

## Azaleas

A guide to landscaping with three types of shrubs includes growing techniques, advice on preventing damage created by disease and insects, and descriptions of various hybrids.

Available for the first time in English, Azaleas is a captivating collection of poems by a master of the early Korean modernist style. Published in 1925, Azaleas is the only collection Kim Sowol (1902-1934) produced during his brief life, yet he remains one of Korea's most beloved and well-known poets. His work is a delightful and sophisticated blend of the images, tonalities, and rhythms of traditional Korean folk songs with surprisingly modern forms and themes. Sowol is also known for his unique and sometimes unsettling perspective, expressed through loneliness, longing, and a creative use of dream imagery—a reflection of Sowol's engagement with French Symbolist poetry. Azaleas recounts the journey of a young Korean as he travels from the northern P'yongyang area near to the cosmopolitan capital of Seoul. Told through an array of voices, the poems describe the young man's actions as he leaves home, his experiences as a student and writer in Seoul, and his return north. Although considered a landmark of Korean literature, Azaleas speaks to readers from all cultures. An essay by Sowol's mentor, the poet Kim OK, concludes the collection and provides vital insight into Sowol's work and life. This elegant translation by David R. McCann, an expert on modern Korean poetry, maintains the immediacy and richness of Sowol's work and shares with English-language readers the quiet beauty of a poet who continues to cast a powerful spell on generations of Korean readers.

The book is organized around the most common types of plants found in Northwest gardens: evergreen and deciduous shrubs; bamboos and tea roses; rhododendrons, camellia and other tree-like shrubs; hedge plants like boxwood and heather; clematis, wisteria and all those vines; and detailed information on trees by species from dogwoods to weeping cherries. In her trademark witty style, Turnbull also addresses tools, landscape renovation, and design errors. Included too are her amusing Ten Commandments for gardeners, which feature such treasures as "Thou shalt not weed-whip the trunk of thy tree, nor bash it with thine mower, nor leave anything tied on thy tree or the branches of thy tree, as is done in the land of the philistines."*

Born into a devoutly Maoist family in 1950s Shanghai and forced to work on a communal farm from the age of seventeen, Anchee Min found herself in an alienating and hostile political climate, where her only friendships were perilous and intense. Both candid and touching, this compelling memoir documents her isolation and illicit love against the backdrop of China's Cultural Revolution. From her coming of age in the Red Guard to her recruitment into Madame Mao's burgeoning industry of propaganda movies, Red Azalea explores the secret sensuality of a repressive society with elegance and honesty.

*Excerpt from A Flower-Spot Disease of Cultivated Azaleas In April 1931 a hitherto unrecognized disease attacked the flowers of cultivated azaleas in gardens near Charleston, S. C. The outbreak was so sudden and destructive according to observers that hundreds of thousands of flowers at the height of bloom became discolored and softened overnight, and finally collapsed on the bushes. This oc curred within 3 or 4 days from the first recognition of anything ab normal. Local residents, who were familiar with the blooming habits of azaleas in gardens where the disease occurred, were at a loss to account for the malady, as prior to its appearance there had been no departure from the ordinary cultural conditions and no adverse weather, such as frost or drought. The same disease occurred again in February 1932, a season of exceptionally early azalea bloom. A survey of the azalea gardens in the vicinity of Charleston was then initiated by the United States Department of Agriculture, with the result that the new flower disease was found in all the estates visited within an area of 20 miles, extend ing from the city up both sides of the Ashley and Cooper Rivers.
