

Church Of Christ Lesson Outlines

The classic Harmony of the Gospels by J. W. McGarvey and Philip Y. Pendleton with interspersed comments. Attractively re-typeset, this enduring work is a valuable resource to modern Bible students. "In most commentaries a fifth or sixth of the space is taken up in drawing distinctions between the texts of the four Gospels, while in this work these distinctions are placed before the reader's eye, where he can see them for himself at a glance. Moreover, in other commentaries, which give the text, another sixth or seventh of the work is taken up in reprinting in the notes that portion of the text concerning which the commentator wishes to speak. Our interjected method avoids all this needless repetition, and makes it possible for us to present the comment with the least preliminary verbiage or introductory setting. Time is also saved because the reader does not have to look back and forth from the text at the top to the comment at the bottom of the page. Again, other commentaries lose a large amount of space by using the King James text. Those which preceded the revision waste space correcting the translation and modernizing its English: those published since the revision suffer a similar waste by drawing endless comparisons between the two texts. By choosing the American revision as the basis for our work, we have a text which needs but little explanation or apology, and we are thereby enabled to employ the reader's time and strength to his best advantage." --Excerpted from the Introduction

Excerpt from Lesson Book for the Religion Classes in the Church of Jesus Christ of Latter-Day Saints, 1916: First and Second Grades The organization of the Religion Classes is much like that of other organizations in the Church; that is, there are general, stake, and ward officers. The general organization comprises a super'intendency of three, a secretary, and a board. This board holds a monthly session; at present it is the first Wednesday of each month. Of the twenty - two persons on the present general board two are members of the First Presidency, nine are Apostles, and two are First Presidents of Seventy. The names of the General Board may be found after the title page of this outline of lessons. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Hermeneutically, I have taken a literal and historical approach to the Letters to the Seven Churches. I believe that the Letters John received from Christ were sent to seven literal churches that actually existed at the time of John's writing, and I believe that these Seven Churches represent the Church of Christ through seven literal periods of Church History (as seen in the sermons). These Seven Letters matter today because the contemporary church is in trouble. We have left our "First Love," and have much to learn (and apply) from these two chapters in Revelation. My purpose for preaching these messages to my current congregation is directly linked to our intentional collective effort to evaluate the traits of a healthy church and to identify the two key areas in which we were weakest. Understanding the Seven Letters goes far beyond learning a history lesson; it means applying that knowledge to our current context. This, my fellow-laborer, is well-worth the effort, and will reap great fruit in accordance as it is sown. It is my prayer that these sermons can help you experience all of this and more. Using my outlines as a catalyst, pray, study, dig deep, and bring forth the truths that await you in the marvelous Word of God. "Let him who has ears hear what the Spirit says to the churches."

A six lesson series on the commonly accepted rules of bible interpretation. Students can learn how to read, understand and apply the bible with confidence. With many religions and sects abounding today, all using the Bible and yet claiming differing views and doctrines, we must wonder if there are any rules to interpreting the bible, and if there are, do these groups employ them. Even the average bible believing Christian is prone to arrive at unorthodox opinions on passages, and thus forms beliefs and convictions that often work to ostracize brethren from each other. Schisms arise and stands are taken which if analyzed can find no sound scriptural support. Therefore I propose that this series is vital to inform us on the rules of interpreting the Holy Bible, and to therefore: 1: Help us to avoid coming to wrong conclusions in our personal bible study. 2: Help us to discern a doctrine or conviction held by another which is based upon a faulty interpretation of the sacred Scriptures. Let me just add here, that the confusions generated by false interpretations is no fault of the Bible, but rather it is either because of minds coming to the Bible with pre-conceived notions or people carelessly taking verses out of context – which ever the case the rules of bible interpretation are bent or broken. This study series comes complete with assignments attached to each lesson. Without further ado, BUY NOW!

