The first comprehensive study of its kind, this fully illustrated book establishes Paganism as a persistent force in European history with a profound influence on modern thinking. From the serpent goddesses of ancient Crete to modern nature-worship and the restoration of the indigenous religions of eastern Europe, this wide-ranging book offers a rewarding new perspective of European history. In this definitive study, Prudence Jones and Nigel Pennick draw together the fragmented sources of Europe's native religions and establish the coherence and continuity of the Pagan world vision. Exploring Paganism as it developed from the ancient world through the Celtic and Germanic periods, the authors finally appraise modern Paganism and its apparent causes as well as addressing feminist spirituality, the heritage movement, nature-worship and `deep' ecology This innovative and comprehensive history of European Paganism will provide a stimulating, reliable guide to this popular dimension of religious culture for the academic and the general reader alike.

It began -- and ended -- in 1958 when seven children searched in the drains beneath Derry for an evil creature, but in 1985, Mike, once one of those children, makes six phone calls and disinters an unremembered promise that sets off the ultimate terror.

The idea of etnos came into being over a hundred years ago as a way of understanding the collective identities of people with a common language and shared traditions. In the twentieth century, the concept came to be associated with Soviet state-building, and it fell sharply out of favour. Yet outside the academy, etnos-style arguments not only persist, but are a vibrant part of regional anthropological traditions. Life Histories of Etnos Theory in Russia and Beyond makes a powerful argument for reconsidering the importance of etnos in our understanding of ethnicity and national identity across Eurasia. The collection brings to life a rich archive of previously unpublished letters, fieldnotes, and photographic collections of the theory's early proponents. Using contemporary fieldwork and case studies, the volume shows how the ideas of these ethnographers continue to impact and shape identities in various regional theatres from Ukraine to the Russian North to the Manchurian steppes of what is now China. Through writing a life history of these collectivist concepts, the contributors to this volume unveil a world where the assumptions of liberal individualism do not hold. In doing so, they demonstrate how notions of belonging are not fleeting but persistent, multi-generational, and bio-social. This collection is essential reading for anyone interested in Russian and Chinese area studies. It will also appeal to historians and students of anthropology and ethnography more generally.

Freedom in the World, the Freedom House flagship survey whose findings have been published annually since 1972, is the standard-setting comparative assessment of global political rights and civil liberties. The survey ratings and narrative reports on 195 countries and fourteen territories are used by policymakers, the media, international corporations, civic activists, and human rights defenders to monitor trends in democracy and track improvements and setbacks in freedom worldwide. The Freedom in the World political rights and civil liberties ratings are determined through a multi-layered process of research and evaluation by a team of regional analysts and eminent scholars. The analysts used a broad range of sources of information, including foreign and domestic news reports, academic studies, nongovernmental organizations, think tanks, individual professional contacts, and visits to the region, in conducting their research. The methodology of the survey is derived in large measure from the Universal Declaration of Human Rights, and these standards are applied to all countries and territories, irrespective of geographical location, ethnic or religious composition, or level of economic development.

When big feelings come, do you ever feel like howling at the moon? Maggie does. Howls an empowering story of a young girl's self-expression. Maggie has had a very bad day. First of all, the sun was the wrong shape, in a sky that was too blue. The spaghetti was too long, and her pyjamas were the wrong kind of pyjama. Then Maggie begins to have wolfish thoughts ...

This annotated reference provides information on the copyright status of over 20,000 features, short films, television programs, and documentaries. The United States copyright system allows a film to fall into the public domain if a renewal is not filed in the twenty-eighth year after its release. Such public domain films may be used by anyone for free, but finding out which films are or are not still under copyright can be expensive and tedious. This guide alleviates that expense and drudgery by including all motion pictures registered for copyright in the 1950s, as well as 500 that were received after 1959. The book also includes an overview of the copyright system and sample certificates. All renewals of copyrights are noted, allowing readers to clearly see which items are or are not in the public domain.

In this powerful and provocative book, Prasenjit Duara uses the case of Manchukuo, the Japanese puppet state in northeast China from 1932-1945, to explore how such antinomies as imperialism and nationalism, modernity and tradition, and governmentality and exploitation interacted in the post-World War I period. His study of Manchukuo, which had a population of 40 million and was three times the area of Japan, catalyzes a broader understanding of new global trends that characterized much of the twentieth century. Asking why Manchukuo so desperately sought to appear sovereign, Duara examines the cultural and political resources it mobilized to make claims of sovereignty. He argues that Manchukuo, as a transparently constructed "nation-state," offers a unique historical laboratory for examining the utilization and transformation of circulating global forces mediated by the "East Asian modern." Sovereignty and AUthenticity not only shows how Manchukuo drew technologies of modern nationbuilding from China and Japan, but it provides a window into how some of these techniques and processes were obscured or naturalized in the more successful East Asian nation-states. With its sweepingly original theoretical and comparative perspectives on nationalism and imperialism, this book will be essential reading for all those interested in contemporary history.

The films of John Carpenter cover a tremendous range and yet all bear his clear personal stamp. From the horrifying (Halloween) to the touching (Starman) to the controversial (The Thing) to the comic (Big Trouble in Little China), his films reflect a unique approach to filmmaking and singular views of humanity and American culture. This analysis of Carpenter's films includes a historical overview of his career, and in-depth entries on each of his films, from 1975's Dark Star to 1998's Vampires. Complete cast and production information is provided for each. The book also covers those films written and produced by Carpenter, such as Halloween II and Black Moon Rising, as well as Carpenter's work for television. Appendices are included on films Carpenter was offered but turned down, the slasher films that followed in the wake of the highly-successful Halloween, the actors and characters who make repeated appearances in Carpenter's films, and ratings for Carpenter's work. Notes, bibliography, and index are included.
