**History, tradition, art and festivals and friendship are the themes that Australian artist Virginia Ryan effortlessly interweaves throughout her intriguing personal memoir. 'Where the Cypress Rises' tells the story of her family's growing affection for a hill town in central Italy. "It was midsummer. The thick, cloying blanket of afternoon heat spread itself drowsily across the Umbrian landscape, leaving the earth scorched under a sun-bleached sky. On far-off mountaintops storms were brewing and distant thunder seemed to rise from a sunstruck earth, an incantation from other times. We drove on and on in a trance towards the hill town of Trevi, only casting aside weariness with the excitement of seeing our new home again. The recently acquired object of our desires was an abandoned olive mill clinging to the edge of tree-lined slopes on the outskirts of the town, purchased quite impulsively the previous summer."**

**One of the most visited sites in Italy, the Roman Forum is also one of the best-known wonders of the Roman world. David Watkin sheds completely new light on the Forum, examining the roles of the ancient remains while revealing what exactly the standing structures embody - including the rarely studied medieval, Renaissance, and Baroque churches, as well as the nearby monuments that have important histories of their own.**

The Power of Place

Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. We are republishing many of these classic works in affordable, high quality, modern editions, using the original text and artwork.

Early modern Naples has been characterized as a marginal, wild and exotic place on the fringes of the European world, and as such an

appropriate target of attempts, by Catholic missionaries and others, to 'civilize' the city. Historiographically bypassed in favour of Venice, Florence and Rome, Naples is frequently seen as emblematic of the cultural and political decline in the Italian peninsula and as epitomizing the problems of southern Italy. Yet, as this volume makes plain, such views blind us to some of its most extraordinary qualities, and limit our understanding, not only of one of the world's great capital cities, but also of the wider social, cultural and political dynamics of early modern Europe. As the centre of Spanish colonial power within Europe during the vicerealty, and with a population second only to Paris in early modern Europe, Naples is a city that deserves serious study. Further, as a Habsburg dominion, it offers vital points of comparison with other European sites which were subject to European colonialism. While European colonization outside Europe has received intense scholarly attention, its cultural impact and representation within Europe remain under-explored. Too much has been taken for granted. Too few questions have been posed. In the sphere of the visual arts, investigation reveals that Neapolitan urbanism, architecture, painting and sculpture were of the highest quality during this period, while differing significantly from those of other Italian cities. For long ignored and regarded as the subaltern sister of Rome, this urban treasure house is only now receiving the attention from scholars that it has so long deserved. This volume addresses the central paradoxes operating in early modern Italian scholarship. It seeks to illuminate both the historiographical pressures that have marginalized Naples and to showcase important new developments in Neapolitan cultural history and art history. The developments showcased here include bot
