A playfully deceptive format that encourages young readers to see things differently This is not a book - it's a laptop, a pair of hands to clap, a toolbox! Each spread of this book is actually something else entirely, challenging young readers to see things quite differently! Turning the page and finding a full-sized image of piano keys will invite children to swing the book on its side for imaginative play; turning the page again to find a monster with its mouth wide open will prompt children to use the book to chomp everything around them! The result stretches beyond the pages of this book, prompting readers to think creatively about other objects in their daily lives. Created for ages 2-4 years

Learn how to create the illusion of three-dimensional space in your drawings It is as mundane as it is astounding: placed in the right way, a couple of lines on paper create three-dimensional space. To be more exact, the illusion of space. The interest in three-dimensional drawing may initially arise from the intention to depict visible reality. However, the creation of depth is a fascinating challenge in every artistic composition. Drawing Perspective Methods for Artists is suitable for beginners and professionals alike. Authors Peter Boerboom and Tim Proetel have arranged, commented on, and with a guiding hand intuitively and tangibly presented 85 fundamental methods of three-dimensional illustration, offering a refreshing, simple approach to the graphic depiction of three-dimensionality.

But many people he sees have no health problems: they're just deeply dissatisfied with their lives. Hector can't do much for them, and it's beginning to depress him. So when a patient tells him he looks in need of a holiday, Hector decides to set off round the world to find out what makes people everywhere happy (and sad), and whether there is such a thing as the secret of true happiness... When a young man washes up, naked, on the sands of St Piran, he is quickly rescued by the villagers. From the retired village doctor and the schoolteacher, to the beachcomber and the owner of the local bar, the priest's wife and the romantic novelist, they take this lost soul into their midst. But what the villagers don't know is that Joe Haak worked as an analyst and has fled the City amid fears of a worldwide banking collapse caused by a computer program he invented. But is the end of the world really nigh? And what of the whale that lurks in the bay? Intimate, funny and deeply moving, *Not Forgetting the Whale* is the story of a man on a journey to find a place he can call home.

How the global mind drives the evolution of both consciousness and civilization • Explains how our brains receive consciousness from the global mind, which upgrades human consciousness according to a pre-set divine time frame • Reveals how the Mayan Calendar provides a blueprint for these consciousness downloads throughout history • Examines the mind shift in humans and the development of pyramids and civilization in ancient Egypt, Sumer, South America, and Asia beginning in 3115 BCE In each culture the origins of civilization can be tied to the arising of one concept in the human mind: straight lines. Straight and perpendicular lines are not found in nature, so where did they come from? What shift in consciousness occurred around the globe that triggered the start of rectangular building methods and linear organization as well as written language, pyramid construction, mathematics, and art? Offering a detailed answer to this question, Carl Calleman explores the quantum evolution of the global mind and its holographic resonance with the human mind. He examines how our brains are not thinking machines but individual receivers of consciousness from the global mind, which creates holographic downloads to adjust human consciousness to new cosmological circumstances. He explains how the Mayan Calendar provides a blueprint for these downloads throughout history and how the global mind, rather than the individual, has the power to make civilizations rise and fall. He shows how, at the beginning of the Mayan 6th Wave (Long Count) in 3115 BCE, the global mind gave human beings the capacity to conceptualize spatial relations in terms of straight and perpendicular lines, initiating the building of pyramids and megaliths around the world and leading to the rise of modern civilization. He examines the symbolism within the Great Pyramid of Giza and the pyramid at Chichén Itzá and looks at the differences between humans of the 6th Wave in ancient Egypt, Sumer, South America, and Asia and the cave painters of the 5th Wave. He reveals how the global mind is always connected to the inner core of the Earth and discusses how the two halves of the brain parallel the civilizations of the East and West. Outlining the historical, psychological, geophysical, and neurological roots of the modern human mind, Calleman shows how studying early civilizations offers a means of understanding the evolution of consciousness.

