The focus of the hearing was on "Crazy Horse" malt liquor, a product named for the spiritual and political leader of the Native American Sioux. Following opening remarks by presiding committee chairwoman, Patricia Schroeder, the brewery in question, by letter, objected to not being allowed to participate in the hearing and denied the allegation of targeting Native Americans in marketing its product. Native American Leaders Since 1900

The Encyclopedia of Politics in the American West is an A to Z reference work on the political development of one of America’s most politically distinct, not to mention its fastest growing, region. This work will cover not only the significant events and actors of Western politics, but also deal with key institutional, historical, environmental, and sociopolitical themes and concepts that are important to more fully understanding the politics of the West over the last century.

Rodney King framed an eternal question of American politics when he asked: Can we all get along? The second edition of this widely acclaimed text was expanded to reflect the latest scholarship and the most recent events in Americas ongoing struggle with racial issues; the new version of the second edition has been fully updated to include results and analysis from the 1998 mid-term elections. Here, Paula McClain and Joseph Stewart combine traditional elements of political science analysis history, Constitutional theory, institutions, political behavior, and policy actors with a thoroughgoing survey of the political status of four major groups: African Americans, Latinos, Asian Americans, and American Indians. They show similarities and differences in these groups political action and experience, and point the way toward coalition, competition, and consensus-building in the face of ongoing conflict. Two dilemmas shape the book: How do we as a nation reconcile a commitment to equality with persistent inequality and discrimination? And what can we do about it from the perspective of ethnic and racial minorities as well as within the dominant culture? Rodney King framed what might be called the enduring question of American politics from the Founding forward: Can we all get along? In a nation built by immigrants and bedeviled by the history and legacy of slavery, issues of liberty, equality, and community continue to challenge Americans. Whether we look at the Los Angeles riots, the patterns of ethnic representation in Congress, or examples of discrimination in schools, we see that getting along is intimately connected with who gets what, when, and how the traditional definition of politics.

From judo to jewelry design to politics, Senator Campbell has turned persistence, determination, and pride in himself and his Native-American heritage into success.
