The vegetarian diet is praised for being sustainable and animal-friendly, but after 20 years of being a vegan, Lierre Kirchner has changed her opinion. Contravening popular opinion, she bravely argues that agriculture is a relentless assault against the planet. In service to annual grains, humans have devastated prairies and forests, driven countless species extinct, altered the climate, and destroyed the topsoil - the basis of growth and life itself.

NEW YORK TIMES BESTSELLER • Finalist for the PEN/USA Award in Creative Nonfiction, the Thurber Prize for American Humor, and the Audie Award in Biography/Memoir This Random House Reader's Circle edition includes a reading group guide and a conversation between Firoozeh Dumas and Khaled Hosseini, author of *The Kite Runner*! "Remarkable . . . told with wry humor shorn of sentimentality . . . In the end, what sticks with the reader is an exuberant immigrant embrace of America."—San Francisco Chronicle In 1972, when she was seven, Firoozeh Dumas and her family moved from Iran to Southern California, arriving with no firsthand knowledge of this country beyond her father's glowing memories of his graduate school years here. More family soon followed, and the clan has been here ever since. *Funny in Farsi* chronicles the American journey of Dumas's wonderfully engaging family: her engineer father, a sweetly quixotic dreamer who first sought riches on Bowling for Dollars and in Las Vegas, and later lost his job during the Iranian revolution; her elegant mother, who never fully mastered English (nor cared to); her uncle, who combated the effects of American fast food with an army of miraculous American weight-loss gadgets; and Firoozeh herself, who as a girl changed her name to Julie, and who encountered a second wave of culture shock when she met and married a Frenchman, becoming part of a one-couple melting pot. In a series of deftly drawn scenes, we watch the family grapple with American English (hot dogs and hush puppies?—a complete mystery), American traditions (Thanksgiving turkey?—an even greater mystery, since it tastes like nothing), and American culture (Firoozeh's parents laugh uproariously at Bob Hope on television, although they don't get the jokes even when she translates them into Farsi). Above all, this is an unforgettable story of identity, discovery, and the power of family love. It is a book that will leave us all laughing—without an accent. Praise for *Funny in Farsi* "Heartfelt and hilarious—in any language."—*Glamour* "A joyful success."—*Newsday* "What's charming beyond the humor of this memoir is that it remains affectionate even in the weakest, most tenuous moments for the culture. It's the brilliance of true sophistication at work."—*Los Angeles Times Book Review* "Often hilarious, always interesting . . . Like the movie *My Big Fat Greek Wedding*, this book describes with humor the intersection and overlapping of two cultures."—*The Providence Journal* "A humorous and introspective chronicle of a life filled with love—of family, country, and heritage."—Jimmy Carter "Delightfully refreshing."—*Milwaukee Journal Sentinel* "[*Funny in Farsi*] brings us closer to discovering what it means to be an American."—*San Jose Mercury News*

Aaron 'don't ever call me Fatbaby' Sims is lucky to be alive. Or at least that is what everyone keeps telling him. He doesn't feel lucky, though. He's scarred, has more than a little bit of a bad attitude, and there isn't a single day that goes by that he doesn't wish his wife would've just finished off the job. After being denied his old position at the fire department, he leaves, and doesn't look back. He heads straight to Alabama and into the semi-welcoming arms of The Dixie Wardens MC. There he becomes a part of a brotherhood that forces him to get back in the land of the living. Imogen is a smart girl. A girl who doesn't always make the best decisions. Her heart is in the right place when she walks into that prison, but it doesn't take long for her to realize that her heart shouldn't have had any say so in the matter. Especially when one wrong move lands her in the arms of a scarred man that looks frightening enough to scare any woman away. Immediately enthralled by the angry man, she tries to get closer to him. But the harder she tries to get to know him, the further he pushes her away. --- The only thing Aaron wanted to do after his now ex-wife was sent to prison was escape. Escape the awful memories. The pity-filled eyes. The curious glances. He does a damn fine job at ensuring he draws as little as attention as possible, but then that annoying woman with her startling blue eyes starts hammering away at his resolve. Makes him feel when he doesn't want to feel. Imogen comes into his life and carves out a place for herself, obliterating his defenses one heated kiss at a time.

