Passionately in love, Clare and Henry vow to hold onto each other and their marriage as they struggle with the effects of Chrono-Displacement Disorder, a condition that casts Henry involuntarily into the world of time travel.

"This volume covers the period from the end of the Neolithic era to the beginning of the seventh century of our era. This lengthy period includes the civilization of Ancient Egypt, the history of Nubia, Ethiopia, North Africa and the Sahara, as well as of the other regions of the continent and its islands."--Publisher's description

For centuries, experts have argued that learning was about memorizing information: You're supposed to study facts, dates, and details; burn them into your memory; and then apply that knowledge at opportune times. But this approach to learning isn't nearly enough for the world that we live in today, and in Learn Better journalist and education researcher Ulrich Boser demonstrates that how we learn can matter just as much as what we learn. In this brilliantly researched book, Boser maps out the new science of learning, showing how simple techniques like comprehension check-ins and making material personally relatable can help people gain expertise in dramatically better ways. He covers six key steps to help you "learn how to learn," all illuminated with fascinating stories like how Jackson Pollock developed his unique painting style and why an ancient Japanese counting device allows kids to do math at superhuman speeds. Boser's witty, engaging writing makes this book feel like a guilty pleasure, not homework. Learn Better will revolutionize the way students and society alike approach learning and makes the case that being smart is not an innate ability—learning is a skill everyone can master. With Boser as your guide, you will be able to fully capitalize on your brain's remarkable ability to gain new skills and open up a whole new world of possibilities. When R. W. Holt's dad brought Chu Chu home, the shy young man was understandably a little concerned. Chu Chu was a chow chow, a Chinese temple dog with a dominating disposition, and the Holts already had an older dog who might not take to the new puppy. As Holt came to know Chu Chu, however, the two embarked on a life-changing friendship. Chu Chu dominated every aspect of Holt's life. They walked together, played together, and slept together. Chu Chu offered protection and friendship, while expecting no less in return from his human. The massive dog even influenced Holt's love life, forcing him to choose between the girl of his dreams and his devoted best friend. A tale of trust, commitment, and unconditional love, Lion on a Leash isn't a tale of a dog and his master—it's a story of two friends who form a bond strong enough to last a lifetime. As Holt notes, it's easy to love a chow. It's hard to be loved by one. By the time the reader has finished the book, he should have a tear in his eye, a smile on his face, and a dog in his arms.

Death in the Afternoon

This shocking, surprisingly entertaining romp into the intellectual nether regions of today's underthirty set reveals the disturbing and, ultimately, incontrovertible truth: cyberculture is turning us into a society of know-nothings. The Dumbest Generation is a dire report on the intellectual life of young adults and a timely warning of its impact on American democracy and culture. For decades, concern has been brewing about the dumbed-down popular culture available to young people and the impact it has on their futures. But at the dawn of the digital age, many thought they saw an answer: the internet, email, blogs, and interactive and hyper-realistic video games promised to yield a generation of sharper, more aware, and intellectually sophisticated children. The terms "information superhighway" and "knowledge economy" entered the lexicon, and we assumed that teens would use their knowledge and understanding of technology to set themselves apart as the vanguards of this new digital era. That was the promise. But the enlightenment didn't happen. The technology that was supposed to make young adults more aware, diversify their tastes, and improve their verbal skills has had the opposite effect. According to recent reports from the National Endowment for the Arts, most young people in the United States do not read literature, visit museums, or vote. They cannot explain basic scientific methods, recount basic American history, name their local political representatives, or locate Iraq or Israel on a map. The Dumbest Generation: How the Digital Age Stupefies Young Americans and Jeopardizes Our Future is a startling examination of the intellectual life of young adults and a timely warning of its impact on American culture and democracy. Over the last few decades, how we view adolescence itself has changed, growing from a pitstop on the road to adulthood to its own space in society, wholly separate from adult life. This change in adolescent culture has gone hand in hand with an insidious infantilization of our culture at large; as adolescents continue to disengage from the adult world, they have built their own, acquiring more spending money, steering classrooms and culture towards their own needs and interests, and now using the technology once promoted as the

greatest hope for their futures to indulge in diversions, from MySpace to multiplayer video games, 24/7. Can a nation continue to enjoy political and economic predominance if its citizens refuse to grow up? Drawing upon exhaustive research, personal anecdotes, and historical and social analysis, The Dumbest Generation presents a portrait of the young American mind at this critical juncture, and lays out a compelling vision of how we might address its deficiencies. The Dumbest Generation pulls no punches as it reveals the true cost of the digital age—and our last chance to fix it.

