*The complete resource for fundraisers in any nonprofit organization! Conducting a Successful Fundraising Program outlines a unique approach to successful fundraising and features an exhaustive resource section that includes actual organization publications, direct mail samples, model case statements, telemarketing scripts, special events check-lists, and more. This all-in-one resource covers all the traditional elements of fundraising--including annual giving, major gifts and planned giving, corporate and foundation relations, prospect research and management, and fundraising literature and promotions--as well as current issues such as gift administration, technology, and the use of consultants and paid solicitors in the solicitation process. Dove identifies the ten prerequisites that predict success in fundraising and then leads the reader step-by-step through every phase of the fundraising process, and provides specific advice on the elements crucial to any program's success.*

*Help your students learn not only the concepts and theories that enhance the management of human behavior at work but also how to practice these skills with Nelson/Quick's ORGANIZATIONAL BEHAVIOR. The latest edition of this book clearly demonstrates how organizational behavior theories and research apply to companies today with engaging cases, meaningful exercises, and examples that include six new focus companies students will instantly recognize. The authors present foundational organizational behavior topics, such as motivation, leadership, teamwork, and communication. Students also examine emerging issues reshaping the field today, such as the theme of change. They study how change affects attitudes and behaviors in an organization as well as what new opportunities and experiences change presents. Students further explore growing themes of globalization, diversity, and ethics. The authors anchor the book's multifaceted approach in both classic research and leading-edge scholarship. Timely examples from all types of organizations throughout this edition reflect today's most current trends, including six new focus companies--NetFlix, Ford, Groupon, and more. Self-assessments and other interactive learning opportunities allow your students to grow and develop, both as individuals and as important contributors to an organization, as they progress throughout your course. In the late 1800s a supremely qualified woman educator and administrator made an unforgettable imprint on well-known missionaries, educators, and preachers. Emma Dryer worked with Pacific Garden Mission's George and Sarah Clarke, Methodist deaconess Lucy Rider Meyer, Wheaton College President Charles Blanchard, Anna Spafford--whose husband wrote the beloved hymn It is Well with My Soul--and many others. However, her greatest achievement came from her divinely guided association with evangelist Dwight L. Moody. Moody Bible Institute in Chicago, with its compelling and far-reaching ministries, would undoubtedly not exist today if not for the driving missionary fervor of Emma Dryer. Her story is finally being told in light of this association. A close examination of her ministry relationship with Mr. Moody reveals the interconnected aspects of their lives from a viewpoint never before written. This includes examining their leadership styles and effectiveness in modern day terms as well as contrasting their learning styles, strengths, and weaknesses as both evangelist and educator. This book represents the first biography of Emma Dryer's life with undying evidence of the answered prayers of a noble and virtuous woman who dedicated her life to serve and honor Christ until his eminent return.

OK2BG is narrative nonfiction, a Memoir about a guy who wants to be a Mentor preferably to a teenager, so they can have a decent & meaningful conversation about stuff & preferably with a kid at-risk, or just otherwise lost, in order to help both the teenager as well as the determined subject of this story realize their unique potential & find or reinforce their place in the world. Overall, a chronicle about the author's attempt over several years to understand the question of 'why do I want to be a Mentor' which eventually helps him become a more insightful person. Subsequently in September, 2010 after a plague of teen suicides, Jack turns his attention to researching gay biographies into optimistically appropriate groups of books for gay kids at-risk, from bullying. After 5 years Jack has categorized 2,000+ books in the form of Memoirs, Biographies & Autobiographies written by or about 1,000+ allegedly gay men. The primary message in OK2BG is to read & reassess before you run asunder!

This book describes the experiences of a group of students in Chicago, Illinois, who are attending one of the first Spanish-English dual immersion schools in the United States. The author follows the group during two school years, documenting their Spanish use and proficiency, as well as how their two languages intersect with the ongoing production of their identities.

For most schools and organizations, fundraisers bridge the gap between budgets and the money they need in order to operate. Despite the continued rise in childhood and adult obesity and increased attention to humankind's ecological impact, many fundraisers still rely on the sale of high-calorie, low-nutrient foods or ask supporters to become consumers of incidental items and paper products "to support the cause." Healthy and Sustainable Fundraising Activities offers innovative and thoughtful options that raise money for your cause without contradicting the physical activity, health, and ecological messages emphasized in your school or organization. In contrast to traditional fundraisers involving food and incidental products, the ideas in Healthy and Sustainable Fundraising Activities encourage personal, community, and environmental health and reinforce the health and social responsibility initiatives in place in your school or organization. With Healthy and Sustainable Fundraising Activities you'll learn how to involve not just your school or organization but the entire community in health-promoting, environmentally friendly activities. With Healthy and Sustainable Fundraising Activities, you'll find a range of ideas—from ink cartridge recycling to a dance competition—and a unique approach to fundraising sure to energize your students, members, and community to meet and exceed your fundraising goals. For educators, each of the activities outlined in the text is based on National Health Education Standards (NHES) and National Association for Sport and Physical Education (NASPE) standards and 21st-century learning outcomes, making this text a great resource for incorporating the health and wellness initiatives of your school into the fundraising plans for your class, club, sport team, or organization. Activities in the book are grouped according to the level of knowledge, skills, and abilities required for organizing and conducting them. Most activities use similar or commonly used resources often available in a school or organizational setting. You'll find clear and complete explanations in a standard lesson plan format along with the tools and information you need in order to implement each idea. With background information on various types of fundraisers, how these types are categorized, and guidance on scheduling, implementing, and communication, you'll have a full picture of what it takes to complete each event. Get your members and community involved in a project that not only raises money but also gives children exposure to important values such as lifelong wellness, hard work, perseverance, integrity, and civic engagement. Regardless of whether you are new to fundraising or simply searching for new ideas for your next project, Healthy and Sustainable Fundraising Activities offers the tools, information, and inspiration to help you reach your monetary goals in ways that contribute to the health and well-being of your students, members, community, and the environment. This compilation of resources offers practical, ready-to-use solutions to the issues and dilemmas principals face every day.