Truth Alan Reacher was a biker. He was a bladesmith. What he was not, was a fool. The moment he walked in on his cousin screwing his cousin on his bike, he does the only thing he can do. He ditches the bike seat—and the girl—riding right off her life without a backwards glance. That is until he's forced to attend the marriage of his cousin to his cheating ex-girlfriend. The only bright spot of the entire thing was watching some chick go off on the groom—the groom's ex-fiancée—right in the middle of the bouquet toss.***Verity Ruthann Cassidy was supposed to be here today attending the wedding as the bride, not watching the festivities as a guest from the chairs she'd painstakingly purchased covers for while her fiancée—now her ex-fiancée—screwed around on her with another woman. The icing on the wedding cake that she refuses to eat? She's forced to attend the wedding due to her mother being the wedding planner. However, the night doesn't turn out quite the way she expects it due to the hot-as-hell biker sitting in the chair directly beside her. The biker gave one hell of a speech during the reception that sounded like something that could have come straight out of her mouth, and she enjoyed every single second of it.***Thrown together under similarly lousy circumstances, the two now single jilted former lovers of the happy couple decide to go to Vegas on what was to be Verity's honeymoon trip. One thing leads to another, and the next thing they know, their night has gone from a celebration of being single to a mad love affair to each other. Verity and Truth now have to figure out if everything that happens in Vegas should stay in Vegas.

WHAT IS EPIGENETICS? Epigenetics is an emerging field of science that studies alterations in gene expression caused by factors other than changes in the DNA sequence. Epigenetics: The Death of the Genetic Theory of Disease Transmission is the result of decades of research and its findings that could be as critical to our understanding of human health as Pasteur's research in bacteriology. Dr. Joel "Doc" Wallach has dedicated his life work to identifying connections between certain nutritional deficiencies and a range of maladies, formerly thought to be hereditary, including Cystic Fibrosis and Muscular Dystrophy. This nexus between nutrition and so-called genetic disease has been observed in both humans and primates, and it is the central theme of Epigenetics. To bring us Epigenetics, Wallach has teamed with noted scholars Dr. Ma Lan and Dr. Gerhard N. Schrauzer. Their collective expertise gives this book its far reaching perspective. Epigenetics is of vital importance to anyone who wants real knowledge about how the human body functions, and it provides a path for better health. Epigenetics dispels the dogma and misinformation propagated by medical institutions and doctors resistant to change. Epigenetics is the beginning of a new era of well-being on this planet.

Quoting is all around us. But do we really know what it means? How do people actually quote today, and how did our present systems come about? This book brings together a down-to-earth account of contemporary quoting with an examination of the comparative and historical background that lies behind it and the characteristic way that quoting links past and present, the far and the near. Drawing from anthropology, cultural history, folklore, cultural studies, sociolinguistics, literary studies and the ethnography of speaking, Ruth Finnegan's fascinating study sets our present conventions into crosscultural and historical perspective. She traces the curious history of quotation marks, examines the long tradition of quotation collections with their remarkable recycling across the centuries, and explores the uses of quotation in literary, visual and oral traditions. The book tracks the changing definitions and control of quoting over the millennia and in doing so throws new light on ideas such as imitation, allusion, authorship, originality and plagiarism.

"Humanists and social scientists alike will profit from reflection on the efforts of the contributors to reimagine anthropology in terms, not only of methodology, but also of politics, ethics, and historical relevance. Every discipline in the human and social sciences could use such a book."--Hayden White, author of *Metahistory*

From the 14th until the 19th century the last novella of Boccaccio's *Decameron*, also known as the *Griselda* story, has been translated and adapted countless times in many European languages. This story's success can be explained by considering it a myth and analysing how this myth engages with contemporary discourses, such as the definition of the ideal wife, the *querelle des femmes*, the socio-political consequences of social exogamy, and tyranny.