Share in the euphoria that comes of the "kill shot" by learning the skills and techniques required to play a great game of darts. From the history of the sport to choosing the right type of equipment, The Ultimate Book of Darts is written in an accessible style that is perfect for both novices and seasoned professionals. Dart throwing is now a global phenomenon with new players emerging every day. This amazing sport demands remarkable precision and an agile mind from its competitors. Learn the rules for playing team games and tips for improving your score and ability for more advanced competitions. Author Anne Kramer focuses on the mechanics of dart throwing by discussing the pros and cons of various stances, such as toes square to the line versus one foot behind the other. This guide emphasizes good form over accuracy. If you develop good form, the accuracy will follow. Aside from mechanics this book also discusses the necessary equipment from types of darts to board materials, dimensions, and mounting. Whether you're an expert marksman who competes in a pub league or a guy who just enjoys throwing sharp objects, this is the go-to guide to a longstanding and fun tradition.

A tailor in disguise. Three legendary dresses. The competition of a lifetime. 'An amazing creation!' Tamora Pierce, #1 New York Times bestselling author Project Runway meets Mulan in this sweeping fantasy about a young girl who poses as a boy to compete for the role of imperial tailor and embarks on an impossible journey to sew three magic dresses, from the sun, the moon, and the stars. On the fringes of the Great Spice Road, Maia Tamarin dreams of becoming the greatest tailor in the land - but as a girl, the best she can hope for is to marry well. Then a royal messenger summons her ailing father to court, and Maia seizes her chance. Disguised as a man, she travels to the Summer Palace in her father's place to compete for the emperor's favour, and the coveted position of imperial tailor. If Maia's ruse is discovered, her life will be forfeit. But if she wins, she will achieve her greatest dream. Yet nothing could have prepared her for the challenge ahead: to sew three magic gowns for the emperor's bride-to-be. One from the laughter of the sun, one from the tears of the moon, and one from the blood of stars. Accompanied by the mysterious court enchanter, whose piercing eyes seem to see straight through her disguise, Maia's journey will take her to the far reaches of the kingdom, seeking the sun, the moon, and the stars, and finding more than she ever could have imagined. Steeped in Chinese culture, sizzling with forbidden romance, and shimmering with magic, this young adult fantasy is pitch-perfect for fans of Sarah J. Maas or Renée Ahdieh. Since the age of twenty-one, darts has been my life - and what a life! John Lowe is one of Britain's greatest ever darts champions. Unruffled on the oche, even in the face of the greatest challenges, 'Old Stoneface', as John is known, became an indomitable force in the darts world. With every major darts accolade under his belt, his name has gone down in the history of the game. It was fate that kick-started John's career in the sport when, one evening, he was asked to take someone's place during a match. Had it not been for this, John would have followed his father down the mine and led quite a different life. In this fascinating book, John speaks candidly of his two marriages, the glamour and the strain brought about by jetting around the world to play in tournaments, as well as tales from all the major matches and what he really thinks about his big-name opponents. A must-read for any sports fan. 'A must-read for darts fans' - Sid Waddell 'Priceless stuff.' - Andrew Baker, Daily Telegraph 'John lifts the lid off darts... something that no other darts player has dared to do thus far.' - Darts World magazine

I was seven years old the first time my uncle poisoned me... Jovan wears two faces. Outwardly, he is the lifelong friend of the Chancellor's charming, irresponsible heir. He's quiet. Forgettable even. But in truth he is a master of poisons and chemicals, trained to protect the Chancellor's family. Then there is his sister, Kalina. She hides her frustrations behind a mask of serenity. While other women of the city hold positions of power and responsibility, her path is full of secrets and lies - some hidden even from her own brother. It's when the Chancellor succumbs to an unknown poison and an army lays siege to the city that the siblings' world begins to truly unravel. Trapped and desperate, they soon discover that the society into which they were born and grew up also possesses two faces - for behind the sophistication and the beauty lies an ugly truth - this is a world built on oppression and treachery . . . This fabulous epic fantasy debut that will appeal to readers of Joe Abercrombie and Terry Brooks, Robin Hobb and Mark Lawrence and all points in between.

