Book three of Bondage & Breakfast A year ago, Detective Delia Robinson and Fire Marshal Colin Butler got up close and personal while working a case. But their sizzling relationship didn't last. Now there's a serial arsonist on the loose, and it's up to Delia and Colin to bring him down—if they can resist their attraction long enough to concentrate on the investigation. Delia quickly sees the connection between the crime scenes: elements of BDSM. Though she denies it, Colin is stunned by the realization

*that his former lover is aroused by the idea of bondage play. And suddenly he can't stop fantasizing about being the one to bind her... Unsure how Colin would react, Delia never revealed her desire to be dominated in the bedroom. But she'll finally have the chance to find out when they go deep undercover—as a married couple at a B&B offering classes in domination and submission... Look for *Forbidden Fantasies and Forbidden Desires*, available now. 52,000 words*

Published to coincide with the 60th anniversary of the 250fF's debut and first World Championship success this new Haynes manual captures the best of this car. The Maserati 250F is one of the classic grand prix cars of all time and won F1 World Championships in 1954 and 1957, both in the hands of Juan Manuel Fangio. Stirling Moss, who won the 1956 Monaco Grand Prix in a 250F, described the car as the nicest front-engined F1 car he drove during his career. Here, in this new Haynes Manual, is a unique perspective on what it takes to restore, maintain and race a Maserati 250F, as well as an insight into the design, engineering, and development and period race history of this iconic racing car.

Despite important past reforms, the ageing population of Mauritius threatens the sustainability of its pension system. This paper examines how pension spending might increase without reforms and discusses reforms options. The findings suggest that unifying the retirement age and indexing it to life expectancy would contribute most significantly to secure and sustainable pensions. The poverty reducing objective of the universal pension can be improved by better targeting. The old age protection objective of the National Pension Fund could be strengthened by increasing contribution and replacement rates. Implementing changes faster should result in less drastic future changes and fairer outcomes. Vols. for 1970-71 includes manufacturers' catalogs.