This book presents a selection of contributions to the workshop "Linguistic realization of evidentiality in European languages", held at the 30th Annual Convention of the German Society of Linguistics in Bamberg (February 27-29, 2008), and additional papers, which have been especially commissioned for this volume. Its main focus lies on providing further empirical evidence about languages that have various - lexical as well as grammatical - evidential expressions. The papers in this volume will offer a cross-linguistic perspective on this topic as they deal with a number of different language families and languages: Romance languages (French, Spanish, Italian), Germanic languages (Dutch, German, English, Icelandic), Baltic and Slavic languages, Greek, Basque, and Turkish.

Tally is a twenty-year-old single mother struggling to finish nursing school. Has she made mistakes in life? Sure, but her daughter isn't one of them. She works hard, she studies even harder, and she's only a few weeks away from graduating. She's living her life the best she knows how when she witnesses a near miss motorcycle accident between a car and a biker. A biker that happens to be the most talked about teacher at her college. The moment she meets those startling blue, narrowly-escaped-death eyes, she realizes quickly that life as she knows it has changed. No longer will she be content to let life pass her by, even if it puts everything she's worked so hard for in jeopardy. *** Tommy is a highly skilled doctor. A teacher. A veteran. A fully-patched member of The Dixie Wardens MC. He's lonely, but also set in his ways. What will it take for this man to accept that he needs to make some changes in his life? Apparently, it'll take a guy in a truck, who's preoccupied with his phone rather than focused on the road, nearly plowing into him on his bike at seventy miles per hour. Oh, and a twenty-something year old nursing student witnessing the entire thing from only a few feet away. It only takes a second, a single heartbeat in time, as he looks into her worry-filled eyes to realize that he'd give anything for a single night with her. He may lose his job in the process, but after that one incredible night turns into an amazing weekend, he knows it's worth the risk for the promise of her forever.

As of May 2013, 93 children previously diagnosed with regressive autism were able to shed their autism diagnosis, their symptoms, and return to an overall state of health and vitality using the protocols revealed in this book. Kerri Rivera has outlined a very complete approach to autism recovery that includes an understanding of the importance of Biofilm theory and protocol. She recommends safe interventions that do no harm, and are helping to confront a growing epidemic. Kerri Rivera's approach includes common sense dietary recommendations, the use of supplements to restore balance to the body and immune system, as well as mild oxidative therapies to address chronic infection and inflammation. She has taken children who were in the throes of autism (meaning chronic illness) to healing. The symptoms being labeled as autism are fading away, the children are talking and socializing, and their ATEC scores prove beyond a shadow of a doubt what their parents are claiming: their children no longer have autism. Kerri Rivera's grasp of a biomedical approach to Autism recovery, paired with her passion for service has allowed families of all socioeconomic backgrounds to have what they might never have otherwise found: a means by which to help their children. This book contains over 120 testimonials from parents (and some of the children themselves) describing their journey and resulting success.

NEW YORK TIMES BESTSELLER • "There's such warmth to Dumas' writing that it invites the reader to pull up a seat at her table and smile right along with her at the quirks of her family and Iranians and Americans in general."—Booklist In the New

