Practical solutions to the challenges of church administration are clearly outlined in this phenomenal new book by Dag Heward-Mills.

Many who aspire to be organizational leaders focus on developing "hard" skills related to quantitative action and analytical thinking. These are important, but over his many decades of executive leadership, Dr. Eugene B. Habecker has learned to

value the "softer" side of leadership. Unfortunately, these "soft" skills and behaviors are often neglected, to the detriment of both leadership and organizational development. In *The Softer Side of Leadership*, Dr. Habecker, president emeritus of Taylor University, makes a case for these skills and provides practical ways to develop them and put them into action. He draws from his own experience, other leadership experts, and from the Bible. *The Softer Side of Leadership* has two main sections. The first section focuses on the soft skills that effective leaders

develop in a more personal dimension. These skills help leaders build and maintain a healthy spiritual, mental, and physical foundation that will benefit them personally as much as professionally. The second section naturally builds on the first, focusing on skills that effective leaders foster in the organizational dimension, such as creativity, trust, and forgiveness. Many of these skills, practices, and attitudes may be difficult for readers whose business education has been driven by numbers and immediate results. But to be effective, they must commit

to continuous learning?and that includes understanding the softer side of leadership. These soft skills support what hard skills cannot, at least not on their own: a culture that better promotes robust mission fulfillment. Each chapter includes key takeaways and action steps, equipping readers to immediately develop and employ the skills presented. As readers develop the skills and behaviors presented in The Softer Side of Leadership and pair them with hard skills, they will become stronger, more well-rounded leaders. The third edition of the

Written by experts from within their communities, this book compares the legal regimes of Christian churches as systems of religious law. The ecumenical movement, with its historical theological focus, has failed to date to address the role of church law in shaping relations between churches and fostering greater mutual understanding between them. In turn, theologians and jurists from the different traditions have not hitherto worked together on a fully ecumenical appreciation of the potential value of church laws to help, and sometimes to hinder, the achievement of greater

Christian unity. This book seeks to correct this ecumenical church law deficit. It takes account of the recent formulation by an ecumenical panel of a Statement of Principles of Christian Law, which has been welcomed by Pope Francis and the Ecumenical Patriarch of Constantinople, leader of the Orthodox Church worldwide, as recognizing the importance of canon law for ecumenical dialogue. This book, therefore, not only provides the fruits of an understanding of church laws within ten Christian traditions, but also critically evaluates the Statement against the laws of these individual ecclesial communities. The book will be an essential resource for scholars of law and religion, theology, and sociology. It will also be of interest to

In this addition to the new Working Preacher Books series, prolific author William H. Willimon makes the compelling case that two key pastoral tasks--preaching and leadership--complement, correct, strengthen, and inform one another. Preaching is the distinctive function of pastoral leaders. Leadership of the church, particularly during a challenging time of transition in mainline Protestantism, has become a pressing concern for pastors. This book shows how the practices, skills, and intentions of Christian preaching can be helpful to the leadership of a congregation. It will also show how leadership is an appropriate expectation

for sermons. In preaching, pastoral leaders can help a congregation face its problems and coordinate its God-given resources to address those problems. Sermons can be an opportunity to articulate, motivate, and orchestrate God's people in doing God's work in the church and in the world. Leading with the Sermon includes chapters on why pastors must be leaders, why preaching is such an essential task in telling the truth about the gospel, how preaching makes better leaders, and how better leaders make better preachers.

Enduring Ministry

This revised and expanded edition of a proven ministry resource contains new contributions from Leith Anderson, Rick Warren, Brian McLaren, Luis Palau, John Ortberg, Aubrey Malphurs, and many others. Governance and Ministry has proven to be an indispensable guide for leaders and clergy on how to work together to lead congregations. In this second edition, veteran congregational consultant and minister Dan Hotchkiss updates the book to

reflect today's church and synagogue landscape and shares practical insights based on his work with readers of the first edition. Governance and Ministry highlights the importance of reaching the right governance model for a congregation to fulfill its mission—to achieve both the outward results and the inward quality of life to which it is called. Hotchkiss draws on governance research from business, non-profits, and churches, as well as deep experience in a variety of denominations and congregations to help readers determine the governance model that best fits their needs. The second edition has been streamlined and reorganized

to better help readers think through leadership models and the process of change. The book features new material on the implications of congregation size, the process of governance change, policy choices, and the lay-clergy relationship. It also features two appendices with resources often requested by Hotchkiss's consulting clients: a style guide for policy-makers and a unified example of a board policy book. Written with energy and humor, and offering plenty of practical examples, the second edition of this helpful resource is ideal for anyone involved in church leadership to assist in framing critical questions, creating a vision, and implementing a plan.

