From one of the most exciting writers of fantasy adventure comes the first novel in The Ascendant Kingdoms Saga, a tale of unpredictable magic, battling warlords, and the lust for vengeance set in the unforgiving frozen wastes at the edge of the world. Condemned as a murderer for killing the man who dishonored his sister, Blaine "Mick" McFadden has spent the last six years exiled in Velant, a penal colony in the frigid northern wastelands. Harsh military discipline and the oppressive magic keep a fragile peace as colonists struggle against a hostile environment. But the supply ships from Dondareth have stopped coming, boding ill for the kingdom that banished the colonists. Now, as the world's magic runs wild, McFadden and the people of Velant must fight to survive and decide their fate . . . Praise for the Ascendant Kingdoms Saga "Epic fantasy as it was meant to be read: gripping, action packed, and larger than life. A delight for any fan of the genre!" –Rachel Aaron "Epic fantasy at its best." –Aaron Rosenberg "A vivid, engrossing tapestry woven from epic heroism, post apocalypse struggles, perilous magic and darkest fantasy. A distinct and distinctive achievement." –Juliet McKenna "A book that will take over readers' thoughts until long after the final page." –RT Book Reviews The Ascendant Kingdoms Saga Ice Forged Reign of Ash War of Shadows Shadow and Flame

This book argues that the mythic figure of the zombie, so prevalent and powerful in contemporary culture, provides the opportunity to explore certain social models – such as ‘childhood’ and ‘school’, ‘class’ and ‘family’ – that so deeply underpin educational policy and practice as to be rendered invisible. It brings together authors from a range of disciplines to use contemporary zombie typologies – slave, undead, contagion – to examine the responsiveness of everyday practices of schooling such as literacy, curriculum and pedagogy to the new contexts in which children and young people develop their identities, attitudes to learning, and engage with the many publics that make up their everyday worlds.

This comprehensive survey aims to answer two questions. First, why Australia's eight capital cities are situated where they are, and second, how they were established. Pairs of chapters on each of the state capitals--Sydney, Hobart, Perth, Adelaide, Melbourne, and Brisbane--are accompanied by studies of Canberra as federal capital and Darwin as territorial capital.

Waltzing Australia was born out of a dream-and a journey. After walking away from her corporate career, Cynthia Clampitt headed to Australia, to start over, to write, and to test the limits of what she could do. Waltzing Australia recounts that joyous adventure. It is a story about change and about making dreams come true. But more than that, it is about Australia: the history, legends and art, both European and Aboriginal; the beauty, the challenge, the people, the land. From Sydney to Perth, Tasmania to Darwin, tropics to desert, city to wilderness, Clampitt carries the reader along on an exhilarating grand tour of a fascinating country. With a writing style reminiscent of Annie Dillard, she captures the essence of the land Down Under and invites others to fall in love with Australia.

Government and individual policymakers throughout the developed and developing world face the common problem of bringing expert knowledge to bear in government decision making. Policymakers need understandable, reliable, accessible, and useful information about the societies they govern. They also need to know how current policies are working, as well as possible alternatives and their likely costs and consequences. This expanding need has fostered the growth of independent public policy research organizations, commonly known as think tanks. Think Tanks and Civil Societies analyzes their growth, scope, and constraints, while providing institutional profiles of such organizations in every region of the world. Beginning with North America, contributors analyze think tank development past and future, consider their relationship to the general political culture, and provide detailed looks at such examples as the Heritage Foundation and the Institute for Research on Public Policy. A historical and subregional overview of think tanks throughout Europe notes the emphasis on European Union issues and points to a dramatic rise in the number and influence of free market institutes across the continent. Think tanks in Germany, Spain, and France are profiled with respect to national politics and cultures. Advanced industrial nations of northern Asia are compared and contrasted, revealing a greater need for independent policy voices. Moving to countries undergoing economic transition, contributors deal with challenges posed in Russia and the former Soviet bloc and their think tanks' search for influence, independence, and sustainability. Other chapters deal with the developing countries of Africa, Asia, the Middle East, and Latin America, finding that the number, quality, and independence of think tanks is largely determined by the degree of democracy in individual nations.

Evdokia knew that the crowd was here for her. Hunting her. From the back seat of the Cadillac, she peered into their faces beyond the glass. Angry looks. Perplexed and desolate. Some were already shouting, trying the handles on the doors. There were Russian voices. English voices. Several times the sound of her name. She was certain these people would kill her before they'd let her through the terminal and onto the plane. Beside her, Zharkov thrust the door open and Evdokia stepped out following, thinking she must be mad. Just close your eyes, she thought. Keep your feet marching like the Pioneer Youth. Guns under the jackets of her escorts. This might be it, she realised. A chaos building, a climbing potential. Defector's Wife Dies in Airport Shootout. Canberra, 1951. The Cold War is at its height. Into an atmosphere of paranoia, rumour and suspicion, Vladimir and Evdokia Petrov are among a group of new arrivals at the Soviet Embassy in Canberra. Both are party loyalists, working for the MVD, Moscow intelligence. Yet all is not well in the new city of Canberra. The atmosphere in the Embassy is tense and suspicious; the Ambassador resents their presence, and is secretly working to have Vladimir disgraced and recalled. In the meantime, ASIO are determined to discover who in this new group works for the MVD. Only three short years later, Vladimir has defected and his wife Evdokia is held prisoner at the Soviet Embassy, waiting to be transported back to Russia to face punishment or death for his crime. How did it come to this? A tightly told story of secrets, lies, deception and betrayal - both personal and political - Document Z, the winner of The Australian/Vogel Literary Award, is a taut and atmospheric novel of political espionage and intrigue which brings our recent history vividly and immediately to life. 'Impressive. A distinctive voice, taut writing ... a brooding atmosphere of shadows and spooks.' - Marele Day 'A remarkable achievement . . . a story that is emotionally and politically complex as well as consistently human . . . distinctive and significant' - Matt Rubinstein 'Very impressive . . . absorbing, sophisticated ... beautiful suspenseful writing. A powerful and complex piece, wonderfully crafted.' - Cate Kennedy 'Australia to Z - an alphabet book, but not one for the young and teaching them their letters. Instead Armin Greder has cast his critical eye on us and our symbols.' Libby Gleeson 'Disquieting and potent - a gloves off" account of Australian nationhood, and how we, as a culture, might appear to those from other cultures. This is a profoundly significant work which will - like Greder's The Island and The City - provoke, disturb and challenge the reader's perception of what it means to be Australian, and what it means to be a global citizen.'
