It's full of ragtag boy cousins, family secrets to unravel . . . and even a little bit of fun. Before she knows what's happened, Turtle finds herself coming out of her shell. And as she does, her world opens up in the most unexpected ways. Inspired by family stories, three-time Newbery Honor winner Jennifer L. Holm blends family lore with America's past in this charming gem of a novel, now adapted into graphic novel form by rising star Savanna Ganucheau.

Emma's Promise

In this lyrical picture book with subtle conservation themes, a girl helps rescue a whale who has washed ashore. Here is a beautifully written, moving story that will appeal to all animal lovers, and to those interested in protecting our oceans and marine life. Emma lives in a crooked house in an old whaling town, and often takes her dog, Nemo, to the beach. On their walks, they find amazing treasures, like shells and stones and sea glass—and even a loggerhead turtle. But one day, they find something completely unexpected: a baby whale, washed ashore. Emma empathizes with the animal's suffering, imagining what the whale is thinking and feeling. When the tide starts to come in, Emma pushes as the water swirls and rises, and eventually the whale swims free, back to her mother.

In a world of humans, what's a cyborg turtle to do? It's a fair question in the bizarre, compelling story of Mr. Turtle. Yusaku Kitano's science fiction masterpiece, originally published under the eponymous title Kame-kun, renews the visionary integrity that won it the Nihon SF Taisho (Japan's equivalent of the Nebula) Award in 2001 as it finds its way into English at last. Kitano's protagonist is a hero in a half shell of an altogether different sort, a killing machine designed for combat who wants only to enjoy the simple pleasures of his daily life—working a blue collar job, going to the library, and typing on his laptop—even as he is haunted by vague memories of a war on Jupiter. In order to determine his future, he must piece together his past, navigating an unsympathetic society toward revealing the novel's philosophical heartbeat. A character study of surreal wit, Mr. Turtle delivers action and insight, all the while crafting an homage to its chosen genre unlike any other. Inspired by the stories Emma reads to him, Turtle digs out of his pen and sets off to see faraway places. The backyard grass is longer than his legs so he thinks he must be in the jungle. He spies a tree stump and believes it's an elephant's leg. Just when he begins to worry that he's lost, Emma rescues him—and he discovers that he never left home. Undeterred, Turtle is grateful to "have the whole world here in my backyard," and plans to escape again tomorrow, this time to China.

"A book about loggerhead sea turtles, and a girl's attempts to help save their babies from man-made light."--