This book presents the gospel as a sensemaking tool to critically examine five areas of personal leadership effectiveness, namely desire, identity, dignity, motive, and ambition. Every tipping point in changing the world for the better always involves leadership. Yet history also illustrates that even formidable leaders are prone to derailment and failures. Contrary to the popular idea that leaders need to enhance their self-efficacy to be effective, the focus of self is misguided because the self is the epicenter of the leadership problem. The author posits that the preoccupation with the self (and consequently, unbelief in the gospel) is the fundamental reason

why leaders are blinded by power and control, create their own performance treadmill, live for the approval of others, and have myopic ambitions for things of this world. Drawing on biblical insights and scholarly research, the leadership principles outlined in the book and their street-level applications will equip both novice and seasoned leaders to begin and end well.

The move toward working from home is part of a rapidly changing work environment for employers and employees alike. Large parts of the business world have mastered managing their staff, located around the country and the world, virtually. For many faith communities, however, the sudden move to working from home amid the Covid-19 pandemic involved significant upheaval. Fortunately, various forms of technology and productivity tools can make this shift easier. Wimberly focuses on how congregational leaders can

It is, in fact, possible for a person to engage the call to maturity at the juncture of discipleship and leadership. *Enduring Ministry* is designed for those who seek this more durable way forward, one that is infused with grace and inspired by good mission. spiritual gifts under the call of God to serve a certain group of people in achieving the goals God has given them toward the end of glorifying Christ.' How is your church or organization governed? Does it have an authoritarian, top-down administration? Is the ministry vision developed by a few top officials, with little input from staff or volunteers? Today the definition of an effective leader has

changed. No longer does the model leader manage like the Lone Ranger - either do it his way or no way. Today the model leader shares responsibility with fellow team leaders and seeks to serve them. In this complete revision of his earlier work, *Building Leaders for Church Education*, Dr. Gangel carefully lays a biblical foundation for the team leadership model. This leadership is not dogmatic control or personality worship.

It has no room for political power plays. Instead, it is Paul gently nurturing young Christians in his epistles. It is Barnabas willingly thrusting others into situations where they develop their own gifts. It is Christ, choosing not one, but twelve men to carry on His ministry. It is servant leadership. With examples, illustrations, and suggestions for further reading at the end of each chapter, Dr. Gangel prods and

encourages the reader to move beyond the safety net of autocratic leadership into the rewarding, effective practice of leading with and through others.

In his First Letter to the Corinthians Paul cites “administrators” as one of God’s gifts to the Christian community (1 Cor 12:28). But many who serve in administrative service today have difficulty seeing how their everyday work is an expression of discipleship. This book, written by an experienced administrator and noted biblical scholar, shows how the various functions of

institutional administration are deeply rooted in the Scriptures and are a genuine expression of our call to discipleship. Leadership, mission statements and planning, finances and fund raising, personnel issues, communications, and public relations—all of these seemingly “secular” activities serve to build up the Body of Christ and deserve to be recognized as authentic Christian

ministry. To see administrative service as a biblically rooted gift can help those involved in this way of life to find deeper and more satisfying spiritual meaning in what they do.

In competitive sports we prize teamwork. We know that a mature team will usually beat an astounding collection of individual players. The burden of creating such esprit de corps falls to the coach and the team of leaders he has assembled. After all, a team without a coach cannot win. But what happens when the coach

himself does not understand the dynamics of teamwork? In a similar manner, every leader of every church is a coach of sorts, with a ministry team responsible for the life of the church. The question put to you as a pastor is this: Are you a team player? Even more to the point: Whose team are you building? Too many church leaders, writes author Kenn Gangel, have fallen into the trap of personal kingdom-building, a focused concern on one's own and present ministry without a wider recognition of kingdom participation. The net effect of this condition has led to narrow vision, stunted church growth, and frustrated relationships within the body of Christ. In contrast, Gangel explores broad and penetrating

support throughout the Word of God for team-based, inclusive, cooperative leadership. From Jethro's advice to Moses all the way to Jesus's approach to discipleship, biblical leadership is viewed as a tool to be shared--a model of servanthood, mentoring, and the mutual interdependence of gifts. Along the way Gangel explores the character attributes of successful biblical leadership--common things like humility, patience, and quiet dignity. From there he reveals how these qualities open an authentic leader up to the wide and thrilling possibilities of working hand-in-hand with others in the Lord's work...together. What are the spiritual dynamics of leadership? How can you be more a person of God, aflame for God,

anointed and empowered by God -- truly a Spirit-filled leader? Here are answers that you will read again and again.

God gives each of us the same 168 hours every week. Some of us seem to use that time with incredible efficiency and power. But for many others this is an area of frustrating deficiency.
