

Endurance Shackleton S Incredible Voyage

Ernest Shackleton is one of history's great explorers, an extraordinary character who pioneered the path to the South Pole over 100 years ago and became a dominant figure in Antarctic discovery. A charismatic personality, his incredible adventures on four expeditions have captivated generations and inspired a dynamic, modern following in business leadership. None more so than the Endurance mission, where Shackleton's commanding presence saved the lives of his crew when their ship was crushed by ice and they were turned out on to the savage frozen landscape. But Shackleton was a flawed character whose chaotic private life, marked by romantic affairs, unfulfilled ambitions, overwhelming debts and failed business ventures, contrasted with his celebrity status as a leading explorer. Drawing on extensive research of original diaries and personal correspondence, Michael Smith's definitive biography brings a fresh perspective to our understanding of this complex man and the heroic age of polar exploration.

This is the classic account of Sir Ernest Shackleton's 1914-1916 Antarctic expedition. Written by the captain of the Endurance, the ship used by Shackleton on this ill-fated journey, it is a remarkable tale of courage and bravery in the face of extreme odds and a vivid portrait of one of the world's greatest explorers. "A breathtaking story of courage under the most appalling conditions." - Edmund Hillary

The acclaimed and captivating true story of two restless society girls who left their affluent lives to "rough it" as teachers in the wilds of Colorado in 1916. In the summer of 1916, Dorothy Woodruff and Rosamond Underwood, bored by society luncheons, charity work, and the effete men who courted them, left their families in Auburn, New York, to teach school in the wilds of northwestern Colorado. They lived with a family of homesteaders in the Elkhead Mountains and rode to school on horseback, often in blinding blizzards. Their students walked or skied, in tattered clothes and shoes tied together with string. The young cattle rancher who had lured them west, Ferry Carpenter, had promised them the adventure of a lifetime. He hadn't let on that they would be considered dazzling prospective brides for the locals. Nearly a hundred years later, Dorothy Wickenden, the granddaughter of Dorothy Woodruff, found the teachers' buoyant letters home, which captured the voices of the pioneer women, the children, and other unforgettable people the women got to know. In reconstructing their journey, Wickenden has created an exhilarating saga about two intrepid women and the "settling up" of the West.

The astonishing saga of polar explorer Ernest Shackleton's survival for over a year on the ice-bound Antarctic seas, as Time magazine put it, "defined heroism." Alfred Lansing's scrupulously researched and brilliantly narrated book -- with over 200,000 copies sold -- has long been acknowledged as the definitive account of the Endurance's fateful trip. To write their authoritative story, Lansing consulted with ten of the survivors and gained access to diaries and personal accounts by eight others. The resulting book has all the immediacy of a first-hand account, expanded with maps and illustrations especially for this edition.

Endurance.

Merry Christmas, Gus

Who Was Ernest Shackleton?

Shackleton's Legendary Antarctic Expedition

Shackleton's Incredible Voyage

Raucous stories and outlaw wisdom from the Academy Award-winning actor **Endurance is the story of one of the most astonishing feats of exploration and human courage ever recorded.**

Adrift on the Antarctic pack ice with no means of escape and no hope of rescue, Ernest Shackleton and his men are surely doomed. In August 1914, Ernest Shackleton and his men set sail for Antarctica, where they plan to cross the last uncharted continent on foot. In January 1915, his ship, the Endurance, becomes locked in pack ice. Later, it sinks without a trace. To survive, Shackleton and his crew of twenty-seven men must undertake a trial even more extreme than their planned crossing of the frozen continent. Their aim is to make it home against tremendous odds, with only lifeboats to cross the heavy seas of the South Atlantic - and the life-saving power of Shackleton's extraordinary leadership skills. 'An incredible true story brought to life in a highly readable style.' - Michael Smith, author of Shackleton: By Endurance We Conquer Praise for AMUNDSEN'S WAY & INTO THE WHITE 'Joanna Grochowicz's narrative non-fiction brings to life characters and events without skimping on historical fact. While the extensive research underpinning the book is apparent, it is the narrative voice that carries us forward.' - New Zealand Review of Books 'Amundsen's Way is a thoroughly enjoyable and readable story about some very brave people coping with horrific challenges. It is ideal for making young readers aware of the pleasures of long-form non-fiction books.' - Magpies 'For thrill-seeking middle school students who love nonfiction adventure stories...the adventures of Scott and his crew don't disappoint.' - School Library Journal

