SHORTLISTED for the CILIP Carnegie Medal, WINNER of the UKLA 'A masterpiece from beginning to end.' Angie Thomas, author of The Hate U Give AND THEN THERE WERE SHOTS Everybody ran, ducked, hid, tucked themselves tight. Pressed our lips to the pavement and prayed the boom, followed by the buzz of a bullet, didn't meet us. After Will's brother is shot in a gang crime, he knows the next steps. Don't cry. Don't snitch. Get revenge. So he gets in the lift with Shawn's gun, determined to follow The Rules. Only when the lift door opens, Buck walks in, Will's friend who died years ago. And Dani, who was shot years before that. As more people from his past arrive, Will has to ask himself if he really knows what he's doing. Cross-currents

From New York Times–bestselling author Deborah Underwood comes Finding Kindness, a heartfelt picture book illustrated by Irene Chan. Celebrate kindness in all its many forms. This is a powerful story of community, compassion, and generosity of spirit—perfect for sharing! Kindness is sometimes a cup and a card, or a ladder, a truck, and a tree. A scratch and a cuddle. A rake and a yard.

The clouds drift across the bright blue sky—all except one. Little Cloud trails behind. He is busy changing shapes to become a fluffy sheep, a zooming airplane, and even a clown with a funny hat. Eric Carle's trademark collages will make every reader want to run outside and discover their very own little cloud.

"Many artists seek to attain immortality through their art, but few would expect their work to outlast the human race and live on for billions of years. As Canadian poet Christian Bök has realized, it all comes down to the durability of your materials."—The Guardian Internationally best-selling poet Christian Bök has spent more than ten years writing what promises to be the first example of "living poetry." After successfully demonstrating his concept in a colony of *E. coli*, Bök is on the verge of enciphering a beautiful, anomalous poem into the genome of an unkillable bacterium (*Deinococcus radiodurans*), which can, in turn, "read" his text, responding to it by manufacturing a viable, benign protein, whose sequence of amino acids enciphers yet another poem. The engineered organism might conceivably serve as a post-apocalyptic archive, capable of outlasting our civilization. Book 1 of The Xenotext constitutes a kind of "demonic grimoire," providing a scientific framework for the project with a series of poems, texts, and illustrations. A Virgilian welcome to the Inferno, Book 1 is the "orphic" volume in a diptych, addressing the pastoral heritage of poets, who have sought to supplant nature in both beauty and terror. The book sets the conceptual groundwork for the second volume, which will document the experiment itself. The Xenotext is experimental poetry in the truest sense of the term. Christian Bök is the author of Crystallography (1994) and Eunoia (2001), which won the Griffin Poetry Prize. He teaches at the University of Calgary in Alberta, Canada.

Fourth-graders around the country face new, high-stakes standardized tests, drawing increased attention to the need for effective literacy instruction in the upper-elementary grades. This essential book goes beyond political catch-phrases to examine what actually works in the fourth-grade classroom. After reviewing current research on upper-elementary reading instruction, the book takes readers directly into the classrooms of six highly successful teachers. Like the previously published Learning to Read, which focused on the first grade, Reading to Learn offers a rare view of the techniques and strategies good teachers use to engage students, help them develop as thoughtful readers and writers, and bolster self-directed learning and literate conversation. Bringing to life the complexities of day-to-day work with diverse students, the book provides inspiration and practical ideas for any teacher in the upper-elementary grades.

As the visual representation of an essentially oral text, Sylvia Huot points out, the medieval illuminated manuscript has a theatrical, performative quality. She perceives the tension between implied oral performance and real visual artifact as a fundamental aspect of thirteenth- and fourteenth-century poetics. In this generously illustrated volume, Huot examines manuscript texts both from the performance-oriented lyric tradition of chanson courtoise, or courtly love lyric, and from the self-consciously literary tradition of Old French narrative poetry. She demonstrates that the evolution of the lyrical romance and dit, narrative poems which incorporate thematic and rhetorical elements of the lyric, was responsible for a progressive redefinition of lyric poetry as a written medium and the emergence of an explicitly written literary tradition uniting lyric and narrative poetics. Huot first investigates the nature of the vernacular book in the thirteenth and fourteenth centuries, analyzing organization, page layout, rubrication, and illumination in a series of manuscripts. She then describes the relationship between poetics and manuscript format in specific texts, including works by widely read medieval authors such as Guillaume de Lorris, Jean de Meun, and Guillaume de Machaut, as well as by lesser-known writers including Nicole de Margival and Watriquet de Couvin. Huot focuses on the writers' characteristic modifications of lyric poetics; their use of writing and performance as theme; their treatment of the poet as singer or writer; and of the lady as implied reader or listener; and the ways in which these features of the text were elaborated by scribes and illuminators. Her readings reveal how medieval poets and book-makers conceived their common project, and how they distinguished their respective roles.

