Poeta La Vida / Cultura Y Raices

Sonatas and Pieces, Volume II

The culture wars have distorted the dramatic story of how Americans came to worship freely. Many activists on the right maintain that the United States was founded as a "Christian nation." Many on the left contend that the First Amendment was designed to boldly separate church and state. Neither of these claims is true, argues Beliefnet.com editor in chief Steven Waldman. With refreshing objectivity, Waldman narrates the real story of how our nation's Founders forged a new approach to religious liberty. Founding Faith vividly describes the religious development of five Founders. Benjamin Franklin melded the Puritan theology of his youth and the Enlightenment philosophy of his adulthood. John Adams's pungent views on religion stoked his revolutionary fervor and shaped his political strategy. George Washington came to view religious tolerance as a military necessity. Thomas Jefferson pursued a dramatic quest to "rescue" Jesus, in part by editing the Bible. Finally, it was James Madison who crafted an integrated vision of how to prevent tyranny while encouraging religious vibrancy. The spiritual custody battle over the Founding Fathers and the role of religion in America continues today. Waldman at last sets the record straight, revealing the real history of religious freedom to be dramatic, unexpected, paradoxical, and inspiring.

Designed to bring the fun back into teaching while also enabling teachers to teach the requirements of the curriculum, these stand alone photocopiable resources provide a wealth of learning that is closely linked to the QCA Scheme for Science as well as the science curricula.
