

El Jardin De Cactus Enciclopedia Universal

The European Garden Flora is the definitive manual for the accurate identification of cultivated ornamental flowering plants. Designed to meet the highest scientific standards, the vocabulary has nevertheless been kept as uncomplicated as possible so that the work is fully accessible to the informed gardener as well as to the professional botanist. This new edition has been thoroughly reorganised and revised, bringing it into line with modern taxonomic knowledge. Although European in name, the Flora covers plants cultivated in most areas of the United States and Canada as well as in non-tropical parts of Asia and Australasia. Volume 3 contains accounts of 47 families, including those formerly included in the Leguminosae (Mimosaceae, Caesalpiniaceae, Fabaceae) as well as the large and important Rosaceae. Also included are those families formerly covered by the name Saxifragaceae (Saxifragaceae in the strict sense, Penthoraceae, Grossulariaceae, Parnassiaceae, Hydrangeaceae and Escalloniaceae).

Eventually in six volumes, The European Garden Flora is the definitive manual for the accurate identification of cultivated ornamental plants. Families, genera, and species are described, keys are provided, and guidance is given on the cultivation of each genus. It is designed to meet the highest scientific standards, yet the vocabulary is kept uncomplicated to make the book fully accessible to the informed gardener and landscape architect, as well as the professional botanist. Although based on European flora, the series will be an extremely useful reference on cultivated plants throughout the world.

Part travelogue, part cookbook, Mercados takes us on a tour of Mexico's most colorful destinations—its markets—led by an award-winning, preeminent guide whose passion for Mexican food attracted followers from around the globe. Just as David Sterling's Yucatán earned him praise for his "meticulously researched knowledge" (Saveur) and for producing "a labor of love that well documents place, people and, yes, food" (Booklist), Mercados now invites readers to learn about local ingredients, meet vendors and cooks, and taste dishes that reflect Mexico's distinctive regional cuisine. Serving up more than one hundred recipes, Mercados presents unique versions of Oaxaca's legendary moles and Michoacan's carnitas, as well as little-known specialties such as the charcuterie of Chiapas, the wild anise of Pátzcuaro, and the seafood soups of Veracruz. Sumptuous color photographs transport us to the enormous forty-acre, 10,000-merchant Central de Abastos in Oaxaca as well as tiny tianguises in Tabasco. Blending immersive research and passionate appreciation, David Sterling's final opus is at once a must-have cookbook and a literary feast for the gastronome.
