First published in Germany in 1929, *The End and the Beginning* is a lively personal memoir of a vanished world and of a rebellious, high-spirited young woman's struggle to achieve independence. Born in 1883 into a distinguished and wealthy aristocratic family of the old Austro-Hungarian Empire, Hermynia Zur Muhlen spent much of her childhood travelling in Europe and North Africa with her diplomat father. After five years on her German husband's estate in czarist Russia she broke with both her family and her husband and set out on a precarious career as a professional writer committed to socialism. Besides translating many leading contemporary authors, notably Upton Sinclair, into German, she herself published an impressive number of politically engaged novels, detective stories, short stories, and children's fairy tales. Because of her outspoken opposition to National Socialism, she had to flee her native Austria in 1938 and seek refuge in England, where she died, virtually penniless, in 1951. This revised and corrected translation of Zur Muhlen's memoir - with extensive notes and an essay on the author by Lionel Gossman - will appeal especially to readers interested in women's history, the Central European aristocratic world that came to an end with the First World War, and the

culture and politics of the late nineteenth and early twentieth centuries.

'A complete revelation' Nigella Lawson *Olia Hercules* owes some of her earliest and fondest memories to the 'summer kitchens' of her parents, grandparents, neighbours and friends in Ukraine. These small buildings are separate from the main house, and always positioned near a fruit plot or veg patch so families can enjoy the home-grown produce as it ripens, and preserve the surplus in preparation for winter. The number of summer kitchens is dwindling these days, but there is still so much we can learn about making the most of the vibrant summer produce throughout the rest of the year. *Summer Kitchens* contains recipes such as Borsch with duck and smoked pears, Burnt aubergine butter and tomato toast, Pot roast chicken with herb crème fraîche, Nettle, sorrel and wild garlic soup and Poppyseed babka. With beautiful photography and writing on the people and lush landscapes of Ukraine, this book will transport you to idyllic summer kitchens past and present.

This book seeks to comprehend the evolving nature of the European Union following the fall of the Berlin Wall and the failure of the European Constitution. Its prime focus is the last wave of enlargement that has profoundly transformed the EU. Although there are many parallels between the European integration process and state building processes, the Union is nothing like a

Get Free Culinaria Russia Rusland Ukraine Georgien Armeni

Westphalian super state. The new emerging polity resembles a kind of neo-medieval empire with a polycentric system of government, multiple and overlapping jurisdictions, striking cultural and economic heterogeneity, fuzzy borders, and divided sovereignty. The book tries to spell out the origin, the shape, and the implications of this empire. The aim of this book is to suggest a novel way of thinking about the European Union and the process of European integration. The book shows 'two Europes' coming together following the end of the cold war. It proposes a system of economic and democratic governance that meets the ever greater challenges of modernization, interdependence, and globalization. It identifies the most plausible scenario of promoting peaceful change in Europe and beyond. The author argues that mainstream thinking about European integration is based on mistaken statist assumptions and suggests more effective and legitimate ways of governing Europe than through adoption of a European Constitution, creation of a European army, or introduction of a European social model. The book covers many fields from politics, and economics to foreign affairs and security. It analyzes developments in both Eastern and Western Europe. It also gives ample room to both theoretical and empirical considerations.

The volume seeks to establish socio-onomastics as a field of linguistic inquiry not only within sociolinguistics, but also, and in particular, within pragmatics. The linguistic study of names has a very long history, but also a history sometimes fraught with skepticism, and thus often neglected by linguists in other fields. The volume takes on the challenge of instituting onomastic study into linguistics and pragmatics by focusing on recent trends within socio-onomastics, interactional onomastics, contact onomastics, folk onomastics, and linguistic landscape studies. The volume is an introduction to these fields - with the introductory chapter giving an overview of, and an update on, recent onomastic study - and in addition offers detailed in-depth analyses of place names, person names, street names and commercial names from different perspectives: historically, as well

as from the point of view of the impact of globalization and glocalization. All the chapters focus on the use and function of names and naming, on changes in name usage, and on the reasons for, processes in, and results of names in contact.

Praise for the first edition of this book: This translation is something of an event. For the first time, it makes Zur Mühlen's text available to English-speaking readers in a reliable version. —David Midgley, University of Cambridge [This book] represents exceptional value, both as an enjoyable read and as an introduction to an attractive author who amply deserves rediscovery. —Ritchie Robertson, Journal of European Studies, 42(1): 106-07. Born into a distinguished aristocratic family of the old Habsburg Empire, Hermynia Zur Mühlen spent much of her childhood and early youth travelling in Europe and North Africa with her diplomat father. Never comfortable with the traditional roles women were expected to play, she broke as a young adult both with her family and, after five years on his estate in the old Czarist Russia, with her German Junker husband, and set out as an independent, free-thinking individual, earning a precarious living as a writer. Zur Mühlen translated over 70 books from English, French and Russian into German, notably the novels of Upton Sinclair, which she turned into best-sellers in Germany; produced a series of detective novels under a pseudonym; wrote seven engaging and thought-provoking novels of her own, six of which were translated into English; contributed countless

insightful short stories and articles to newspapers and magazines; and, having become a committed socialist, achieved international renown in the 1920s with her Fairy Tales for Workers' Children, which were widely translated including into Chinese and Japanese.