The harrowing tale of British explorer Ernest Shackleton's 1914 attempt to reach the South Pole, one of the greatest adventure stories of the modern age. In August 1914, polar explorer Ernest Shackleton boarded the Endurance and set sail for Antarctica, where he planned to cross the last uncharted continent on foot. In January 1915, after battling its way through a thousand miles of pack ice and only a day's sail short of its destination, the Endurance became locked in an island of ice. Thus began the legendary ordeal of Shackleton and his crew of twenty-seven men. When their ship was finally crushed between two ice floes, they attempted a near-impossible journey over 850 miles of the South Atlantic's heaviest seas to the closest outpost of civilization. In Endurance, the definitive account of Ernest Shackleton's fateful trip, Alfred Lansing brilliantly narrates the harrowing and miraculous voyage that has defined heroism for the modern age.

'A riveting, exciting and thoroughly compelling tale of adventure'
JOHN GRISHAM on David Grann's The Lost City of Z 'A wonderful

story of a lost age of heroic exploration' Sunday Times on The Lost City of Z 'Marvellous ... An engrossing book whose protagonist could out-think Indiana Jones' Daily Telegraph on The Lost City of Z DAILY MAIL BOOK OF THE WEEK One man's perilous quest to cross Antarctica in the footsteps of Shackleton. Henry Worsley was a devoted husband and father and a decorated British special forces officer who believed in honour and sacrifice. He was also a man obsessed. He spent his life idolizing Ernest Shackleton, the 20th-century polar explorer, who tried to become the first person to reach the South Pole and later sought to cross Antarctica on foot. Shackleton never completed his journeys, but he repeatedly rescued his men from certain death and emerged as one of the greatest leaders in history. Worsley felt an overpowering connection to those expeditions. He was related to one of Shackleton's men, Frank Worsley, and spent a fortune collecting artefacts from their epic treks across the continent. He modelled his military command on Shackleton's legendary skills and was determined to measure his own powers of endurance against them. He would succeed where Shackleton had failed, in the most brutal landscape in the world. In 2008, Worsley set out across Antarctica with two other descendants of Shackleton's crew, battling the freezing, desolate landscape, life-threatening physical exhaustion and hidden crevasses. Yet when he returned home he felt compelled to go back. On November 2015, at age 55, Worsley bid farewell to his family and embarked on his most perilous quest: to walk across Antarctica alone. David Grann tells Worsley's remarkable story with the intensity and power that have led him to be called 'simply the best narrative nonfiction writer working today'. Illustrated with more than 50 stunning photographs from Worsley's and Shackleton's journeys, The White Darkness is both a gorgeous keepsake volume and a spellbinding story of courage, love and a man pushing himself to the extremes of human capacity. Praise for David Grann's Killers of the Flower Moon: 'A riveting true story of greed, serial murder and racial injustice' JON KRAKAUER 'A fiercely entertaining mystery story and a wrenching exploration of evil' KATE ATKINSON 'A fascinating account of a tragic and forgotten chapter in the history of the American West' JOHN GRISHAM 'Disturbing and riveting...Grann has proved himself a master of spinning delicious, many-layered mysteries that also happen to be true...It will sear your soul' DAVE EGGERS, New York Times Book Review 'An extraordinary story with extraordinary pace and atmosphere' Sunday Times 'A marvel of detective-like research and narrative verve' Financial Times

The full story of the doomed expedition of the Endurance and the rescue of its crew in a seemingly hopeless situation in the deadly cold of Antarctica offers a tribute to Ernest Shackleton's inspiring and courageous leadership.

"We had seen God in His splendours, heard the text that Nature renders. We had reached the naked soul of man." In 1914, Ernest Shackleton set out on an 1,800-mile trek across Antarctica. During the three-year expedition, his team overcame shipwreck, treacherous glaciers, and a bitterly hostile climate. They faced the elements on this icy continent with extraordinary determination, resourcefulness, and courage. This account by one of Britain's greatest explorers is at once thrilling, harrowing, and inspiring.

The carpenter has a very fine cat who is known as "Mrs. Chippie"... -- from the diary of Commander F. A. Worsley, captain of Shackleton's Endurance When Sir Ernest Shackleton's ship Endurance became trapped in the Antarctic ice, all twenty-nine members of the crew were pushed to their limits of survival, including Mrs. Chippy, the ship's estimable cat. Fortunately for posterity, Mrs. Chippy left a diary of the ordeal. Closely based on the true events of Shackleton's heroic journey, and illustrated with authentic photographs taken by Frank Hurley, expedition photographer, Mrs. Chippy's Last Expedition is a firsthand account of one of the greatest adventures in history--from a unique point of view.

