In this captivating romance from New York Times bestselling author Hannah Howell, set against the backdrop of frontier-day Wyoming, two lovers discover a passion as vast and wild as the land itself. . . A simple task, made devilishly complicated by Ella's wit, beauty, and spirited determination to outfox him at every turn. Ella is no stranger to bad luck, but it seems wholly unfair that the man hired to drag her back to her greedy relatives should be the most intriguing male she ever set eyes on. him that presents the greatest danger. . . Praise for Hannah Howell and her Highland novels. . .

has little choice in the matter. Dangerous, greedy enemies threaten her from all sides and she's in dire need of his protection. Sir Lachlan MacGrath, known as Seducer of the Highlands, possesses a charming wickedness and canny wit which has earned him much popularity. After the king decrees that he wed the fiery hellion, Lachlan discovers there is one woman who can resist him—Angelique. Can he break through her icy façade and melt her heart, or will the dark secrets lurking in her past not only cost them their future together, but their very lives? Magic is a marriage of hope and rebellion. It's everywhere in the world. Always has been. But in most of the world, it's unknown. People stopped using it, believing in it even, thousands of years ago, and hundreds of years ago, and tens of years ago. It seems that each culture and each generation rejects magic a bit more than the one before. Some cultures more or less than others, but the general trend is to ignore magic and eventually to forget it. In every culture, though, in every generation, there are people who don't ignore it. Some of them stick around in the normal world, and they are often persecuted because of what they know, what they practise. But many don't stick around. They go into the Wild. #### **Wild flowers: showing where to gather them: how to preserve them [&c.].**

This book explores why the concept of wild pedagogy is an essential aspect of education in these times; a re-negotiated education that acknowledges the necessity of listening to voices in a more than human world, and (re)learning how to dwell in a place. As the geological epoch inexorably shifts to the Anthropocene, the authors argue that learning to live in and engage with the world is increasingly crucial in such times of uncertainty. The editors and contributors examine what wild pedagogy can truly become, and how it can be relevant across disciplinary boundaries: offering six touchstones as working tools to help educators forge an onward path. This collaborative work will be of interest to students and scholars of wild pedagogies, alternative education and the Anthropocene, and for all those engaged in re-wilding education.