Because of her fervent and outspoken opposition to National Socialism, she and her life-long Jewish partner, Stefan Klein, had to flee first Germany, where they had settled, and then, in 1938, her native Austria. They found refuge in England, where Zur Mühlen died, forgotten and virtually penniless, in 1951.

Over the past 20 years European theatre underwent fundamental changes in terms of aesthetic focus, institutional structure and in its position in society. The impetus for these changes was provided by a new generation in the independent theatre scene. This book brings together studies on the state of independent theatre in different European countries, focusing on the fields of dance and performance, children and youth theatre, theatre and migration and post-migrant theatre. Additionally, it includes essays on experimental musical theatre and different cultural policies for independent theatre scenes in a range of European countries.

The diversity of food cultures within the former Soviet Union, with more than 100 distinct nationalities, is overwhelming, but *Food Culture in Russia and Central Asia* brilliantly distills the main elements of contemporary cuisine and food-related customs for students and foodies. *Lifestyle in Siberia and the Russian North* breaks new ground by exploring the concept of lifestyle from a distinctly anthropological perspective. Showcasing the collective work of ten experienced scholars in the field, the book goes beyond concepts of tradition that have often been the focus of previous research, to explain how political, economic and technological changes in Russia have created a wide range of new possibilities and constraints in the pursuit of different ways of life. Each contribution is drawn from meticulous first-hand field research, and the authors engage with theoretical questions such as whether and

how the concept of lifestyle can be extended beyond its conventionally urban, Euro-American context and employed in a markedly different setting. Lifestyle in Siberia and the Russian North builds on the contributors' clear commitment to diversifying the field and providing a novel and intimate insight into this vast and dynamic region. This book provides inspiring reading for students and teachers of Anthropology, Sociology and Cultural Studies and for anyone interested in Russia and its regions. By providing ethnographic case studies, it is also a useful basis for teaching anthropological methods and concepts, both at graduate and undergraduate level. Rigorous and innovative, it marks an important contribution to the study of Siberia and the Russian North.

The Handbook of International Futurism is the first reference work ever to presents in a comparative fashion all media and countries in which the movement, initiated by F.T. Marinetti in 1909, exercised a particularly noteworthy influence. The handbook offers a synthesis of the state of scholarship regarding the international radiation of Futurism and its influence in some fifteen artistic disciplines and thirty-eight countries. While

acknowledging the great achievements of the movement in the visual and literary arts of Italy and Russia, it treats Futurism as an international, multidisciplinary phenomenon that left a lasting mark on the manifold artistic manifestations of the early twentieth-century avant-garde. Hundreds of artists, who in some phase in their career absorbed Futurist ideas and stylistic devices, are presented in the context of their national traditions, their international connections and the media in which they were predominantly active. The handbook acts as a kind of multi-disciplinary, geographical encyclopaedia of Futurism and gives scholars with varying levels of experience a detailed overview of all countries and disciplines in which the movement had a major impact.

Over the course of more than three centuries of Romanov rule in Russia, foreign visitors and residents produced a vast corpus of literature conveying their experiences and impressions of the country. The product of years of painstaking research by one of the world's foremost authorities on Anglo-Russian relations, *In the Lands of the Romanovs* is the realization of a major bibliographical project that records the details of over 1200 English-language accounts of the Russian Empire. Ranging chronologically from the accession of Mikhail Fedorovich in 1613 to the abdication of Nicholas II in 1917, this is the most comprehensive bibliography of first-hand accounts of Russia ever to be published. Far more than an inventory of accounts by travellers and tourists, Anthony Cross's ambitious and wide-ranging work includes personal records of residence in or visits to Russia by writers ranging from diplomats to merchants, physicians to clergymen, gardeners to governesses, as well as by participants in the French

invasion of 1812 and in the Crimean War of 1854-56. Providing full bibliographical details and concise but informative annotation for each entry, this substantial bibliography will be an invaluable tool for anyone with an interest in contacts between Russia and the West during the centuries of Romanov rule.

