This work represents a collection of the most pertinent writing of the past fifteen years in the United States and Canada on the topic of lesbians and child custody. Articles were selected on the basis of their relevance, succinctness, and representativeness of the various aspects of child custody involving lesbians. Some of the original psychological studies comparing lesbian mothers to heterosexual mothers were sacrificed in favor of the piece by Patricia Falk, a thorough review of the psychological literature. For others, the length of the manuscript was prohibitive as was the case with the thorough, step-by-step Lesbian Mothers Litigation Manual by Donna Hitchens and Roberta Achtenberg of the National Center for Lesbian Rights.

Book Description: This Medicaid book is a step-by-step guide for applying for Medicaid for nursing home payment. Who's going to pay for those nursing home expenses? The parent/spouse is sick, too sick to stay at home, has to be placed in a nursing home, yet there are no funds to pay for it. Also, an issue, which compounds the problem, is most nursing homes want a source of payment before admitting a patient. Medicaid Made Easy has a listing by state of all the Medicaid offices. If your parent lives in Florida and you live in California, Medicaid Made Easy will explain what is required to apply for Medicaid, and direct you to the appropriate Medicaid office in the state where your parents live. Medicaid Made Easy specifically speaks to the patient and their families in understandable terms. Medicaid Made Easy will explain in detail how to apply and complete a Medicaid application. It will tell what documentation is needed, give an explanation of income and resources, and discuss rights and responsibilities. It will give a description of penalties if assets have been given away, and explain how much must be contributed to pay for their cost of care each month, etc. Authors Bio: Beverly H. In this completely revised and updated classic, Professors Roberts and Springer, along with 51 justice-oriented and forensic experts, have set the standard of care for mental health treatment and the delivery of social services to crime victims, juvenile and adult offenders, and their families. The second edition of Social Work in Juvenile and Criminal Justice Settings was published almost ten years ago in 1997, and was also translated to Chinese. Now Dr. Roberts, Dr. Springer, and their team of 51 prominent chapter authors have done such a thorough job of updating and finding new authors, that the end result is a comprehensive new book. In this third edition, 16 of the 31 chapters are new and specially written for this book. A growing number of mental health professionals are recognizing the need to examine current evidence-based program developments, assessment, and treatment practices with crime victims and offenders. This book focuses on the multiple roles and practices of justice social workers, also known as forensic social workers and crisis counselors. Many professional social workers, counselors and field placement students work in corrections and probation, forensic mental health, addictions treatment, juvenile justice, victim assistance, and police social work settings. In the words of Dean Barbara W. White (former President, Council on Social Work Education, and NASW) in her laudatory Foreword to this edition: "This groundbreaking book provides the necessary blueprints

and guidelines for best practices with crime victims as well as juvenile and adult offenders in institutional, community- based, diversion, and aftercare programs. . . . This is the first all-inclusive, authoritative, exceptionally well-written volume on social policies and social work practices in both juvenile justice and criminal justice settings. . . . This book is a landmark achievement." An increasing number of offenders and victims have been found to be
