At the age of twelve the author was thoroughly indoctrinated into the Bolshevik ideology by two revolutionary missionaries who traveled on the same ship with him out to the Orient in 1907. Unlike many others he didn't swallow the bait they offered him "Hook, Line, and Sinker". He decided to keep an open mind, and to investigate matters thoroughly, before reaching any conclusions. His investigations and studies of all angles of the International Conspiracy have taken him to nearly every country in the world. Commander Carr has had a distinguished naval career. During WWI he served as Navigating Officer of H.M. Submarines. In WWII he was Naval Control Officer for the St. Lawrence; then Staff Officer Operations at Shelbourne, N.S.; then Senior Naval Officer at Goose Bay, Labrador. As an Officer on the staff of Commodore Reginald Brock he organized the 7th Victory Loan for the twenty-two Royal Canadian Naval Training Divisions. As an author he has previously published seven books. Some were specially bound for inclusion in the Royal Library; The Library of The Imperial War Museum; and the Sir Millington Drake Library (which is bequeathed to Eton College), and the Braille Library for the Blind. Commander Carr is known to many Canadians who have attended his public lectures. He warned people of the existence of an International Conspiracy. He foretold that the conspirators would, unless checked, drag the World into another Global War. Commander Carr is determined to inform as many people as possible regarding the Evil Forces which adversely affect all our lives, and the lives of our children. His book will be an eye-opener to parents, clergymen, teachers, students, statesmen, politicians, and labor leaders. The eyes of that species of extinct giants, whose bones fill the mounds of America, have gazed on Niagara, as ours do now. Abraham Lincoln 1848 Niagara Falls The surprising information found in this book, has been compiled together with many exciting pictures and much research. It is for those who understand that our history regarding facts, can only be obtained nowadays by tracing it ourselves! Everyone already knows about the dumbing down of societies by governments through media and other sources. Many historic realities such as the giants of old have been hidden from public spectators to keep the Darwin delusion alive. Mainstream media alongside scientists have created this Mafioso way of reporting only what keeps with the evolution agenda. Discoveries proclaiming something different are discarded by scientist and shows like Discovery on purpose, thwarting truth on the basis of their arrogant pride against man and God. But now at last the truth has been coming out, and their cover up has been surfacing. I hope this exciting book fascinates you, and ignites your curiosity for more! A definitive and fascinating introduction to the life, ideas, and impact of the founder of Islam. Maxime Robinson's Muhammad has long been regarded as one of the touchstones of scholarship on the founder of Islam. Thirty years after first being published in English, it remains the definitive introduction to

the Prophet's life. Drawing on wide-ranging scholarship and imaginative insight into the Prophet's personality, family, background, and wider society, Rodinson's Muhammad offers a vivid account of how he spread the word of Islam, created a sect and state, and defeated his enemies, establishing the first great Muslim military power -- a power which was soon to control territory stretching all the way from the Pyrenees to the borders of China. For anyone who wants to understand the historical roots of one of the world's great religions, Rodinson's Muhammad provides the ideal guide to a fascinating and timely subject. -- Description from <http://www.amazon.com> (Jan. 26, 2012).

Dictionary and Grammar of the Kongo Language

The language has for first condition the existence of human societies which it is his side constantly used and essential instrument; except historical accident, the limits of the various languages tend to coincide with those of social groups called nations; the lack of unity of language is the sign of a recent State, as in Belgium, or artificially constituted, as in Austria. The language is so eminently a social fact. Indeed, it exactly fits the definition proposed Durkheim; a language exists independently of the individuals who speak it, and although it has no reality outside the sum of these individuals, it is however, due to its generality, external to each of them; which shows, is that it does not depend on any of them to change and deviation individual usage causes a reaction. This reaction has no more often than other sanction than the ridicule to which she exposes the man who does not like everyone else. But in modern civilized States, she goes up to exclude public jobs, by reviews, those who do not comply with the use allowed by a given social group. The characters of exteriority to the individual and coercion by which Durkheim defined the social fact appear in the language with the last evidence.

An overview of the teachings of Sathya Sai Baba expressed through experiences, stories, and psychiatric insights of author psychiatrist Samuel H. Sandweiss M.D.

Joseph Stalin was one of the most frightening figures of the twentieth century. His name brings to mind brutal terrorism and ruthless oppression. Yet, as New York Times bestselling author Ian Grey shows, at the core of the Man of Steel was a humble, puritanical Georgian peasant. What set him above others was his intelligence, discipline, perception, indomitable will, and above all, a messianic determination to lead Russia to a grand destiny. Grey's comprehensive biography portrays Stalin as a complex, paradoxical figure - a leader whose power was rooted in the tsarist traditions he abhorred and whose tyranny was based on an ambition to ensure the strength of his party. In his single-minded dedication to the growth of Russia under communism, Stalin was able to disregard all sense of morality. Yet, through his magnetism, he commanded the respect of his colleagues and the adulation of his people. Even Winston Churchill held him in awe. Stalin is a powerful history of Russia's evolution from backward nation to world power, as well as a dramatic portrait of a man who was called both "The Implacable" and "Beloved Father."