This unique book covers the who, what, when, where, why, and, most important, the HOW of creating a career center or jobseeker program in a public library. • Explains the need for job centers and showcases an expanding role for librarians in staffing them • Reviews various types of programs and services that can help meet the needs of jobseekers • Shows how to research community needs and publicize services • Provides samples of forms and marketing materials from which libraries can draw

What is community? How important is community in the 21st century? Where might the idea of community "fit" in education and schooling, teaching and learning? These are the questions and themes embedded in this book. The general critique is that community is an add-on in our schools and often is dismissed as a result of the individualistic and competitive nature of schooling today. Our focus is to provide critical investigations as to the possibility of community – and that we need community now more than ever! The concept of community education brings many ideas and issues to mind. Related themes include place-based, field-based, environmental, service learning, and outdoor education. Each has its own more narrow focus with community education perhaps an umbrella term than encompasses them all. Nevertheless, the suggestion here is that instead of community education serving as an extension or add-on to traditional approaches, it should be the focus of all education. What is often missing in teaching and learning are contexts and connections that make education meaningful. Community education engages participants in problem and issues-based approaches to the local community, thereby facilitating that local to global link. Instead of compartmentalized subjects, integrated approaches use what students and the community know or understand to develop further questions, solutions, or even problems. Community education offers efficacy in that it provides opportunities for collaboration in addressing local issues and problems. It enables the community to become the classroom, thus ensuring a more long-term connection to active rather than passive endeavors as citizens.

Told through the correspondence between the young narrator and his grandmother, Letters from Hillside Farm provides a glimpse of life during the Great Depression of the 1930's. Young George moves from Cleveland, Ohio to a farm in central Wisconsin. He shares his discovery of rural life and the realities of tough times with his Grandmother Strunkmeyer.

*This book examines and establishes connections between Italian Fascism and Hindu nationalism, connections which developed within the frame of Italy's anti-British foreign policy. The most remarkable contacts with the Indian political milieu were established via Bengali nationalist circles. Diplomats and intellectuals played an important role in establishing and cultivating those tie-ups. Tagore's visit to Italy in 1925 and the much more relevant liaison between Subhas Chandra Bose and the INA were results of the Italian propaganda and activities in India. But the most meaningful part of this book is constituted by the connections and influences it establishes between Fascism as an ideology and a political system and Marathi Hindu nationalism. While examining fascist political literature and Mussolini's figure and role, Marathi nationalists were deeply impressed and influenced by the political ideology itself, the duce and fascist organisations. These impressions moulded the RSS, a right-wing, Hindu nationalist organisation, and Hindutva ideology, with repercussions on present Indian politics. This is the most original and revealing part of the book, entirely based on unpublished sources, and will prove foundational for scholars of modern Indian history.*

*Community members are rarely tapped for their insights on engaged teaching and research, but without these perspectives, it is difficult to create ethical and effective practices. Rewriting Partnerships calls for a radical reorientation to the knowledges of community partners. Emphasizing the voices of community members themselves—the adult literacy learners, secondary students, and youth activists who work with college students—the book introduces Critical Community-Based Epistemologies, a deeply practical approach to knowledge construction that centers the perspectives of marginalized participants. Drawing on interviews with over eighty community members, Rewriting Partnerships features community knowledges in three common types of community-engaged learning: youth working with college students in a writing exchange program, nonprofit staff who serve as clients for student projects, and community members who work with graduate students. Interviewees from each type of partnership offer practical strategies for creating more ethical collaborations, including how programs are built, how projects are introduced to partners, and how graduate students are educated. The book also explores three approaches to partnership design that create space for community voices at the structural level: advisory boards, participatory evaluation, and community grading.*

*Immediately applicable to teachers, researchers, community partners, and administrators involved in community engagement, Rewriting Partnerships offers concrete strategies for creating more community-responsive partnerships at the classroom level as well as at the level of program and research design. But most provocatively, the book challenges common assumptions about who can create knowledge about community-based learning, demonstrating that community partners have the potential to contribute significantly to community engagement scholarship and program decision-making.*