York Times bestselling memoir *Funny in Farsi*, Firoozeh Dumas recounted her adventures growing up Iranian American in Southern California. Now she again mines her rich Persian heritage in *Laughing Without an Accent*, sharing stories both tender and humorous on being a citizen of the world, on her well-meaning family, and on amusing cultural conundrums, all told with insights into the universality of the human condition. (Hint: It may have to do with brushing and flossing daily.) With dry wit and a bold spirit, Dumas puts her own unique mark on the themes of family, community, and tradition. She braves the uncommon palate of her French-born husband and learns the nuances of having her book translated for Persian audiences (the censors edit out all references to ham). And along the way, she reconciles her beloved Iranian customs with her Western ideals. Explaining crossover cultural food fare, Dumas says, "The weirdest American culinary marriage is yams with melted marshmallows. I don't know who thought of this Thanksgiving tradition, but I'm guessing a hyperactive, toothless three-year-old." On Iranian wedding anniversaries: "It just initially seemed odd to celebrate the day that 'our families decided we should marry even though I had never met you, and frankly, it's not working out so well.'" On trying to fit in with her American peers: "At the time, my father drove a Buick LeSabre, a fancy French word meaning 'OPEC thanks you.'" Dumas also documents her first year as a new mother, the familial chaos that ensues after she removes the television set from the house, the experience of taking fifty-one family members on a birthday cruise to Alaska, and a road trip to Iowa with an American once held hostage in Iran. Droll, moving, and relevant, *Laughing Without an Accent* shows how our differences can unite us—and provides indelible proof that Firoozeh Dumas is a humorist of the highest order. Praise for *Laughing Without an Accent* "Dumas is one of those rare people: a naturally gifted storyteller."—Alexander McCall Smith "Laughing Without an Accent is written . . . as if Dumas were sharing a cup of coffee with her reader as she relates her comic tales. . . . Firoozeh Dumas exudes undeniable charm [as she] reveals a zeal for culture—both new and old—and the enduring bonds of a family filled with outsize personalities."—San Francisco Chronicle "[Dumas is] like a blend of Anne Lamott and Erma Bombeck."—Bust "Humorous without being sentimental, [Dumas] speaks to the American experience."—The Plain Dealer

When sixteen-year-old Brent Bishop inadvertently causes the death of a young woman, he is sent on an unusual journey of repentance, building wind toys across the land. Paul Fleischman is the master of multivoiced books for younger readers. In *Whirligig* he has created a novel about hidden connections that is itself a wonder of spinning hearts and grand surprises.

"The widely held assumption that the Israeli occupation of Palestinian territory is a temporary situation and that the 'peace process' will soon bring an end to Israeli abuses has obscured the reality on the ground today of Israel's entrenched discriminatory rule over Palestinians. A single authority, the Israeli government, rules primarily over the area between the Jordan River and Mediterranean Sea, populated by two groups of roughly equal size, methodologically privileging Jewish Israelis while repressing Palestinians, most severely in the Occupied Palestinian Territory (OPT), made-up of the West Bank, including East Jerusalem, and Gaza. Drawing on years of human rights documentation, case studies and a review of government planning documents, statements by officials and other sources, [this report] examines Israel's treatment of Palestinians and evaluates whether particular Israeli policies and practices in certain areas amount to the crimes against humanity of apartheid and persecution."--Page 4 of cover.

Based on a series of successful summer writing institutes, this book presents practical ways for teachers to reinvigorate their classrooms and their own attitudes toward creative writing. In four complementary sections focusing on four groups of writers--creative writers in residence, K-12 students and teachers who participated in the summer institutes, and established writers such as Ron Carlson and Scott Russell Sanders--the book demonstrates the enormous variety and high quality of writing that result when people use writing to discover what they want to say. After an introduction by Robert Fox ("The Experience of Writing: A Summer Institute"), the first section presents essays by Ohio writers in the schools; "Doing Our Own Possibility: Journal of a Residency at Columbiana County Head Start Centers" (Debra Conner); "Playwriting: A Teaching Approach Using the Stories of Our Lives" (Michael McGee London); "Just across the Street: The Story of a Teacher-Based Residency" (Lynn Powell); "Translytics: Creative Writing Derived from Foreign Language Texts" (Nick Muska); "How to Do a Poetry Night Hike" (Terry Hermsen); and "Reading to a Sky of Soba" (David Hassler). The second part presents poems, stories, and plays from 13 Ohio schools. The third part presents essays from participants in the experience of writing: "When Spirit Moves, Children Sing" (MaryAnn Titus); "Sudden Revelation: Fiction Writing in the Classroom" (Carl H. Krauskopf III); "A Year of Writing Workshop" (Mary L. Noble); "Word Works: Building a Community of Writers" (Janice M. Gallagher); and "Green Digits and Colons: Find Time to Write" (Barry Peters). The last section presents essays from experiences of writing faculty: "Turning the Desk" (Ron Carlson); "The

Singular First Person" (Scott Russell Sanders); and "Reveling in the World: An Interview with Christopher Merrill on the Power of Language and Teaching" (Terry Hermsen). (RS)