Cunningham's Encyclopedia of Magical Herbs

From Domesday Book to Magna Carta, 1087-1216

Kundalini

Do you work magic with herbs? Do you use them in spells, for talismans or simply use their innate powers? If you don't have Cunningham's Encyclopedia of Magical Herbs, you need to get it right away. This book has become a classic in its field. Paul Beyerl, a respected author on herbs calls it "...an essential reference book by students of herbalism and magick alike ... Scott's personable charm touches every page... I highly recommend this book." And Jeanne Rose, famous author of books on herbs and developer of an herbal course says "I love books like this ... It is accessible, easy to read, and with its encompassing index (all too often neglected), simple to use as well." Over 200,000 people already have this book and use it frequently. In this edition of the book (it's expanded and revised on the 15th anniversary of original publication) you will find the magical properties and folklore of over 400 herbs! You'll also find lists of herbs based on their magical powers, their genders, their planetary rulers, and more. Perhaps the most important list is the folk name cross-reference. With that information, when a recipe calls for "bramble, " you'll know it needs blackberry. Or if the magic calls for "enebro," you'll know you that is juniper. The main part of this book is the listings of the herbs. Each one includes names, associations, and magical attributions. Violets can be used for protection, luck, love, and more. Primrose is for protection and love. Garlic is for protection, healing, exorcism, lust, and prevention of theft. This book is considered a classic. It is probably consulted more than any other book on this subject. If you want to learn the secrets of magical herbs, this book is a must!

Renowned scholar of medieval literature, Lee Patterson, presents a compelling vision of the shape and direction of Geoffrey Chaucer's entire career in Chaucer and the Subject of History. Chaucer's interest in individuality was strikingly modern. At the same time he was profoundly aware of the pressures on individuality exerted by the past and by society—by history. This tension between the subject and history is Patterson's topic. He begins by showing how Chaucer's understanding of history as a subject for poetry—a world to be represented and a cultural force affecting human action—began to take shape in his

poems on classical themes, especially in Troilus and Criseyde. Patterson's extended analysis of this profound yet deeply conflicted exploration of the relationship between "history" and "the subject" provides the basis for understanding Chaucer's shift to his contemporary world in the Canterbury Tales. There, in the shrewdest and most wide-ranging analysis of late medieval society we possess, Chaucer investigated not just the idea of history but the historical world intimately related to his own political and literary career. Patterson's chapters on individual tales clarify and confirm his provocative arguments. He shows, for example, how the Knight's Tale represents the contemporary crisis of governance in terms of a crisis in chivalric identity itself; how the Miller's Tale reflects the social pressures and rhetoric of peasant movements generally and the Rising of 1381 in particular; and how the tales of the Merchant and Shipman register the paradoxical placement of a bourgeois class lacking class identity. And Patterson's brilliant readings of the Wife of Bath's Tale—"the triumph of the subject"—and the Pardoner's Tale—"the subject of confession"—reveal how Chaucer reworked traditional materials to accomplish stunning innovations that make visible unmistakably social meanings. Chaucer and the Subject of History is a landmark book, one that will shape the way that Chaucer is read for years to come.

Within the wide range of writings on performance studies, theoreticians and practitioners have been using the concepts of performance and performativity as key terms for explaining different social, philosophical and artistic phenomena. The question «what are performance and performativity» is always already shaped according to what sort of 'performance' is being carried out, which performance is taken into consideration, which contexts and power-knowledge «stratum» operate in the formation of these concepts. Performance and Performativity primarily aims to find a way of grasping the maze of different positions that have become incorporated within the general and often overlapping terms of performance studies and performative theory. The book focuses on how «the power of discourse to produce what it names» is linked with the question of performance and performativity, rather than providing a general intellectual background and context for the modern idea of performance and performativity.

Kundalini's power lies dormant in humans until it is awakened. The awakened Kundalini expresses the primal divine impulse and ultimately joins the individual with the divine. The development of the book parallels the development of the Kundalini within. Part One exposes the awakening and unfolding of the Kundalini; Part Two describes the piercing of the energy centers and the stages of ascent through the body; and Part Three examines Kundalini's relation to sexual expression. The book provides a deep understanding of Tantra and of the underlying purpose of Tantracism. The author carefully considers the Caryakrama practices of sexual expression as a means of awakening and controlling Kundalini. Silburn draws together passages from the Trika, Krama, and Kaula systems ranging through Abhinavagupta and Lalla and provides both translation and commentary for them. Chapters on the Chakras, the Nadis, and on mantras further elucidate the topic and lead to a forceful conclusion: Kundalini is the source of ultimate human knowledge and power.

The *Dancer and the Dance* is a collection of thirteen essays in translation studies. Unlike many similar collections that have appeared in the past decades, it is the product of theory integrated with practice; in it, the authors have steered clear of theorizing in a vacuum, making sure that their findings tally with what actually happens in translation; there is no attempt at putting forward hypotheses based on mere speculation. As translation theorists and/or translators whose specialties cover translation studies, linguistics, cultural studies, computer-aided translation, Chinese literature, English literature, comparative literature, and creative writing, the thirteen authors have taken up the challenge of unravelling the mystery of what, in I. A. Richards's words, "may very probably be the most complex type of event yet produced in the evolution of the cosmos." Impossible as the task may have seemed, they have all succeeded, each in his/her own way, in tracing out many warp and weft threads, as well as hitherto undiscovered patterns in the vast, gorgeous, and mysterious tapestry woven by God after Babel.