After years of preparation, the world's most experienced Antarctic explorer embarked on the most dramatic adventure of his life. Sir Ernest Shackleton had carefully picked crew and a stout, well-outfitted ship, the Endurance. But he had no radio, the world was at the edge of the Antarctic continent, the ship froze in the sea ice. After months of immobility, it was crushed. Then began an impossible journey. With three tiny boats, the crew worked their way across frozen the Antarctic Sea. This vivid book recounts the details of Shackleton's heroic voyage from South Georgia Island to Antarctica then back to South Georgia. It is a tribute to Shackleton and his crew's ability to fight for survival and overcome the most harrowing adventures in history.

A Practical Guide

The definitive collection of photographs from the Shackleton expedition includes never-before-published images from the remarkable 1914 expedition to Antarctica.

Ernest Shackleton was the quintessential Edwardian hero. A contemporary - and adversary - of Scott, he sailed on the 'Discovery' expedition of 1900, and went on to mount three expeditions of his own. Like Scott, he was a social adventurer; snow and ice held no particular attraction, but the pursuit of wealth, fame and power did. Yet Shackleton, an Anglo-Irishman who left school at 16, needed status to raise money for his own expeditions. At various times he was involved in journalism, politics, manufacturing and City fortune-hunting - none of them very effectively. A frustrated poet, he was never to be successful with money, but he did succeed in marrying it. At

his height he was feted as a national hero, knighted by Edward VII, and granted £20,000 by the government for achievements which were, and remain, the very stuff of legend. But the world to which he returned in 1917 after the sensational 'Endurance' expedition did not seem to welcome surviving heroes. Poverty-stricken by the end of the war, he had to pay off his debts through writing and endless lecturing. He finally obtained funds for another expedition, but dies of a heart attack, aged only 47, at it reached South Georgia.

'A great, shivery, seductive read.' Elle

After twenty-five years of 'sex, drugs, bad behaviour and haute cuisine', chef and novelist Anthony Bourdain has decided to tell all. From his first oyster in the Gironde to his lowly position as a dishwasher in a honky-tonk fish restaurant in Provincetown; from the kitchen of the Rainbow Room atop the Rockefeller Center to drug dealers in the East Village, from Tokyo to Paris and back to New York again, Bourdain's tales of the kitchen are as passionate as they are unpredictable, as shocking as they are funny.

The Wreck of the Endurance

Penguins of the World

Climb aboard the doomed ship Endurance to join famed explorer Ernest Shackleton and his crew who must battle the frigid Antarctic elements to survive being stranded at the edge of the world.

Describes the ordeal of Ernest Shackleton and the men of his Antarctic expedition after their ship became trapped in the ice and they were forced to undertake a perilous journey to reach inhabited land.

New York Times bestselling author Hampton Sides returns with a white-knuckle tale of polar exploration and survival in the Gilded Age In the late nineteenth century, people were obsessed by one of the last unmapped areas of the globe: the North Pole. No one knew what existed beyond the fortress of ice rimming the northern oceans, although theories abounded. The foremost cartographer in the world, a German named August Petermann, believed that warm currents sustained a verdant island at the top of the world. National glory would fall to whoever could plant his flag upon its shores. James Gordon Bennett, the eccentric and stupendously wealthy owner of The New York Herald, had recently captured the world's attention by dispatching Stanley to Africa to find Dr. Livingstone. Now he was keen to re-create that sensation on an even more epic scale. So he funded an official U.S. naval expedition to reach the Pole, choosing as its captain a young officer named George

Washington De Long, who had gained fame for a rescue operation off the coast of Greenland. De Long led a team of 32 men deep into uncharted Arctic waters, carrying the aspirations of a young country burning to become a world power. On July 8, 1879, the USS Jeannette set sail from San Francisco to cheering crowds in the grip of "Arctic Fever." The ship sailed into uncharted seas, but soon was trapped in pack ice. Two years into the harrowing voyage, the hull was breached. Amid the rush of water and the shrieks of breaking wooden boards, the crew abandoned the ship. Less than an hour later, the Jeannette sank to the bottom, and the men found themselves marooned a thousand miles north of Siberia with only the barest supplies. Thus began their long march across the endless ice—a frozen hell in the most lonesome corner of the world. Facing everything from snow blindness and polar bears to ferocious storms and frosty labyrinths, the expedition battled madness and starvation as they desperately strove for survival. With twists and turns worthy of a thriller, *In The Kingdom of Ice* is a spellbinding tale of heroism and determination in the most unforgiving territory on Earth. Ebook edition includes over a dozen extra images

As a boy he preferred reading sea stories to doing homework and, at age 16, became an apprentice seaman. Subsequently, Ernest Shackleton's incredible journeys to the South Pole in the early 1900s made him one of the most famous explorers of modern times. His courage in the face of dangerous conditions and unforeseeable tragedies reveal the great leader that he was. His historic 1914 journey aboard the *Endurance* has all the drama of an action movie.

