounting and Financial Reporting questions from our previous FA and FR Q&A books for the old syllabus, updated where necessary. We have also added many new questions for FAR. This means that our Q&A will continue to cover the traditional, staple areas and will provide much more practice than the Study Manual in key areas such as cashflow statements, earnings per share, related parties and other areas. We also include a detailed introduction explaining some key revision and answering techniques for the 2 different types of FAR question (narrative or "financial reporting" style and numerical or "financial accounting" style). Provides a firm basis for Advanced Level questions involving financial reporting in the Corporate Reporting paper: Q&A can be reused at later stages of the ACA to revise the key areas which the examiner will assume as brought forward knowledge. See [www.acasimplified.com](http://www.acasimplified.com) for more information on our Q&A technique.

Compelling evidence shows health disparities are the result of inequalities in income, education, limited access to medical care, substandard social environments, and poor economic conditions. This book introduces these social determinants of health (SDOH), discusses how they relate to public health programs, and explains how to design and evaluate interventions bearing them in mind.

Arguing that many public health programs fail to be as effective as they could be, because they ignore the underlying causes of health disparities, this important reference gives concrete examples of how evaluations focusing on the social determinants of health can alleviate health inequalities, as well as step-by-step guidance to undertaking them. This resource blends current research, existing data, and participatory evaluation methods. It is designed for teachers, students, practitioners,

and policymakers interested in public health programming and evaluation.
