Summarization. Just when we thought we knew everything about it, the doors to divergent thinking open and summarization—no longer something that students must endure until you get to the "cool" stuff—takes on an exciting new role in student success! In this second edition of Summarization in Any Subject, Dedra Stafford joins Rick Wormeli in adding fresh depth and creative variations to the basics, including changes to all 50 techniques from the first edition and brand new summarizing techniques that can be differentiated for multiple disciplines and levels of student readiness. Personably written, with a sense of humor and a commitment to students' substantive engagement with curriculum, this new edition provides practical, "show me what it looks like" tools and descriptions as well as QR codes and tech integrations for many of the techniques. The book provides A clear rationale for summarization in any subject along with an explanation of the cognitive science that powers its positive effects, including the influence of background knowledge and primacy-recency, plus the benefits of metaphors, chunking, timing, maintaining objectivity, and the efficacy that comes when students process content. Practical tips for teaching students note taking, paraphrasing, and text structure. Nine easy strategies that teachers can use to help students begin to understand what they need to know in order to summarize. Detailed descriptions of 60 strategies and critical thinking variations that provide students with memorable learning experiences, plus targeted support materials that assist in teaching and learning. It's time to revitalize learning and shatter the tedium associated with summarization, and this new edition of Summarization in Any Subject can help you do just that.

Organization. Time management. Study skills. These are the three critical skills students need to perform well in school. Most students lack at least one of these skills; many lack all three. Yet without a sound understanding of this all-important learning trifecta, students are likely to fail--over and over again. In this practical hands-on guide, Thinking Caps founder Alexandra Mayzler outlines the unique approach that has made her one-of-a-kind tutoring program such a success with students, parents, and educators alike. This interactive program steps your child through these crucial three areas, providing the worksheets, exercises, and anecdotes she needs to master them in record time. The book also features stories throughout, based on case studies of real-life clients. Special emphasis is placed on helping students understand how their own personalities, behaviors, and habits affect their work. Your child will learn to identify short- and long-term goals, and come to see how good study habits can help him achieve those goals. With this book, your child can get through school with flying colors!

The aptitude to write well is increasingly becoming a vital element that students need to succeed in college and their future careers. Students must be equipped with competent writing skills as colleges and jobs base the acceptance of students and workers on the quality of their writing. This situation captures the complexity of the fact that writing represents higher intellectual skills and leads to a higher rate of selection. Therefore, it is imperative that best strategies for teaching writing speakers of other languages is imparted to provide insights to teachers who can better prepare their students for future accomplishments. Futuristic and Linguistic Perspectives on Teaching Writing to Second Language Students examines the theoretical and practical implications that should be put in place for second language writers and offers critical futuristic and linguistic perspectives on teaching writing to speakers of other languages. Highlighting such topics as EFL, ESL, composition, digital storytelling, and forming identity, this book is ideal for second language teachers and writing instructors, as well as academicians, professionals, researchers, and students working in the field of language and linguistics.

Value Bar Prep on amazon and kindle Audio, books and tutoring from 1L through 4L Every bar subject has a template of issues that a grader expects to see. The contents of this template don't depend on the question, the facts raised, the interrogatory or anything else. They depend only on having a high-level understanding of the law itself. This volume will expose the template for the national bar subjects. When the grader does not see a correct representation of the relevant template is difficult to pass. But now every bar candidate has a chance to write close to a model essay in the short time allowed without missing issues great or small. Think Outside the Gate is a book dedicated to all those who work or live in any type of incarceration environment. It contains a compilation of lesson plans and presentation outlines which can be used as an example of how one can turn any type of lesson into a think outside the gate experience. The think outside the gate

mind-set is a philosophy that Melisa Mel created as the focal point of her lessons and presentations. This approach makes it a priority to keep the students focus on everything and anything outside of their limited, incarcerating walls. This not only instills hope in them, but it also better prepares them for when they cross the prison gates to go live back in society. Melisa Mel feels that better preparing for reentry into society is the most efficient way to ensure a persons success outside of prison so that they do not return to prison. Her hope is that while working or living behind bars, a think outside the gate mind-set is present at all times, as that will tackle recidivism at its very core.