THE SUNDAY TIMES BESTSELLER A beautiful book to connect us after such a challenging time. 'Dark clouds were looming in the distance. We watched them gather, and we wondered... When will it come? How long will it last?' A monumental storm brings huge and sudden change. We follow a man and his dog through the uncertainty that it brings to their lives. Through their eyes, we see the difficulties of being apart, the rollercoaster of emotions that we can all relate to, and the realisation that by pulling together we can move through difficult times with new perspective, hope and an appreciation of what matters most in life. Luke has dedicated the book to his late grandfather, who was a key figure in his life. The main characters are based on his grandfather and his own dog, Robin, who offers a reassuring guide through the challenges of the storm. It's a story with very personal emotion, but one that speaks to us all. 'Though clouds may gather again, and we may see other storms, we have realised most of all that we are stronger facing them... New edition with foreword by Nobel Peace Prize winner Desmond Tutu: "How extraordinary that this humble suitcase has enabled children all over the world to learn through Hana's story the terrible history of what happened and that it continues to urge them to heed the warnings of history." In the spring of 2000, Fumiko Ishioka, the curator of a small Holocaust education centre for children in Tokyo, received a very special shipment for an exhibit she was planning. She had asked the curators at the Auschwitz museum if she could borrow some artifacts connected to the experience of children at the camp. Among the items she received was an empty suitcase. From the moment she saw it, Fumiko was captivated by the writing on the outside that identified its owner – Hana Brady,

May 16, 1931, Waisenkind (the German word for orphan). Children visiting the centre were full of questions. Who was Hana Brady? Where did she come from? What was she like? How did Hana become an orphan? What happened to her? Fueled by the children's curiosity and her own need to know, Fumiko began a year of detective work, scouring the world for clues to the story of Hana Brady. Writer Karen Levine follows Fumiko in her search through history, from present-day Japan, Europe and North America back to 1938 Czechoslovakia and the young Hana Brady, a fun-loving child with a passion for ice skating. Together with Fumiko, we learn of Hana's loving parents and older brother, George, and discover how the family's happy life in a small town was turned upside down by the invasion of the Nazis. Based on an award-winning CBC documentary, Hana's Suitcase takes the reader on an incredible journey full of mystery and memories, which come to life through the perspectives of Fumiko, Hana and later Hana's brother, who now lives in Canada. Photographs and original wartime documents enhance this extraordinary story that bridges cultures, generations and time. Ideal for young readers aged 9 and up. Hana's Suitcase is part of the award-winning Holocaust Remembrance Series for Young Readers.

Part inspiration, part information narrative for our story is based on walking meditation, also known as mindful walking; an active practice that requires you to be consciously aware and moving in the environment rather than sitting with your eyes closed. Just as The Life-Changing Magic of Tidying Up, Marie Kondo's mega-selling book (over 4 million copies sold worldwide) provides readers with a life/spiritual philosophy embedded in the how-to of minimalism (with practical tips for de-cluttering of one's home), A Walk in the Wood provides a narrative grounded in the simple act of slowing down, observing what is around us, and being present. The Glass Children

From the author of the beloved *Hum If You Don't Know the Words* comes a rich, unforgettable story of three unique women in post-Apartheid South Africa who are brought together in their darkest time and discover the ways that love can transcend the strictest of boundaries. In a squatter camp on the outskirts of Johannesburg, seventeen-year-old Zodwa lives in desperate poverty, under the shadowy threat of a civil war and a growing AIDS epidemic. Eight months pregnant, Zodwa carefully guards secrets that jeopardize her life. Across the country, wealthy socialite Ruth appears to have everything her heart desires, but it's what she can't have that leads to her breakdown. Meanwhile, in Zaire, a disgraced former nun, Delilah, grapples with a past that refuses to stay buried. When these personal crises send both middle-aged women back to their rural hometown to heal, the discovery of an abandoned newborn baby upends everything, challenging their lifelong beliefs about race, motherhood, and the power of the past. As the mystery surrounding the infant grows, the complicated lives of Zodwa, Ruth, and Delilah become inextricably linked. What follows is a mesmerizing look at family and identity that asks: How far will the human heart go to protect itself and the ones it loves?

Do you hear the beasts scratching at the door? They 've been sleeping too long, and now they 're getting feisty. Don 't be afraid, they 're pretty lovely inside. And never did I see a more pretty beast than you. Do you ever wonder how to be wild & free again? There is beauty in being a human, too. With a heart to feel, a mind to learn & hands to build extraordinary things. Go forth, fiercely, bravely. Through a mash-up of poetry, fables, comic fiction and whimsical watercolor illustrations, this beautiful book weaves a narrative of how we can all become wild and free again. Looking at life through the eyes of Sloth, Bear, Koala, and even Blob Fish, these animals tell the stories of the raw beauty of life on our planet, encouraging us to let go of fear, stick our fingers/paws up at societal pressure, and accept our beautifully flawed bodies and minds to empower us to love ourselves and one another with abandon.

