The first volume of Viaggiatori “ Curatele ” series seeks to recreate some scientific dialogues, namely meetings, exchanges and acquisition of theoretical and practical scientific knowledge, thus linking the cultural, historical and geographical context of America, Asia, Europe and Mediterranean Sea between the 16th and the 20th century. More specifically, the main objective is to consider the role of travellers as passeurs, as “ intermediaries ” for building and allowing the circulation of knowhow and the practical and theoretical knowledge from one continent to another.

The Frozen Dead Guy was once just a regular Norwegian named Bredo Morstoel. When he died in 1983, his family cryogenically preserved his body and placed it in a permanent holding facility in Nederland, Colorado, to wait until technology might allow it to be defrosted and resurrected. His caretaker is Bo "Iceman" Shaffer, who has transported ice to the facility and represented the Frozen Dead Guy for seventeen years and counting. Here he chronicles one of Colorado's strangest and most colorful attractions, one that draws travelers from around the globe to tour the site, attend the annual Frozen Dead Guy Days festival and have a drink.