A hilarious Christmas picture book, starring the wonderfully grumpy Gus! Gus the dog doesn't like Christmas. He doesn't like carols, or cake, or Christmas jumpers. And he certainly doesn't like mistletoe. To Gus, a tree is only good for one thing, and it's not for hanging baubles on. But can everyone's favourite grump learn to love the season of goodwill? Brilliantly funny, Merry Christmas, Gus will appeal to everyone who loves Christmas . . . and to all those Scrooges who don't! From Chris Chatterton, the artist behind the bestselling Ten Minutes to Bed series.

Drawing upon previously unavailable sources, Caroline Alexander gives us a riveting

account of Shackleton's expedition one of history's greatest epics of survival. And she presents the astonishing work of Frank Hurley, the Australian photographer whose visual record of the adventure was never before published comprehensively. Together, text and image re-create the terrible beauty of Antarctica, the awful destruction of the ship, and the crew's heroic daily struggle to stay alive, a miracle achieved largely through Shackleton's inspiring leadership. The survival of Hurley's remarkable images is scarcely less miraculous: The original glass plate negatives, from which most of the book's illustrations are superbly reproduced, were stored in hermetically sealed canisters that survived months on the ice floes, a week in an open boat on the polar seas, and several more months buried in the snows of a rocky outcrop called Elephant Island. Finally, Hurley was forced to abandon his professional equipment; thereafter he captured some of the most unforgettable images of the struggle with a pocket camera and three rolls of Kodak film.

The James Caird is an unlikely hero, a 23-foot lifeboat that completed the most desperate and celebrated open boat voyage in history. On board were Ernest Shackleton, Tom Crean and Frank Worsley, now some of the most recognised names in Antarctic and Polar literature/history. This is the story of that little boat from its commissioning by Worsley to its dramatic escape from Antarctica to its final resting place at Dulwich College in the UK. Shackleton's Boat is a worthy memorial to a vessel famous in maritime history, and a story whose heroism has inspired generations. * Similar to: 'Tom Crean – An Unsung Hero', 'Captain Francis Crozier – Last Man Standing?' and 'Seek the Frozen Lands'

Sir Ernest Shackleton has been called 'the greatest leader that ever came on God's earth, bar none' for saving the lives of the twenty-seven men stranded with him on an Antarctic ice floe for almost two years. Written by two veteran business observers, Shackleton's Way details universal leadership tactics set against the thrilling survival story of the Endurance expedition. Whether it's hiring good workers, supporting and inspiring employees to do their best, managing a crisis with limited personnel and resources, creating order out of chaos, or leading by personal example with optimism, egalitarianism, humour, strength, ingenuity, intelligence and compassion, Ernest Shackleton set an example we can all follow. Illustrated with photographer Frank Hurley's masterpieces and other rarely seen photos, Shackleton's Way is filled with fascinating and practical lessons of a leader who succeeded by putting people first and triumphing brilliantly when all the odds were against him.

Sir Ranulph Fiennes is uniquely qualified to write a new biography of Captain Scott. This is the first biography of Scott by someone who has experienced the deprivations, the stress and

the sheer physical pain that Scott lived through; he has suffered all but the final tragedy endured by the much maligned Scott. He is determined to put the record straight. As well as being the definitive biography of Scott, written with the full and exclusive cooperation of the Scott Estate, this book traces the way that Scott's reputation has been attacked and his achievements distorted. 'Sir Ranulph Fiennes has done Captain Scott's memory some service...he has certainly written a more dispassionate and balanced account than Huntford ever set out to do.' - Simon Courtauld, Spectator

A well-researched story brilliantly recounts how twenty-eight men battled against almost insuperable odds in 1914 to return to civilization after their ship Endurance sank near the South Pole, now available in a deluxe gift edition featuring eighty-four spectacular photographs. Reprint.