Language is complex. Written or spoken, the complexity of language makes the medium the versatile tool we need but also creates the potential for a wide variety of misunderstandings and mistakes. When attempting to understand a piece of fiction or writing a text to make our thoughts comprehensible to others, the complexity of language is both necessary and fraught. That said, the inevitable need to sacrifice precision or accuracy. This guide is a step by step process that offers hands-on methods for accurate analysis and precise essay construction. Chapter one deals with a variety of approaches to analyzing stories and novels such that your analysis is structured on carefully constructed, logical progression founded on the primary text rather than on hunches and guesswork, and chapter two provides the infrastructures and scaffolding on which any essay can be structured. The structures included in chapter two are not a template and thus do not limit style or content; rather, they are based on what must be completed for an argument to be convincing. As such, the tasks offer a kind of map through the process of essay writing that always indicates your next step. Contrary to accepted myth, analyzing fiction and writing essays, neither is a guessing game, and this text can help you remove the guesswork from your own process.

TECHNIQUES FOR COLLEGE WRITING: THE THESIS STATEMENT AND BEYOND is a brief rhetoric that empowers students as writers by giving them the tools they need to create a precise and well-focused thesis. Using the thesis statement as the lens through which students can approach the entire thinking and writing process, TECHNIQUES is divided into three parts that build upon one another: Part I--Thinking Through the Thesis Statement, Part II--Thinking Through Your Writing Assignment, and Part III--Writing Beyond the Composition Classroom. A wide range of journal articles, book excerpts, student essays, paintings, magazine ads, poetry, and short stories make the text accessible to students, and Thinking Through a Reading questions promote active reading and in-class discussion. In-chapter practice exercises, writing applications, revision tools, and writing assignments help students gain confidence so that they can begin to incorporate the techniques they've learned in the book into their own personal writing styles Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

"As a mother of three, this book's practical road map for helping our kids learn independently is invaluable. This should be a must-read for all parents." --Jenna Bush Hager Drawing on extensive experience as classroom teachers and the directors of their highly regarded tutoring business, Abby and Brian address a range of common frustrations caused by homework. They answer the most pressing questions on every parent's mind: How much should I get involved, what does constructive help look like, and how can I help my child work independently? Taking the Stress out of Homework breaks down for parents exactly when and how to offer homework support. Whether your child's stress point is executive functioning--the ability to plan or organize--or a subject-specific struggle in math, reading, writing, or standardized test-preparation, Abby and Brian use real-life stories to provide individualized, actionable advice. At the center of Abby and Brian's philosophy is encouraging students to break free of the "let's get to the answer already so that we can be done with the assignment" mindset; they focus instead on a process-oriented approach that fosters engagement and self-sufficiency both in and out of school.

Filled with expert tips about how to build executive functioning and content skills, Abby and Brian share stress-reducing best practices so homework not only supports what kids are learning, but also helps build confidence and skills that last a lifetime.

The United States is abundantly rich in adults with "know how." By connecting mentors -- educated adults with expertise and knowledge -- with mentees -- teens and young adults who lack motivation, experience, and role models in their lives -- we can begin to close this gap dramatically. We can prepare the next generation for the jobs of tomorrow by adding real-world, project based experience to their education. Teach to Work is a call to action for mentors currently sitting on the sidelines. Whether you are a banker, lawyer, architect, accountant, engineer, IT specialist, or artist, you have the experience and skillset to become an ambassador of talent, grit, and transferable skills. The book provides a step-by-step guide to help professionals share their knowledge with the next generation of workers through this intergenerational experience. Based on Alper's fifteen years of mentoring inner-city high-school students, Teach to Work proves how corporations, professionals, and boomers can have a significant impact on the professional future of America's youth. Drawing from real-life stories and letters received from students, teachers, and fellow mentors describing pride of accomplishment, Alper helps professionals embark on this journey to transform lives, mentoring one student at a time.

Textbooks are symbols of centuries-old education. They're often outdated as soon as they hit students' desks. Acting "by the textbook" implies compliance and a lack of creativity. It's time to ditch those textbooks--and those textbook assumptions about learning. In *Ditch That Textbook*, teacher and blogger Matt Miller encourages educators to throw out meaningless, pedestrian teaching and learning practices. He empowers them to evolve and improve on old, standard, teaching methods. *Ditch That Textbook* is a support system, toolbox, and manifesto to help educators free their teaching and revolutionize their classrooms. Response to Intervention (RTI) is an intervention model designed to assist all students regardless of their academic ability. It seeks to assist students who are struggling in academics by providing them with targeted assistance in the form of tutoring, pull-out services, and differentiated classroom instruction. *Examining Response to Intervention (RTI) Models in Secondary Education* highlights the application of the RTI model to secondary schools through instructional strategies and real-world examples of how this model can be used at the middle and high school levels. Through a series of informative and timely chapters written by global educational specialists, this publication is ideally designed for use by middle and high school teachers and school administrators as well as professors and students in upper-level Educational Leadership and Secondary Education programs.