***The story of a forbidden book that became a symbol of freedom and rebellion in the battle between East and West. 1956. Boris Pasternak presses a manuscript into the hands of an Italian publishing scout with these words: 'This is Doctor Zhivago. May it make its way around the world.' Pasternak knew his novel would never be published in the Soviet Union as the authorities regarded it as seditious, so, instead, he allowed it to be published in translation all over the world - a highly dangerous act. 1958. The life of this extraordinary book enters the realms of the spy novel. The CIA, recognising that the Cold War was primarily an ideological battle, published Doctor Zhivago in Russian and smuggled it into the Soviet Union. It was immediately snapped up on the black market. Pasternak was later forced to renounce the Nobel Prize in Literature, igniting worldwide political scandal. With first access to previously classified CIA files, The Zhivago Affair gives an irresistible portrait of Pasternak, and takes us deep into the Cold War, back to a time when literature had the power to shake the world. Celebrated Portland chef Bonnie Frumkin Morales brings her acclaimed Portland restaurant Kachka into your home kitchen with a debut cookbook enlivening Russian cuisine with an emphasis on vibrant, locally sourced ingredients. “With Kachka, Bonnie Morales has done something amazing: thoroughly update and modernize Russian cuisine while steadfastly holding to its traditions and spirit. Thank you comrade!” —Alton Brown From bright pickles to pillowy dumplings, ingenious vodka infusions to traditional homestyle dishes, and varied zakuski to satisfying sweets, Kachka the cookbook covers the vivid world of Russian cuisine. More than 100 recipes show how easy it is to eat, drink, and open your heart in Soviet-inspired style, from the celebrated restaurant that is changing how America thinks about Russian food. The recipes in this book set a communal table with nostalgic Eastern European dishes like Caucasus-inspired meatballs, Porcini Barley Soup, and Cauliflower Schnitzel, and give new and exciting twists to current food trends like pickling, fermentation, and bone broths. Kachka’s recipes and narratives show how Russia’s storied tradition of smoked fish, cultured dairy, and a shot of vodka can be celebratory, elegant, and as easy as meat and potatoes. The food is clear and inviting, rooted in the past yet not at all afraid to play around and wear its punk rock heart on its sleeve.

This book shows the different ways in which migration matters in the context of global and local childhood and youth. Furthermore, it highlights that childhood, youth and migration as well as local and global perspectives need to be thought and analyzed together, to address the significant dimensions of social inequality in the context of growing up. Migration as a phenomenon is most often motivated by the search for a better life. Very often

children and young people, migrating alone or together with their families, migrate to ameliorate their own or others' living conditions and seize opportunities for realizing a good life. Today as well as in the past this search for a better life is very often triggered by socio-economic reasons, war or terrorism. Against the backdrop of the topic raised above the book deals with children and young people's own perspective in countries of migration. It promotes the idea of connecting global and local issues of childhood and youth with a special focus on questions of education. It studies questions of global and local living and highlights living circumstances shaped by patterns of migration and mobility.

Bosnia and Herzegovina. Travel Guide. Despite a tumultuous background, Bosnia-Herzegovina has emerged as a compelling, multi-faceted travel destination. Most notable amongst the country's many charms is its lush, mountainous landscape, best seen from the vantage point of one of its national parks. Bosnia-Herzegovina still bears the legacy of war, but there are plenty of positives to take from the country's urban centres, especially the cosmopolitan capital of Sarajevo. With its rich history and lively nightlife, this diverse city has become one of Europe's most curious, unique capitals. The old town of Sarajevo is divided between the evocative Ottoman quarter of historic mosques, little streets filled with cafes and craft workshops, and the trendy Austria-Hungarian quarter built during the late 19th century truly a case of east meets west. Sarajevo also has several museums explaining its history, while climbing the steep hills rewards you with a stirring view of the city.

This edited volume maps the development of the use of political campaigning and marketing techniques in countries of the former Communist Bloc over the last thirty years. Focusing on the shift from propaganda to political marketing, and from manipulation to persuasion, the book consists of a series of case studies of countries in Central Europe, Eastern Europe, the Baltics, and the Balkans that outline the history, development and current state of political marketing in each country. The authors explore political parties and their behaviour ahead of elections, and show the

changes in political culture and practices that parties have undergone in order to create more or less successful campaigns. Der vorliegende Band vereint thematisch auf das Essen bezogene Beiträge aus der slavistischen Literatur- und Kulturwissenschaft. Er zeigt das seit einigen Jahren artikulierte Interesse an dem Thema ohne dieses gleich zu einem „culinary turn“ stilisieren zu wollen. Das Essen ist - analysiert man die Präsenz des Themas in Literatur, Film und anderen Medien der Hochkultur - ein Bereich, in und mit dem allgemeinere kulturelle und soziale Prozesse besonders anschaulich gezeigt werden können. This volume contains different contributions from Slavic literary and cultural studies dealing with cuisine. It shows the growing interest in that topic without stylising it as a "culinary turn". Food is - if one analyses the presence of this topic in literature, film and other media - a field that shows common cultural and social processes in a very vivid way.
