*I received a great gift from our Father in heaven in 1984. This gift gave me the opportunity to save people and their souls through my poetry and songs. I look to create great happiness and desires through my literary achievements and hope to influence several analogies and implement the pursuit of goals. Each poem lyric that I created has a title for its introduction. The poem lyrics in this book have no lead sheets; however, these poem lyrics are songs, and I look forward to composing, recording, and producing all of my literary achievements. Our Father in heaven has given me the opportunity to present slogans in several industries to the world. These slogans will implement corporations to produce and deliver the best products and services to our world, which will enhance customer relations and bring harmony to the people of this world.*

***In Comeback, Pulitzer Prize-winners Paul Ingrassia and Joseph B. White take us to the boardrooms, the executive offices, and the shop floors of the auto business to reconstruct, in riveting detail, how America’s premier industry stumbled, fell, and picked itself up again. The story begins in 1982, when Honda started building cars in Marysville, Ohio, and the entire U.S. car industry seemed to be on the brink of extinction. It ends just over a decade later, with a remarkable turn of the tables, as Japan’s car industry falters and America’s Big Three emerge as formidable global competitors. Comeback is a story propelled by larger-than-life characters -- Lee Iacocca, Henry Ford II, Don Petersen, Roger Smith, among many others -- and their greed, pride, and sheer refusal to face facts. But it is also a story full of dedicated, unlikely heroes who struggled to make the Big Three change before it was too late.***