As poets continue to use digital media technology, functionalities of computing extend aesthetic possibilities in documents focusing attention on crafting verbal content. Utility of these machines and tools enables multiple types of compounded articulation (combinations of verbal, visual, animated, and interactive elements). Building larger public awareness of the mechanics of digital poetry, New Directions in Digital Poetry aspires to influence the formation of writing with media in literary society of the future, specifically as a record of a particular technological era. Emerging from these studies is that digital poetry as a WWW-based, networked form happens 'in stages', 'on stages'. Few works require singular responses from viewers - both composition of works and viewing them are processes involving multiple steps and visual scenarios. For anyone interested in the interplay of poetry and technology, this book provides an informed look at digital poetry in its contemporary state. In the process of performing "close readings," Funkhouser makes suggestions and provides methods for viewing works, for audiences perhaps unfamiliar with mechanical and semiotic conventions being used.

This collection – to be issued in three volumes – offers an unprecedented repertoire of vertical readings for the whole poem. As the first volume exemplifies, vertical reading not only articulates unexamined connections between the three canticles but also unlocks engaging new ways to enter into core concerns of the poem. The three volumes thereby provide an indispensable resource for scholars, students and enthusiasts of Dante. The volume has its origin in a series of thirty-three public lectures held in Trinity College, the University of Cambridge (2012-2016) which can be accessed at the Cambridge Vertical Readings in Dante’s Comedy website.

A special edition for adults of Katherine Applegate's New York Times–bestselling novel about an oak tree and a crow who help their neighbors embrace their differences. Trees can't tell jokes, but they can certainly tell stories. . . . Red is an oak tree who is many rings old. Red is the neighborhood "wishtree"—people write their wishes on pieces of cloth and tie them to Red's branches. Along with a crow named Bongo and other animals who seek refuge in Red's hollows, this wishtree watches over the neighborhood. When a new family moves in, not everyone is welcoming, and Red's experience as a wishtree is more important than ever. With a message of inclusion for dreamers and welcomers, this is a book for our lives and times. "A beautifully written, morally bracing story that will leave its imprint on a reader of any age." —The New York Times Book Review

The Chronica by the grammarian Apollodorus of Athens (2nd century BC) was an exemplary chronographical reference work. It was composed in trimeters and represents the first Iambic didactic poem ever. So far, the surviving original verses have hardly been appreciated and analyzed in their own terms. Therefore a comprehensive collection of these verses is provided, including an introduction, edition, translation and commentary. Most verses stem from Philodemus' Index Academicorum, a Herculeanean papyrus. Through the use of new imaging techniques and cutting-edge editing methods, enormous textual progress has been made. Many verses have been newly restored or significantly improved. They often reveal new hard facts about Academic philosophers and also bear some relevance for the dating of the Chronica and for Apollodorus' biography. In short, this collection guarantees easy access to the genuine verses of the Chronica, as originally drafted by Apollodorus, and thereby facilitates a contextualization or comparison with other (Iambic) didactic poems on a dramatically changed textual basis. The scope of the book fulfills various scholarly desiderata from a historical, philosophical, philological and literary-critical standpoint.

August Pullman stole the hearts of over a million readers in the bestselling, award-winning WONDER. 365 DAYS OF WONDER is a beautiful companion to the novel: a collection of quotes and wise words, one for every day of the year. It includes funny, insightful, inspiring thoughts from WONDER's fans, famous authors and personalities - from Roald Dahl and Paul McCartney to Anne Frank, Tolkien and Popeye - and from the novel itself. It's the perfect gift for anyone who loved WONDER, and it's a book to be treasured and enjoyed again and again.