"Every man is born with just one thing: his sovereignty--his power to respond to his environment and his circumstances. Unfortunately, most men have spent much of their lives giving away that sovereignty. Every time a man passes blame or shirks his responsibility, every time he makes excuses for his performance, and every time he trades his unlimited potential for a little perceived safety and security, he willingly submits himself to the mercy of others. Is it any wonder that men, in general, seem to have lost their way? You don't have to look very far to recognize that men don't seem to possess the same amount of vigor and purpose they once did ... It's a call for men to become fully the men they are meant to be so they may more adequately take care of themselves and those they are responsible for. Men have always been expected to protect, provide, and preside over themselves, their families, their businesses, and their communities. By embodying the thirteen Sovereign Virtues we detail inside, every man will be more capable of fulfilling his masculine duties and responsibilities"--

Drawing on the amazing story of a polar exploration team's survival against all odds, author Dennis N. T. Perkins demonstrates the importance of a strong leader in times of adversity, uncertainty, and change. Part adventure tale and part leadership guide, Leading at the Edge uncovers what the legendary Antarctic adventure of Sir Ernest Shackleton and his team of twenty-seven polar explorers can teach us about bringing order to chaos through true leadership. Among other skills, you'll learn how to instill optimism while staying grounded in reality, step up to risks worth taking, consistently reinforce your team message, set a personal example, find things to celebrate, laugh small things off, and--even in the face of

extreme temperatures, hazardous ice, dwindling food, and complete isolation--never give up. The book's second edition features additional lessons, new case studies of the strategies in action, tools to uncover and resolve conflicts, and expanded resources. An updated epilogue compares the leadership styles of the famous polar explorers Shackleton, Amundsen, and Scott, which transcend the one-hundred-plus years since their historic race to the South Pole to help today's leaders learn valuable lessons about the meaning of true success.

"Gripping and superb. This book will steal the night from you."

—Laurence Gonzales, author of *Deep Survival* On January 17, 1913, alone and near starvation, Douglas Mawson, leader of the Australasian Antarctic Expedition, was hauling a sledge to get back to base camp. The dogs were gone. Now Mawson himself plunged through a snow bridge, dangling over an abyss by the sledge harness. A line of poetry gave him the will to haul himself back to the surface. Mawson was sometimes reduced to crawling, and one night he discovered that the soles of his feet had completely detached from the flesh beneath. On February 8, when he staggered back to base, his features unrecognizably skeletal, the first teammate to reach him blurted out, "Which one are you?" This thrilling and almost unbelievable account establishes Mawson in his rightful place as one of the greatest polar explorers and expedition leaders. It is illustrated by a trove of Frank Hurley's famous Antarctic photographs, many never before published in the United States.

Experience one of the greatest adventure stories of the modern age: The harrowing tale of British explorer Ernest Shackleton's 1914 attempt to reach the South Pole. In August 1914, polar explorer Ernest Shackleton boarded the *Endurance* and set sail for Antarctica, where he planned to cross the last uncharted continent on foot. In January 1915, after battling its way through a thousand miles of pack ice and only a day's sail short of its destination, the *Endurance* became locked in an island of ice. Thus began the legendary ordeal of Shackleton and his crew of twenty-seven men. When their ship was finally crushed between two ice floes, they attempted a near-impossible journey over 850 miles of the South Atlantic's heaviest

seas to the closest outpost of civilization. With an introduction by Nathaniel Philbrick, *Endurance* is the definitive account of Ernest Shackleton's fateful trip. Alfred Lansing brilliantly narrates the gripping and miraculous voyage that has defined heroism for the modern age.

South! tells one of the most thrilling tales of exploration and survival against the odds which has ever been written. It details the experiences of the Imperial Trans-Antarctic Expedition which set off in 1914 to make an attempt to cross the Antarctic continent. Under the direction of Sir Ernest Shackleton, the expedition comprised two components: one party sailing on the *Endurance* into the Weddell Sea, which was to attempt the actual crossing; and another party on board the *Aurora*, under the direction of Aeneas Mackintosh, sailing into the Ross Sea on the other side of the continent and tasked with establishing depots of stores as far south as possible for the use of the party attempting the crossing. Shackleton gives a highly readable account of the fate of both parties of the Expedition. Both fell victim to the severe environmental conditions of the region, and it was never possible to attempt the crossing. The *Endurance* was trapped in pack-ice in the Weddell Sea and the ship was eventually crushed by the pressure of the ice, leaving Shackleton's men stranded on ice floes, far from solid land. Shackleton's account of their extraordinary struggles to survive is as gripping as any novel. This book is part of the Standard Ebooks project, which produces free public domain ebooks.

