First, we leaned in. Now we stand up. In this “much-needed combo of real talk, confessions, and lessons learned along the way” (Chelsea Handler), Jaclyn Johnson—the founder and CEO behind Create & Cultivate, the fastest growing online platform for millennial businesswomen—offers a rallying cry for a new generation of women who are redefining the meaning of work on their own terms. Jaclyn suffered a massive blow in her early twenties. She was on an upward career climb and confidently moved across the country for a job—and then, was abruptly let go. Attempting to turn that closed door into an open window, she launched a company with a trusted business partner. Soon after, she discovered said business partner had made detrimental decisions to the company without her knowledge. Before she knew it, she was in the throes of a brutal business partner break up. She was only twenty-four. Determined to bounce back, Jaclyn overhauled the mess that was her life and by the time she was in her early thirties, she had sold a company and launched the much-buzzed about Create & Cultivate platform—and advised and invested in multiple million-dollar projects at the same time. So, how did she do it? In *WorkParty*, Jaclyn shows how she turned distrust into determination, frustration into fuel, and heartache into hard

From the Pulitzer Prize-winning author of The Looming Tower, whose best-selling thriller The End of the October all but predicted our current pandemic, comes another momentous account, this time of COVID-19: its origins, its myriad repercussions, and the ongoing fight to contain it Beginning with the absolutely critical first moments of the outbreak in

China, and ending with an epilogue on the vaccine rollout and the unprecedented events between the election of Joseph Biden and his inauguration, Lawrence Wright's The Plague Year surges forward with essential information--and fascinating historical parallels--examining the medical, economic, political, and social ramifications of the COVID-19 pandemic. Wright takes us inside the CDC, where the first round of faulty test kits cost America precious time; inside the halls of the White House, where Deputy National Security Advisor Matthew Pottinger's early alarm about the virus was met with great skepticism; into a COVID ward in a Charlottesville hospital, with an idealistic young woman doctor from Little Africa, South Carolina; into the precincts of prediction specialists at Goldman Sachs; and even inside the human body, diving deep into the science of just how the virus and vaccines function, with an eye-opening detour into the history of vaccination and of the modern anti-vaxxer movement. In turns steely eyed, sympathetic, infuriated, comical, and always precise, Wright is a formidable guide, slicing through the dense fog of misinformation to give us a 360-degree portrait of the catastrophe we thought we knew. His full accounting does

honor to the medical professionals around the country who've risked their lives to fight the virus, revealing America in all its vulnerability, courage, and potential.

From the bestselling author of *Blink* and *The Tipping Point*, Malcolm Gladwell's *Outliers: The Story of Success* overturns conventional wisdom about genius to show us what makes an ordinary person an extreme overachiever. Why do some people achieve so much more than others? Can they lie so far out of the ordinary? In this provocative and inspiring book, Malcolm Gladwell looks at everyone from rock stars to professional athletes, software billionaires to scientific geniuses, to show that the story of success is far more surprising, and far more fascinating, than we could ever have imagined. He reveals that it's as much about where we're from and what we do, as who we are - and that no one, not even a genius, ever makes it alone. *Outliers* will change the way you think about your own life story, and about what makes us all unique.

'Gladwell is not only a brilliant storyteller; he can see what those stories tell us, the lessons they contain'