Sometimes a bad mood can be contagious! Badger got up one morning feeling very grumpy. "Humph!" Badger said to himself. What was the point of being in a bad mood if nobody noticed? he thought. So Badger headed out, slamming the door behind him. Badger spreads his bad mood far and wide, greeting all his friends with angry, rude remarks that put them in bad moods, too. A comical, cautionary tale for anyone who has ever gotten up on the wrong side of the bed.

"You are more amazing than you even know. New York Times best-selling author Kobi Yamada has written a story about the unbound potential you hold inside. New York, 1909: Fifteen-year-old Cetta arrives on a freighter with nothing but her infant son Natale: strikingly blond, dark-eyed, and precocious. They've fled the furthest reaches of southern Italy with the dream of a better life in America. But even in the "Land of the Free," the merciless laws of gangs rule the miserable, poverty-stricken, and crime-filled Lower East Side. Only those with enough strength and conviction survive. As young Natale grows up in the Roaring Twenties, he takes a page from his crippled mother's book and finds he possesses a certain charisma that enables him to charm the dangerous people around him ... Weaving Natale's unusual life and quest for his one true love against the gritty backdrop of New York's underbelly, Di Fulvio proves yet again that he is a master storyteller as he constructs enticing characters ravaged by circumstance, driven by dreams, and awakened by destiny. Haunting and luminous, this masterfully written blend of romance, crime, and historical fiction will thrill lovers of turn-of-the-century dramas like "Once Upon a Time in America" and "Gangs of New York." About the Author: Luca Di Fulvio as born in 1957 in Rome where he now works as an independent author. His versatile talent allows him to write riveting adult thrillers and cheerful children's stories (published under a pseudonym) with equal ease. One of his previous thrillers, "L'Impagliatore," was filmed in Italian under the title "Occhi di cristallo." Di Fulvio studied dramaturgy in Rome where he was mentored by Andrea Camilleri. My Wounded Heart tells the heart-breaking story of a gifted Jewish doctor, the

mother of five children, who, after being divorced by her Aryan husband, is arrested on an absurd charge and sent to a corrective labour camp in 1942. Lilli was a prolific letter writer and miraculously almost all her letters to her children and friends, together with a huge number of their letters to her (smuggled out of the camp at Breitenau before she was sent to Auschwitz), survived the Second World War and only came to light on the death of her son in 1998. In the letters and in Martin Doerry's superb commentary, we see the deterioration of a whole country through the eyes of an ordinary family driven asunder by pressure from the Nazi regime. We see Lilli's initial optimism and love of her husband begin to crack. We see her trying to support and run the family home from Breitenau camp, but relying totally on her twelve-year-old daughter, Ilse. And we see the difficulties for the children of living with their father's mistress, now his wife, after a bombing raid destroys the family home. And perhaps most moving of all, we see Ilse's heroic attempts to meet her mother, even though it means going into the labour camp itself, and Lilli's courage in the face of her inevitable end.

Sweet Trouble

The Global Mind and the Rise of Civilization

The ancient gods are alive and well in the modern world in this hilarious, action-packed collection of original short stories featuring Atticus O' Sullivan, the two-thousand-year-old Irishman from Kevin Hearne's New York Times bestselling Iron Druid Chronicles. • In ancient Egypt, Atticus agrees to raid a secret chamber underneath the library of Alexandria, dodging deadly traps, only to learn that on-site security includes two members of the Egyptian pantheon. • At a Kansas carnival, fun and games turns to murder and mayhem, thanks to soul-snatching demons and flesh-craving ghouls luring visitors into an all-too-real house of horrors. • Verily, in olde England, striking up a friendship with William Shakespeare lands both Atticus and the Bard in boiling hot water with a trio of infamous witches. • During the Gold Rush, the avatar of greed himself turns the streets of San Francisco red with blood and upsets the elemental Sequoia. Atticus may have to fight fire with fire if he's going to restore balance. More, you say? Indeed there is—including bogeymen, vampire hordes, wrathful wraiths, and even a journey to the realm of the dead. Prepare to be besieged with nine tantalizing tales—not to be missed, never to be forgotten.
