A Report to the President and to
the Congress

*Increasing numbers of
Americans are fleeing cities and
suburbs for the small towns and
open spaces that surround
national and state parks, wildlife
refuges, historic sites, and other
public lands. With their scenic
beauty and high quality of life,
these "gateway communities"
have become a magnet for those
looking to escape the congestion
and fast tempo of contemporary
American society. Yet without
savvy planning, gateway
communities could easily meet
the same fate as the suburban
communities that were the*

promised land of an earlier generation. This volume can help prevent that from happening. The authors offer practical and proven lessons on how residents of gateway communities can protect their community's identity while stimulating a healthy economy and safeguarding nearby natural and historic resources. They describe economic development strategies, land-use planning processes, and conservation tools that communities from all over the country have found effective. Each strategy or process is explained with specific examples, and numerous profiles

and case studies clearly demonstrate how different communities have coped with the challenges of growth and development. Among the cities profiled are Boulder, Colorado; Townsend and Pittman Center Tennessee; Gettysburg, Pennsylvania; Tyrrell County, North Carolina; Jackson Hole, Wyoming; Sanibel Island, Florida; Calvert County, Maryland; Tuscon, Arizona; and Mount Desert Island, Maine. Balancing Nature and Commerce in Gateway Communities provides important lessons in how to preserve the character and integrity of
