Bharat Mein Shiksha Ka Vikas

[illegible] Hundreds of social and developmental schemes supported by Central and State Governments including external agencies are in place in the country for more than a decade. There are other flagship programmes of the government such as AMRUT, HRIDAY, NULM, DAY-NRLM, PMAY-G, PMSSY, SAGY, JNNURM, GRKY, SPMRM, PURA including Smart Cities Mission with their main aim to make India Smart. Most of the schemes have no clear aims and objectives, no time-bound work plan and no monitoring and evaluation framework. Expected output, outcome and impact are also missing. Accountability, responsibility, transparency and synergy with other programmes are absolutely 'No'. After the scheme is closed, no body bothers about the results, their socio-economic impact and long-term sustainability of the gains achieved. Piece meal approach is not going to make any difference in living standard of the countrymen. Need is for smart and holistic approach covering the whole country-both rural and urban India. The Book packed in 5 chapters provides in depth and detailed information on smart and holistic development of urban and rural India. The important areas covered in the book are: 1) Smart Cities Mission and Other Programmes, 2) Developing Delhi, A Role Model of Smart India, 3) Developing Dwarka, A Role Model of Sub-Cities, 4) Developing Rural Delhi, A Role Model of Khushhaal Bharat and 5) Action Plan in Project Mode.

The book reflects on the discreet influence of Hindutva in situations/places outside or at the margins of its organisational and mobilisational arena, where people denying any commitment to the Sangh Parivar, incidentally, show affinities and parallelisms with its discourse and practice. This study looks at Hindutva's entrenchment not so much as an orchestration from above but more as an outcome of a process that evolves in relation to specific social and cultural milieus. The contributors analyse Hindutva's entrenchment, emphasising on the ethnography of the forms of mediation and/or convergence produced in certain contexts. The 11 case studies highlight three different dynamics of Hindutva's cultural entrenchment. The first section gathers cases where RSS-affiliated organisations have set up specific cultural or artistic programmes at the regional level, involving the meditation of local people whose interest in these programmes does not necessarily mean that they endorse the Hindutva agenda completely. The next deals with convergence and refers to cases where the followers gather around a charismatic personality, whose precepts and practice may bring them towards a closer affinity with the Hindutva programme. The last section deals with the contexts of resistance, where social milieus engaged in opposing Hindutva may, in fact, paradoxically, and even inadvertently, imbibe some of its ideas and practices in order to contest its claims.

Specters of Mother India tells the complex story of one episode that became the tipping point for an important historical transformation. The event at the center of the book is the massive international controversy that followed the 1927 publication of Mother India, an exposé written by the American journalist Katherine Mayo. Mother India provided graphic details of a variety of social ills in India, especially those related to the status of women and to the particular plight of the country's child wives. According to Mayo, the roots of the social problems she chronicled lay in an irredeemable Hindu culture that rendered India unfit for political self-government. Mother India was reprinted many times in the United States, Great Britain, and India; it was translated into more than a dozen languages; and it was reviewed in virtually every major publication on five continents. Sinha provides a rich historical narrative of the controversy surrounding Mother India, from the book's publication through the passage in India of the Child Marriage Restraint Act in the closing months of 1929. She traces the unexpected trajectory of the controversy as critics acknowledged many of the book's facts only to overturn its central premise. Where Mayo located blame for India's social backwardness within the beliefs and practices of Hinduism, the critics laid it at the feet of the colonial state, which they charged with impeding necessary social reforms. As Sinha shows, the controversy became a catalyst for some far-reaching changes, including a reconfiguration of the relationship between the political and social spheres in colonial India and the coalescence of a collective identity for women.
