Perfect for self-studiers or students, this Farsi language education book takes a user-friendly and clear approach. Farsi is the language of Persia (present-day Iran)—the mellifluous mother tongue of famed 13th-century poet Rumi, whose works are still among the best-selling poems in America today. Farsi for Beginners is a complete language course by experienced teacher Dr. Saeid Atoofi which can help you to speak the language and understand this beautiful work of art in its original, as well as open doors to Persian culture. Whether for pleasure, travel or business, language learners will find these lessons clear and easy to follow. By the end of this course, you'll be able to understand short sentences, express your basic needs, and read and write the 32-letter Farsi alphabet. Farsi for Beginners contains the following essential features: Downloadable native-speaker audio recordings help you to pronounce Farsi accurately. Dialogues and stories about a family traveling to contemporary Iran. Idioms, sayings and poems introducing you to the cultures in which Farsi is used. Extensive exercises with answer keys to guide your learning process. Photos and insider cultural tips teach you about Persian culture. Nearly one million Iranian-Americans live in the U.S. today, and a part of Los Angeles is referred to as "Tehrangeles". Farsi is also considered a "critically needed" language by the U.S. government. Learning Persian with Farsi for Beginners and its accompanying audio disc, can open opportunities for travel, for work, or simply to meet new people and understand their lives in a totally new way.

Don't simply show your data—tell a story with it! Storytelling with Data teaches you the fundamentals of data visualization and how to communicate effectively with data. You'll discover the power of storytelling and the way to make data a pivotal point in your story. The lessons in this illuminative text are grounded in theory, but made accessible through numerous real-world examples—ready for immediate application to your next graph or presentation. Storytelling is not an inherent skill, especially when it comes to data visualization, and the tools at our disposal don't make it any easier. This book demonstrates how to go beyond conventional tools to reach the root of your data, and how to

use your data to create an engaging, informative, compelling story. Specifically, you'll learn how to: Understand the importance of context and audience Determine the appropriate type of graph for your situation Recognize and eliminate the clutter clouding your information Direct your audience's attention to the most important parts of your data Think like a designer and utilize concepts of design in data visualization Leverage the power of storytelling to help your message resonate with your audience Together, the lessons in this book will help you turn your data into high impact visual stories that stick with your audience. Rid your world of ineffective graphs, one exploding 3D pie chart at a time. There is a story in your data—Storytelling with Data will give you the skills and power to tell it!

Postal Clerk and Carrier Exam Cram (473, 473-C, 460)

Achieve KS1 Grammar, Punctuation & Spelling Revision & Practice Questions

Anyone with an interest in working for the US Post Office as a clerk or a mail carrier must take either the 473-C city carrier exam, the 473 retail clerk exam, or the 460 rural carrier exam (which has not changed). Those candidates who receive a 95% or higher score are interviewed first; those with scores lower than 90% aren't often interviewed at all, making these exams extremely competitive. The Postal Clerk and Carrier Exam Cram, Second Edition, is a concise review guide that can help you score higher on the postal clerk and carrier exams and eliminate some of the competition. The new edition covers all of the exam topics from the USPS, including new topics like Address Coding, Forms Completion, and Personal Characteristics and Experience Inventory. These topics replaced number series, memory for addresses, and oral instructions. The Exam Cram also provides exam alerts, strategies, tips, a practice exam on each topic and four full practice exams covering all the topics. The Cram Sheet tear card provides facts for last minute review. Study your way to a higher score with the Postal Clerk and Carrier Exam Cram, Second Edition.

Analyzing Classical Form builds upon the foundations of the author's critically acclaimed Classical Form by offering an approach to the analysis of musical form that is especially suited for classroom use. Providing ample material for study in both undergraduate and graduate courses, Analyzing Classical Form presents the most up-to-date version of the author's "theory of formal functions." Students will learn how to make complete harmonic and formal analyses of music drawn from the instrumental works of Haydn, Mozart, and Beethoven. Part 1 introduces the principal theme-types of classical instrumental music; part 2 provides a methodology for analyzing sonata form, the most important formal type in this style period; and part 3 considers other full-movement forms found in this repertory (such as minuet, rondo, and concerto). The chapters are organized in a way that presents the most basic materials upfront and then leads the student through more details and finer points of theory. Every topic is illustrated with annotated musical examples; as well, the book contains many unannotated examples that can be used for in-class discussion and for out-of-class analytical exercises. A complete glossary of terms and questions for reviewing the theory will help students assimilate the many theoretical concepts employed in the book. A companion website hosted by the author at music.mcgill.ca/acf/ provides audio and musical scores for all of the examples in the book as well as additional examples for the analysis of the simple theme-types presented in part 1.

Barron's Let's Review Regents: Living Environment gives students the step-by-step review and practice they need to prepare for the Regents exam. This updated edition is an ideal companion to high school textbooks and covers all Biology topics prescribed by the New York State Board of Regents. All Regents test dates for 2020 have been canceled. Currently the State Education Department of New York has released tentative test dates for the 2021 Regents. The dates are set for January 26-29, 2021, June 15-25, 2021, and August 12-13th. You'll get one recent Regents exam and question set with explanations of answers and wrong choices. The edition also features teachers' guidelines for developing New York State standards-based learning units. Two comprehensive study units cover the following material: Unit One explains the process of scientific inquiry, including the understanding of natural phenomena and laboratory testing in biology Unit Two focuses on specific biological concepts, including cell function and structure, the chemistry of living organisms, genetic continuity, the interdependence of living

things, the human impact on ecosystems, and several other pertinent topics Looking for additional review? Check out Barron's Regents Living Environment Power Pack two-volume set, which includes Regents Exams and Answers: Living Environment in addition to Let's Review Regents: Living Environment.