BIOGRAPHY: SPORT. Justin "The Bachelor of Darts" Irwin". Justin Irwin used to have another moniker - that of the Director of England at the children's charity, Childline. However, in December 2004, he suddenly resigned, giving up his well-paid job in order to... play darts. His aim was simple: to qualify for the World Darts Championship in one year's time in December 2005. As a child, Justin had wanted to become a sportsman. He remembered that in 1987 he once hit treble 20 - darts nirvana! So, why couldn't he do that again, just on a more regular basis? And so began his journey. From playing with friends, he graduated to pub teams, moving on to Open Tournaments in Essex and Hampshire. From backroom bars to the glamour of the Novotel in Southampton, he learnt the difference between a "Bull-up" and "Bullseye".

Knowing the out-shot combinations - I mean really knowing them - is a skill set that every darts player should strive to master. And yet very few ever do. By following an extremely powerful, and yet easy to use step-by-step system, this book takes years off the learning curve and shows you how to develop a World Class level of finishing - no matter where you are currently at.

'Extremely funny' - Guardian Booze, Bullseyes and (more) Booze Humanity has come a long way in the 500,000 years since Neanderthal man first started chucking spears around. Or has it? In his blisteringly funny new book, former professional player Wayne Mardle, whose crowd-pleasing antics were even more lively off stage than they were on, blows the lid off one of the UK's biggest televised sports. Known in darts circles as Hawaii 501 on account of his colourful Hawaiian shirts (yours for just forty-five quid - he's got a garage full of them) Mardle remains one of the planet's most recognisable players, having performed on the world stage during a professional career that saw him play all the greats and, quite frankly, lose to most of them. In this

witty (frequently), honest (largely), and poignant (twice) guide to life both on and off the oche, Mardle delivers world-class advice - such as why you shouldn't go on a two-day Vegas booze bender before a major PDC final, or how to avoid going live on European TV with a string of expletives so outrageous that clips are still replayed, years later, on Belgian telly. Some are lessons Mardle learned the hard way; others, like why it's best to avoid being sued by a well-known biscuit manufacturer, are gleaned from green-room gossip spanning decades.

A STORY OF LOVE COMPLICATED BY TIME TRAVEL 'What a wonderful, strange, terrifying, brilliant novel this is' Kamila Shamsie, author of Home Fire New York, 2000. Kate and Ben meet at a party and immediately fall in love. It is the first year of the new millennium, the first year without a war anywhere in the world. The United Nations has just planted its flag on Mars, and a Green Party senator is about to become the first female president of the United States. Kate falls asleep, knowing that she is loved. London, 1593. Kate wakes as Emilia - the mistress of a nobleman - and finds the plague at her door. Afflicted by premonitions of a burnt and lifeless city, she sets out to save the world. Each decision she makes will change her life with Ben forever. A story of love and alternate universes, madness and time travel, The Heavens is a dream bound up in a strange awakening; it is a bewitching novel of what we have lost, and what we might yet be able to save.

