This book is a work of outstanding importance for scholars of comparative law and jurisprudence and for lawyers engaged in EC law or other international forms of practice. It reviews, compares and analyses the practice of interpretation in nine countries representing Europe as well as the US and Argentina in common and civil law; it also explores implications for general theories of interpretation and of justification. Its authors, who include Aulis

Aarnio, Robert Alexy, Ralf Dreier, Enrique Zuleta-Puceiro, Michel Troper, Christophe Grzegorzczak, Jean-Louis Gardes, Enrico Pattaro, Michele Taruffo, Massimo La Torre, Jerry Wroblewski, Alexander Peczenik, Gunnar Bergholtz and Zenon Bankowski, as well as editors Robert S. Summers and D. Neil MacCormick, constitute an international team of great distinction; they have worked on this project for over seven years. References in Modern French reveals the hidden cultural dimension of contemporary French, as used in the press, going beyond the limited and purely lexical approach of traditional bilingual dictionaries. Even foreign learners of French who possess a good level of French often have difficulty in fully understanding French articles, not because of any linguistic shortcomings on their part but because of their inadequate knowledge of the

cultural references. This cultural dictionary of French provides the reader with clear and concise explanations of the crucial cultural dimension behind the most frequently used words and phrases found in the contemporary French press. This vital background information, gathered here in this innovative and entertaining dictionary, will allow readers to go beyond a superficial understanding of the French press and the French

Annotation The residence at 24 rue Nungesser et Coli in Paris was built in 1931-34 by Le Corbusier and Pierre Jeanneret. It was precisely this building which gave exemplary expression to Le Corbusier's "Cinq points de l'architecture moderne." It is a little known fact that reading

was taught by means of spelling for over 200 years. Today the impact of spelling on reading achievement is not as well appreciated as it once was. The late Dr. Ronald P. Carver did extensive research into the causal relationships between spelling instruction and reading ability. Carver concluded, "One very important way to learn how to pronounce more words accurately is sometimes overlooked, that is, learning to spell more words accurately."

(Causes of High and Low Reading Achievement, p. 178). He also notes that "spelling was used to teach reading for almost 200 years, but by the beginning of the 20th century, the tide had so turned that learning to spell was largely seen as incidental to learning to read." Quoting C. A. Perfetti, Carver observed, "practice at spelling should help reading more than practice of reading helps spelling." (p. 179. In June of 2004 Miss Geraldine

Rodgers sent me her essay, "Why Noah Webster's Way Was the Right Way." She argued from the history of reading and the psychology of reading that Webster's spelling book method of teaching reading and spelling was superior to all other methods. I was surprised to learn that that Webster, in his 1828 American Dictionary of the English Language, defined a Spelling Book as, " A book for teaching children to spell and read." He also wrote under

the entry, Spelling, "To tell the name of letters of a word, with a proper division of syllables, for the purpose of learning the pronunciation. In this manner children learn to read by first spelling the words." You can see that Webster was quite clear about the dual purpose of the spelling books in his day. You can imagine my surprise at the improvement I began to get with my tutoring students when they started working through Webster's Spelling

Book. I decided to type up my own edition to use in my private tutoring and my tutoring work at the Odessa Christian School in Odessa, TX, where I teach remedial reading and Spanish. In this edition, I have retained everything in the original 1908 (descendant from the 1829 edition). The only differences relate to formatting. I chose to list the words in rows instead of columns. I also allow the words to divide at the ends of lines. I

have found that this works fine for all students. We are teaching students to read and spell by syllables and not by word shapes or context. When reading and spelling are taught by the Spelling Book Method, all guessing at words from shape or context is completely eliminated. The student's total focus is on pronouncing the words correctly, high levels of comprehension are a natural result.

Paris. The name alone conjures images of chestnut-lined boulevards, sidewalk cafés, breathtaking façades around every corner--in short, an exquisite romanticism that has captured the American imagination for as long as there have been Americans. In 1995, Adam Gopnik, his wife, and their infant son left the familiar comforts and hassles of New York City for the urbane

glamour of the City of Light. Gopnik is a longtime New Yorker writer, and the magazine has sent its writers to Paris for decades--but his was above all a personal pilgrimage to the place that had for so long been the undisputed capital of everything cultural and beautiful. It was also the opportunity to raise a child who would know what it was to romp in the Luxembourg Gardens, to enjoy a croque monsieur in a Left Bank café--a child (and perhaps a father, too) who would have a grasp of that Parisian sense of style we

Americans find so elusive. So, in the grand tradition of the American abroad, Gopnik walked the paths of the Tuileries, enjoyed philosophical discussions at his local bistro, wrote as violet twilight fell on the arrondissements. Of course, as readers of Gopnik's beloved and award-winning "Paris Journals" in The New Yorker know, there was also the matter of raising a child and carrying on with day-to-day, not-so-fabled life. Evenings with French intellectuals preceded middle-of-the-night baby feedings; afternoons were filled with

trips to the Musée d'Orsay and pinball games; weekday leftovers were eaten while three-star chefs debated a "culinary crisis." As Gopnik describes in this funny and tender book, the dual processes of navigating a foreign city and becoming a parent are not completely dissimilar journeys--both hold new routines, new languages, a new set of rules by which everyday life is lived. With singular wit and insight, Gopnik weaves the magical with the mundane in a wholly delightful, often hilarious look at what it was to be

work is, in fact, an increasingly mainstream pursuit. Based on a qualitative investigation of the practices involved in male-with-male-or m4m-Internet escorting, Touching Encounters is the first book to explicitly address how masculinity and sexuality shape male commercial sex in this era of Internet communications. By looking closely at the sex and work of male escorts, Kevin Walby tries to reconcile the two extremes of m4m sex—the stereotypical idea of a quick cash transaction and the tendency toward friendship and mutuality. In doing so, Walby draws on the work of Foucault to make visible

the play of power in these physical and commercial relations between men. At once a revelation to the sociology of work and a much-needed critical engagement with queer theory, Touching Encounters responds to calls from across the social sciences to connect Foucault with sociologies of sex, sexuality, and intimacy. Walby does this and more, retying this sexual practice back to society at large.

This book discusses the visual and verbal city sketches which proliferated during the 'journalistic revolution' of the 1830s and 1840s. It shows how sketches transformed models of visual and printed media and of life science into a unique kind of sociology, presenting a self-critique of the middle class on the brink of industrial modernity.