His Antarctic Writings Selected and Introduced by Christopher Ralling

The White Darkness

Describes the events of the 1914 Shackleton Antarctic expedition when, after being trapped in a frozen sea for nine months, their ship, *Endurance*, was finally crushed, forcing Shackleton and his men to make a very long and perilous journey across ice and stormy seas to reach inhabited land.

NATIONAL BEST SELLER A stunning, personal memoir from the astronaut and modern-day hero who spent a record-breaking year aboard the International Space Station—a message of hope for the future that will inspire for generations to come. The veteran of four spaceflights and the American record holder for consecutive days spent in space, Scott Kelly has experienced things very few have. Now, he takes us inside a sphere utterly hostile to human life. He describes navigating the extreme challenge of long-term spaceflight, both life-threatening and mundane: the devastating effects on the body; the isolation from everyone he loves and the comforts of Earth; the catastrophic risks of colliding with space junk; and the still more haunting threat of being unable to help should tragedy strike at home—an agonizing situation Kelly faced when, on a previous mission, his twin brother's wife, American Congresswoman Gabrielle Giffords, was shot while he still had two months in space. Kelly's humanity, compassion, humor, and determination resonate throughout, as he recalls his rough-

and-tumble New Jersey childhood and the youthful inspiration that sparked his astounding career, and as he makes clear his belief that Mars will be the next, ultimately challenging, step in spaceflight. In *Endurance*, we see the triumph of the human imagination, the strength of the human will, and the infinite wonder of the galaxy.

1892, New Mexico. A wolfpack roams the Currumpaw River Valley, preying on the vast cattle and sheep herds of the area. Their leader, Lobo possesses such cunning that local ranchers are unable to trap the pack. Due to his knowledge of wolf behaviour, Ernest Thompson Seton, a naturalist, is employed by ranchers to ride them of Lobo's pack.

Discusses the various species of penguins, covering their biology, habitats, breeding, feeding, and growth.

The Lost Men

Alone on the Ice: The Greatest Survival Story in the History of Exploration

Chronicles Shackleton in Antarctica, where he and his crew were stranded for twenty months

The untold story of the last odyssey of the heroic age of Antarctic exploration Sir Ernest Shackleton's 1914 Antarctic endeavor is legend, but for sheer heroism and tragic nobility, nothing compares to the saga of the Ross Sea party. This crew of explorers landed on the opposite side of Antarctica from the *Endurance* with a mission to build supply depots for Shackleton's planned crossing of the continent. But their ship disappeared in a gale, leaving ten inexperienced, ill-equipped men to trek 1,356 miles in the harshest environment on earth. Drawing on the men's own journals and photographs, *The Lost Men* is a masterpiece of historical adventure, a book destined to be a classic in the vein of *Into Thin Air*.

From the Academy Award®-winning actor, an unconventional memoir filled with raucous stories, outlaw wisdom, and lessons learned the hard way about living with greater satisfaction. I've been in this life for fifty years, been trying to work out its riddle for forty-two, and been keeping diaries of clues to that riddle for the last thirty-five. Notes about successes and failures, joys and sorrows, things that made me marvel, and things that made me laugh out loud. How to be fair. How to have less stress. How to have fun. How to hurt people less. How to get hurt less. How to be a good man. How to have meaning in life. How to be more me. Recently, I worked up the courage to sit down with those diaries. I found stories I experienced, lessons I learned and forgot, poems, prayers, prescriptions, beliefs about what matters, some great photographs, and a whole bunch of bumper stickers. I found a reliable theme, an approach to living that gave me more satisfaction, at the time, and still: If you know how, and when, to deal with life's challenges - how to get relative with the inevitable - you can enjoy a state of success I call 'catching greenlights.' So I took a one-way ticket to the desert and wrote this book: an album, a record, a story of my life so far. This is fifty years of my sights and seens, felts and figured-outs, cools and shamefuls. Graces, truths, and beauties of brutality. Getting away withs, getting caughts, and getting wets while trying to dance between the raindrops. Hopefully, it's medicine that tastes good, a couple of aspirin instead of the infirmary, a spaceship to Mars without needing your pilot's license, going to church without having to be born again, and laughing through the tears. It's a love letter. To life. It's also a guide to catching more greenlights-and to realising that the yellows and reds eventually turn green too. Good luck.
