Literary Nonfiction. Art. Hybrid Genre. The work of Bronx native Rochelle Feinstein is deeply informed by abstraction, while also conveying a keen sensibility to contemporary culture, particularly to our everyday use of language. Over the span of the last four decades, Feinstein has probed the relevance of the abstract painting tradition vis-a-vis a rapidly changing cultural environment. She has used the lexicon of abstract painting to approach subjects of both personal and social import such as the televised police pursuit of OJ Simpson (El Bronco, 1994); the Iraq war (Hotspots, 2003-2016), and the economic downturn of 2008 (The Estate of Rochelle F., 2010). PLS. REPLY intends to give readers a broad scope of Feinstein's ongoing engagement with the subject, whether in magazine articles, personal writing, conference presentations, school assignments, or exhibition proposals. Co-published with The Bronx Museum of the Arts and Stellar Projects. 16 full color plates. Letterpressed covers and bookmark.

ABOUT THE BOOK *That's Just Not It* is a contemporary fiction novella narrated by a young Filipina named Jesse Danielle or JD for short, who recalls her youth and her memories as a child before her mother and her sister migrated abroad while she decided to live with her father in her home country. A decade after, her sister comes back home to introduce her boyfriend and the past catches up to JD as she reflects on the paths she and her sister have taken. As JD reflects on the life she has so far lived, she comprehends what the real meaning of life is and what makes a person successful. Along the way, she makes realizations about issues of racial discrimination, xenocentrism, and prejudice. Rather than exploring the ideas of what life is, the existentialist topic of the novella is exploring what life isn't. Rather than describing what happiness looks like, the novella describes what it doesn't look like.

Sunlight on a Broken Column, first published in 1961, is an unforgettable coming-of-age story set against the turbulent background of Partition. 'The deftness with which Attia Hosain handles the interplay of manners, class, culture and different forms of female power is gorgeously done . . . Laila is such a remarkable heroine - sharp, spirited and passionate' - KAMILA SHAMSIE 'An extraordinary novel, with an extraordinary heroine. Laila - even from the confines of the women's quarters - is a sharp observer of the tumultuous politics, and the cultural, racial, and religious conflicts of the dying days of the Raj. There is such richness here, waiting to be rediscovered. And readers will fall in love with Laila' MONICA ALI 'My life changed. It had been restricted by invisible barriers almost as effectively as the physically restricted lives of my aunts in the zenana. A window had opened here, a door there, a curtain had been drawn aside; but outside lay a world narrowed by one's field of vision' Laila, orphaned daughter of a distinguished Muslim family, is brought up in her grandfather's traditional household by her aunts, who keep purdah. At fifteen she moves to the home of her 'liberal' but autocratic uncle in Lucknow. As the struggle for Independence sharpens, Laila is surrounded by relatives and university friends caught up in politics, but she is unable to commit herself to any cause: her own fight for independence is a struggle against tradition. With its stunning evocation of India, its political insight and unsentimental understanding of the human heart, Sunlight on a Broken Column is a classic of Muslim life. Attia Hosain published only two books, but her writing has influenced generations of writers. Discover Phoenix Fled, Hosain's acclaimed short-story collection, also published in Virago Modern Classics.

The rule of law for Tawny owl forbids crossing the borders to no man's land. The young Tawny owl Olmo decides to resist this ancient rule, too much fascinated by the dark secrets of ancient times. Unafraid, he leaves his desolate homeland and embarks on a life-threatening journey. But his decision has serious consequences that will dramatically change the lives of the owl population. 'A moving story that can hardly be thought more exemplary as a fable of the entanglement of people of our time. I hope this book is widely read.' (Hans Bemann, author of 'The Stone and the Flute') 'Am an Owl' is published for the first time in the original language. A relentless system regulates the coexistence of Barn owls, Tawny owls and Little owls. In the land of the owls, violations of these ancient rules are punished with death. But a new era has begun: former enemies inevitably become allies in the fight against a common, old enemy. With poetic wit and captivating powers of observation, Martin Hocke has woven this fantastic trilogy of novels, which revolves around owls and other nocturnal birds, into a parable that stands in the tradition of 'Watership Down' and 'Wind in the Willows'. Individual volumes: 'Ancient Solitary Reign', 'The Lost Domain', 'Am an Owl'

I am inclined to think with you, that a Spaniard, who, like myself, has resided many years in England, is, perhaps, the fittest person to write an account of life, manners and opinions as they exist in this country, and to shew them in the light which is most likely to interest an Englishman. The most acute and diligent travellers are subject to constant mistakes; and perhaps the more so, for what is generally thought a circumstance in their favour—a moderate knowledge of foreign languages. A traveller who uses only his eyes, will confine himself to the description of external objects; and though his narrative may be deficient in many topics of interest, it will certainly be exempt from great and ludicrous blunders. The difficulty, which a person, with a smattering of the language of the country he is visiting, experiences every moment in the endeavour to communicate his own, and catch other men's thoughts, often urges him into a sort of mental rashness, which leads him to settle many a doubtful point for himself, and to forget the unlimited power, I should have said tyranny, of usage, in whatever relates to language.

Anand Kumar, a mathematics prodigy, defied all challenges to set up one of the most successful and innovative teaching initiatives in the world—Super 30. Born in Chandipur Bela, Patna, Anand secured a place in Cambridge University but couldn't attend because he had no money and sold papads in the evenings instead. He dealt with his own disappointment by setting up an innovative school in 2002 to prepare underprivileged students for the IIT JEE examination. Super 30 has an astonishing success rate and on an average, twenty-seven to twenty-eight of the thirty students crack the exam every year. Stirring and heart-wrenching, this is the extraordinary story of a visionary who has elevated these bright sparks and, through education, given them hope to rise above crippling poverty.

Yoga has a rich, 5,000-year history and on the grounds that it is a particularly multi-layered practice, which has in the past entwined with religion, theory and obviously work out, nailing down a definite beginning has demonstrated troublesome. Yoga is basically a profound order that focuses on inconspicuous science that spotlights on accomplishing congruity between a person's brain and body. The word Yoga initially showed up in the most established holy messages, the Rig Veda and is gotten from the Sanskrit root "Yuj" which means join or join together. As per the Yogic sacred texts, the act of Yoga drives a person to the association of awareness with that of general Consciousness. It ultimately prompts an extraordinary amicability between the human psyche and body, man and nature.

India-China Relations

Set against the backdrop of the Vietnam War and the Civil Rights movement of the mid-nineteen sixties, Three Cities chronicles the journey of twenty-three-year-old law student John Carter who one fall semester abandons the Catholic Church, drops out of law school, and leaves his job as an attendant in a detention center for juvenile males who have run afoul of the law. Plagued by the possibility of re-activation by the Marine Corps, questions of what justice and character might be, what they might require of him in twentieth century America, and shadowed by the anomalies of memory, identity and consciousness, on a five-year plan to reassemble his life, he moves through three cities, St. Louis, Chicago and Iowa City, with a host of fringe and a few not so fringe historical, scientific, and literary characters. Then, years later, curious about the veracity of the past he has created, still hoping to constitute or re-constitute the conscious-self he sought in his earlier plan, he revisits the cities (somewhat) to remember, reminisce, and discover.
