Studies of conflict in medieval history and related disciplines have recently come to focus on wars, feuds, rebellions, and other violent matters. While those issues are present here, to form a backdrop, this volume brings other forms of conflict in this period to the fore. With these assembled essays on conflict and collaboration in the Iberian Peninsula, it provides an insight into key aspects of the historical experience of the Iberian kingdoms during the Middle Ages. Ranging in focus from the fall of the Visigothic kingdom and the arrival of significant numbers of Berber settlers to the functioning of the Spanish Inquisition right at the end of the Middle Ages, the articles gathered here look both at cross-ethnic and interreligious meetings in hostility or fruitful cohabitation.

The book does not, however, forget intra-communal relations, and consideration is given to the mechanisms within religious and ethnic groupings by which conflict was channeled and, occasionally, collaboration could ensue.

Since its first appearance in Germany in 1911, Jews and Modern Capitalism has provoked vehement criticism. As Samuel Z. Klausner emphasizes, the lasting value of Sombart's work rests not in his results-most of which have long since been disproved-but in his point of departure. Openly acknowledging his debt to Max Weber, Sombart set out to prove the double thesis of the Jewish foundation of Capitalism and the capitalism foundation of Judaism. Klausner, placing Sombart's work in its historical and societal context, examines the weaknesses and strengths of Jews and Modern Capitalism.
