This book provides a comprehensive guide on the basics of essay writing. The first part goes through some of the fundamentals: what an essay actually is, different essay writing styles, the core elements of an essay, organizing, and planning. Going through these basics is integral to any essay writer; it will help establish the tone and structure of your writing, as well as provide for a more cohesive piece. The remainder of the book will outline the specifics of each essay genre. Firstly, we will explain the reason for the genre. Next, explain the elements of the genre. Common language and grammar associated with that particular essay will be explained. Finally, a complete essay example is included, which draws from all of the elements discussed in this guide.

Resistance and Persuasion is the first book to analyze the nature of resistance and demonstrate how it can be reduced, overcome, or used to promote persuasion. By examining resistance, and providing strategies for overcoming it, this new book generates insight into new facets of influence and persuasion. With contributions from the leaders in the field, this book presents original ideas and research that demonstrate how understanding resistance can improve persuasion, compliance, and social influence. Many of the authors present their research for the first time. Four faces of resistance are identified: reactance, distrust, scrutiny, and inertia. The concluding chapter summarizes the book's theoretical contributions and establishes a resistance-based research agenda for persuasion and attitude change. This new book helps to establish resistance as a legitimate sub-field of persuasion that is equal in force to influence. Resistance and Persuasion offers many new revelations about persuasion: *Acknowledging resistance helps to reduce it. *Raising reactance makes a strong message more persuasive. *Putting arguments into a narrative increases their influence. *Identifying illegitimate sources of information strengthens the influence of legitimate sources. *Looking ahead reduces resistance to persuasive attempts. This volume will appeal to researchers and students from a variety of disciplines including social, cognitive, and health psychology, communication, marketing, political science, journalism, and education.

This wild and entertaining novel expands on the true story of the West Indian slave Tituba, who was accused of witchcraft in Salem, Massachusetts, arrested in 1692, and forgotten in jail until the general amnesty for witches two years later.

Maryse Condé brings Tituba out of historical silence and creates for her a fictional childhood, adolescence, and old age. She turns her into what she calls "a sort of female hero, an epic heroine, like the legendary 'Nanny of the maroons,'" who, schooled in the sorcery and magical ritual of obeah, is arrested for healing members of the family that owns her. The President tells the story of a ruthless dictator and his schemes to dispose of a political adversary in an unnamed country usually identified as Guatemala. Drawing on his experience as a journalist writing under repressive conditions, Miguel Angel Asturias provides a blazing indictment of totalitarian government and its damaging psychological effects on society - from the harvest of terror to cowardice, to sycophancy, to treachery and intrigue, and the total sacrifice of human values to lust for power. Written in a language of freedom and originality, full of extraordinary symbolism, biting satire, poetry and dream sequences, with an imagination that is both lyrical and ferocious, The President is a surrealist masterpiece and one of the most influential books of the twentieth century.

EBOOK: Studying at a Distance: A guide for students

Focused on the teaching and learning argumentative writing in grades 9-12, this important contribution to literacy education research and classroom practice offers a new perspective, a set of principled practices, and case studies of excellent teaching. The case studies illustrate teaching and learning argumentative writing as the construction of knowledge and new understandings about experiences, ideas, and texts. Six themes key to teaching argumentative writing as a thoughtful, multi-leveled practice for deep learning and expression are presented: teaching and learning argumentative writing as social practice, teachers' epistemological beliefs about argumentative writing, variations in instructional chains, instructional conversations in support of argumentative writing as deep learning and appreciation of multiple perspectives, contextualized analysis of argumentative writing, and the teaching and learning of argumentative writing and the construction of rationalities.

This new edition will be completely revised and re-worked to present a thoroughly modern and essential handbook to reading, writing & reasoning.

Informative, insightful, and accessible, this book is designed to enhance the capacity of graduate and undergraduate students, as well as early career scholars, to write for academic purposes. Fang describes key genres of academic writing, common rhetorical moves associated with each genre, essential skills needed to write the genres, and linguistic resources and strategies that are functional and effective for performing these moves and skills. Fang's functional linguistic approach to academic writing enables readers to do so much more than write grammatically well-formed sentences. It leverages writing as a process of designing meaning to position language choices as the central focus, illuminating how language is a creative resource for presenting information, developing argument, embedding perspectives, engaging audience, and structuring text across genres and disciplines. Covering reading responses, book reviews, literature reviews, argumentative essays, empirical research articles, grant proposals, and more, this text is an all-in-one resource for building a successful career in academic writing and scholarly publishing. Each chapter features crafts for effective communication, authentic writing examples, practical applications, and reflective questions. Fang complements these

features with self-assessment tools for writers and tips for empowering writers. Assuming no technical knowledge, this text is ideal for both non-native and native English speakers, and suitable for courses in academic writing, rhetoric and composition, and language/literacy education.