First released in the Spring of 1999, How People Learn has been expanded to show how the theories and insights from the original book can translate into actions and practice, now making a real connection between classroom activities and learning behavior. This edition includes far-reaching suggestions for research that could increase the impact that classroom teaching has on actual learning. Like the original edition, this book offers exciting new research about the mind and the brain that provides answers to a number of compelling questions. When do infants begin to learn? How do experts learn and how is this different from non-experts? What can teachers and schools do-with curricula, classroom settings, and teaching methods--to help children learn most effectively? New evidence from many branches of science has significantly added to our understanding of what it means to know, from the neural processes that occur during learning to the influence of culture on what people see and absorb. How People Learn examines these findings and their implications for what we teach, how we teach it, and how we assess what our children learn. The book uses exemplary teaching to illustrate how approaches based on what we now know result in in-depth learning. This new knowledge calls into question concepts and practices firmly entrenched in our current education system. Topics include: How learning actually changes the physical structure of the brain. How existing knowledge affects what people notice and how they learn. What the thought processes of experts tell us about how to teach. The amazing learning potential of infants. The relationship of classroom learning and everyday settings of community and workplace. Learning needs and opportunities for teachers. A realistic look at the role of technology in education.

Still considered one of the best books ever written about bullfighting, Death in the Afternoon is an impassioned look at the sport by one of its true aficionados. It reflects Hemingway's conviction that bullfighting was more than mere sport and reveals a rich source of inspiration for his art. The unrivaled drama of bullfighting, with its rigorous combination of athleticism and artistry, and its requisite display of grace under pressure, ignited Hemingway's imagination. Here he describes and explains the technical aspects of this dangerous ritual and " the emotional and spiritual intensity and pure classic beauty that can be produced by a man, an animal, and a piece of scarlet serge draped on a stick. " Seen through his eyes, bullfighting becomes a richly choreographed ballet, with performers who range from awkward amateurs to masters of great elegance and cunning. A fascinating look at the history and grandeur of bullfighting, Death in the Afternoon is also a deeper contemplation of the nature of cowardice and bravery, sport and tragedy, and is enlivened throughout by Hemingway's sharp commentary on life and literature.

Darts is an increasingly popular game, and today there are some fifteen million regular dart players in the United States alone. Incredibly, there have been virtually no reliable, concise guides to darts that would introduce new players to its rules, conventions, equipment, and techniques - until now. The American Darts Organization Book of Darts includes succinct, authoritative information on the rules of darts, how to play (and win) a dozen of the most popular games, notes on equipment, basic techniques and strategies, and much more. Also included are sample games, practice routines, and official tournament rules. Darts is a game for everyone. The American Darts Organization Book of Darts is everyone's perfect introduction to the game.

Women have made an enormous impact on life on the planet. They are deified and remembered in song, story, legend, and statues since at least 30,000 BC. We are, and have always been, brilliant inventors, innovators, and leaders for hundred and thousands of years. We are the survivors of everything that came our way and passed on our culture. Women are the creators of life! A woman can create life inside her own body, give birth to another human being, and make milk from her own breasts to feed her newborn life. The Goddesses are real mothers, actual women who lived, and created beautiful handiwork and incredible usable things from next to nothing; such as: spinning and weaving, making pots from dirt, farming, medicine, and writing. What a history! What a Gift to Civilization! Women were, and continue to be, the true Mothers of Invention! Stone Age Divas in the true sense of the word. If every girl in the world reads about the Goddesses found in this book, she will have a firm foundation of self-esteem and inspiration to make wise choices in her life. Since time immemorial, women have bonded together in sisterhood to fight for noble causes in nonviolent ways. Women have always been, and continue to be, great benefactors of humanity. 'Stone Age Divas: Their Mystery and Their Magic', takes an astonishing look at human beginnings never before attempted. It challenges our basic assumptions about gender, religion, and our civilization. Warning: This book may be dangerous to your beliefs!

This is "the Word" -- one man's word, certainly -- about the art (and artifice) of the state of our computer-centric existence. And considering that the "one man" is Neal Stephenson, "the hacker Hemingway" (Newsweek) -- acclaimed novelist, pragmatist, seer, nerd-friendly philosopher, and nationally bestselling author of groundbreaking literary works (Snow Crash, Cryptonomicon, etc., etc.) -- the word is well worth hearing. Mostly well-reasoned examination and partial rant, Stephenson's *In the Beginning... was the Command Line* is a thoughtful, irreverent, hilarious treatise on the cyber-culture past and present; on operating system tyrannies and downloaded popular revolutions; on the Internet, Disney World, Big Bangs, not to mention the meaning of life itself.