This book examines volatility, uncertainty, complexity and ambiguity (VUCA) and addresses the need for broader knowledge and application of new concepts and frameworks to deal with unpredictable and rapid changing situations. The premises of VUCA can shape all aspects of an organization. To cover all areas, the book is divided into six sections. Section 1 acts as an introduction to VUCA and complexity. It reviews ways to manage complexity, while providing examples for tools and approaches that can be applied. The main focus of Section 2 is on leadership, strategy and planning. The chapters in this section create new approaches to handle VUCA environments pertaining to these areas including using the Tetralemma logics, tools from systemic structural constellation (SySt) approach of psychotherapy and organizational development, to provide new ideas for the management of large strategic programs in organizations. Section 3 considers how marketing and sales are affected by VUCA, from social media 's influence to customer value management. Operations and cost management are highlighted in Section 4. This section covers VUCA challenges within global supply chains and decision-oriented controlling. In Section 5 organizational structure and process management are showcased, while Section 6 is dedicated to addressing the effects of VUCA in IT, technology and data management. The VUCA forces present businesses with the need to move from linear modes of thought to problem solving with synthetic and simultaneous thinking. This book should help to provide some starting points and ideas to deal with the next era. It should not be understood as the end of the road, but as the beginning of a journey exploring and developing new concepts for a new way of management.

Lailah's Lunchbox: A Ramadan Story

The New York Mirror

Twelve-year-old Samuel Collier is a lowly commoner on the streets of London. So when he becomes the page of Captain John Smith and boards the Susan Constant, bound for the New World, he can't believe his good fortune. He's heard that gold washes ashore with every tide. His journey and his first contact with the native people, he realizes that the New World is nothing like he imagined. The lush Virginia shore where they establish the colony of James Town is both beautiful and forbidding, and it's hard to know who's a friend or foe. As he learns the land, Samuel observes Captain Smith's wise diplomacy. Samuel begins to see that he can be whomever he wants to be in this new land.

Congressman John Lewis (GA-5) is an American icon, one of the key figures of the civil rights movement. His commitment to justice and nonviolence has taken him from an Alabama sharecropper's farm to the halls of Congress, from a segregated schoolroom to the 1963 March on Washington, receiving beatings from state troopers to receiving the Medal of Freedom from the first African-American president. Now, to share his remarkable story with new generations, Lewis presents March, a graphic novel trilogy, in collaboration with co-writer Andrew Aydin and New York Times bestselling author Nate Powell (winner of the Eisner Award and LA Times Book Prize finalist for Swallow Me Whole). March is a vivid first-hand account of John Lewis' lifelong struggle for civil and human rights, meditating in the modern age on the distance traveled since the days of Jim Crow and the American dream. March is also a reflection on the highs and lows of the broader civil rights movement. Book One spans John Lewis' youth in rural Alabama, his life-changing meeting with Martin Luther King, Jr., the birth of the Nashville Student Movement, and their battle to tear down segregation. Book Two follows the Selma to Montgomery marches, leading to the Voting Rights Act that would secure the right to vote for African Americans. Book Three tells the story of the 1964 Freedom Summer, the 1965 Selma march, and the 1968 presidential campaign, building to a stunning climax on the steps of City Hall. Many years ago, John Lewis and other student activists drew inspiration from the 1958 comic book Martin Luther King and the Montgomery Story. Now, his own comics bring those days to life for a new generation, and his message of courage and nonviolence lives on. In many ways, the story of March is a story of Lewis' life. His movement whose echoes will be heard for generations.

Acrostic? What kind of stick is that? Actually, it's a poem! Acrostic poems are created from a word or phrase written vertically down the page. Each letter becomes part of a line in the poem, revealing a thought or a clue about the poem's topic. Award-winning author Brian P. Cleary shows how even the wackiest words can make an acrostic poem. Bow-Tie Pasta is packed with acrostics to make you snicker and snort. And when you've finished reading, you can try your hand at writing your own poems!