"The home-study seminary program is designed to help you strengthen your understanding of the gospel of Jesus Christ and apply its teachings in your daily life through a study of the scriptures. For your study this school year, you will first complete reading assignments from the scripture text for this course—the Book of Mormon—and then you will complete the individual lessons. Once a week you will meet with a seminary teacher to submit your work and participate in a weekly lesson. Seminary is a daily religious education program. Prayerfully studying your scriptures should be a daily practice. You will need to work on your seminary assignments each school day, even though you will not attend a seminary class each day. There are 32 units to be completed during the course. The reading chart on page viii shows what you should study for each unit. Your teacher will help you understand when each unit is due. The lessons in this study guide should each take about 30 minutes to complete, in addition to your daily scripture study. You should have two scripture study journals (or two notebooks), separate from your personal journal, in which you will write the assignments from the study guide activities. Each week that you meet with your teacher, you should turn in the scripture study journal containing the completed assignments from the study guide activities you completed for that week. Your teacher will read and respond to the assignments and return that scripture study journal to you the following week. You could also write your responses on paper in a loose-leaf binder and turn in the pages you did that week. Then, when your teacher returns the pages, you could put them back into the notebook."

Providing a fresh, timely reflection every week can be a daunting task. So when time or inspiration is flagging and you need the jump-start of creative ideas, the "Preaching Workbook" from CSS is just what the doctor ordered! Prominent pastor, former seminary president, and prolific author Jerry Schmalenberger draws upon the experiences of a lifetime in the ministry to help readers effectively share God's word with crisply written insights. This outstanding set of practical aids explores many homiletical approaches and is sure to help preachers prepare more vital, incisive sermons. Each chapter includes: - a listing of and commentary on selected scripture texts - a theme for the day's service - suggestions on preaching possibilities - an outline of possible sermon moves - additional illustrations to help flesh out the message Recently retired as the president of Pacific Lutheran Theological Seminary in Berkeley, California, Jerry L. Schmalenberger served some of the largest Lutheran congregations in the United States during 29 years as a parish pastor. A graduate of Wittenberg University and Hanna School of Theology in Springfield, Ohio (where he received his D.Min. degree), Schmalenberger is the recipient of an honorary D.Div. degree from Wittenberg. He now preaches and teaches throughout the world as a Global Mission Volunteer for the Evangelical Lutheran Church in America, appearing in such varied locations as Germany, Jamaica, Argentina, Uruguay, Suriname, Liberia, Indonesia, and China. Strategic Weapons Proposals

Sunday School across America is on a decline. Biblical literacy is at an unprecedented low amongst believers, and it seems as if there is no end to where this could lead to in our churches. The COGIC Sunday School department desires to help aid literacy by providing quality supplemental lesson material. Enlisting help from scholars across the country, the department wrote the Interpretative Expository, an exposition for each lesson of the Sunday School curriculum. Also, to assist pastors, preachers, missionaries, and laity with sermon subjects and preparation, our team has included a sample sermon outline from one of the lessons. Reemphasize the message of Sunday School by preaching a message from the text of the lesson.

Carefully crafted sermon ideas from an accomplished speaker for a wide range of preaching occasions.

This book is the first ever collection of scholarly essays in English devoted specifically to the theme of the expression 'son of man'. It describes the major competing theories which have addressed questions such as: What is the original Aramaic expression which lies behind the Greek phrase, and what was its original connotation? How do the gospel writers use the expression 'son of man'? Is it a Christological title, pregnant with meaning, much like the titles son of God, Christ/Messiah, and son of David? Is it used as a way of designating Jesus as a human being of unique redemptive significance? Or does it rather originate in a nuanced use (obscured in Greek translation) of an Aramaic expression used in place of the first person pronoun, as an indefinite pronoun, or for generic statements about human beings? Larry Hurtado and Paul Owen have brought together contributing scholars on the basis of their expertise in Aramaic, historical Jesus research, the son of man debate itself, and related fields of research.