Khetam Dahi captures the often-ignored voices and painful experiences of Syrian migrant children and families. In a simple yet honest and powerful prose, Dahi, through the eyes of a child turning adolescent, narrates the everyday existence of immigrant and working-class families. Although the family faced extreme hardships and poverty, their love for each other and determination to succeed served as a catalyst to infuse them with optimism and a love for life. Her inspirational journey of breaking through despite all obstacles certainly lets readers vicariously experience her joy and sorrow, regrets and hopes. Dahi's artfully weaved narratives provide young adult learners an opportunity to become personally enmeshed in her stories, but most importantly, it creates a space where students can feel free to relate, relive, and learn. The simple language makes this book an excellent choice for reluctant readers and ESL students, especially because the author includes many exercises to give students the opportunity to share their own experiences and identify with the characters in her stories.

For middle- and high-school teachers, it's one of today's most vexing problems: How do you motivate students with varied interests and little appetite for classic literature to stop faking their way through texts and start advancing as skilled, engaged readers? Independent reading is an important part of the answer, but it's just that -- a part of the whole. In this groundbreaking book, Berit Gordon offers the complete solution, a blended model that combines the benefits of classic literature with the motivational power of choice reading. With the blended model, teachers lead close examinations of key passages from classic texts, guiding students to an understanding of important reading strategies they can transfer to their choice books. Teachers

gain a platform for demonstrating the critical reading skills students so urgently require, and students thrive on reading what they want to read. In this research-backed book, Gordon leads you step by step to classroom success with the blended model, showing: The basics of getting your classroom library up and running How to build a blended curriculum for both fiction and non-fiction units, keeping relevant standards in mind Tips and resources to help with day-to-day planning Ideas for selecting class novel passages that provide essential cultural capital and bolster students' reading skills Strategies for bringing talk into your blended reading classroom How to reach the crucial learning goal of transfer A practical, user-friendly approach for assessing each student's progress No More Fake Reading gives you all the tools you need to put the blended model to work for your students and transform your classroom into a vibrant reading environment. Berit Gordon coaches teachers as they nurture lifelong readers and writers. Her path as an educator began in the classroom in the Dominican Republic before teaching in New York City public schools. She also taught at the Teachers College of Columbia University in English Education. She currently works as a literacy consultant in grades 3-12 and lives in Maplewood, New Jersey with her husband and three children.

Visual Leap is a how-to book for teachers, students and parents interested in making learning easier. In step-by-step fashion, it presents an effective, universal, visual method to teach students how to think independently and critically, and how to organize their ideas for any instructional purpose. The visual strategies are rooted in the science of human learning and are effective because they tap into the ways that we learn naturally. The Visual Leap method simplifies teaching the skills of the Common Core State Standards and gives teachers explicit ways to differentiate instruction to meet the needs of all learners. The strategies work across many grade levels and subject areas and for a wide variety of instructional objectives across the curriculum, such as vocabulary acquisition, reading comprehension, writing, speaking, and listening. Visual Leap offers easy ways to foster dynamic, creative, and critical thinking in the classroom, and provides teachers and students with a toolkit of problem-solving and learning strategies designed to serve them throughout their academic and professional lives.

Innovative Approaches in Teaching English Writing to Chinese Speakers

English writing is acknowledged as an essential skill for critical thinking, learning, and expression, and most EFL learners find themselves struggling when writing in English due to a lack of writing skills, content knowledge, writing strategies, intrinsic motivation, and fluency development practice. This edited volume, covering innovative approaches such as e-learning, strategy-based instruction, metacognitive training, a minimal grammar approach, writing assessment, and a genre-based approach, aims to innovate writing instruction in Chinese speaking regions, which has traditionally been characterized by rigid, teacher-centered, test-oriented approaches. We aim for this edited volume to provide theoretical underpinnings as well as contemporary practical advice related to EFL writing instruction for Chinese speakers.

Taking the Stress Out of Homework

Examining Response to Intervention (RTI) Models in Secondary Education

While the first half of the 20th century in architecture was, to a large extent, characterized by innovations in aesthetics (accompanied by succinct and polemical manifestoes), the post-war decades saw emerge a more refined and intellectual disciplinary framework that eventually metamorphosed into the highly theory-focused moment of the 'postmodern'. Colin Frederick Rowe (1920 - 1999) was a leader of this epistemic shift due to his aptitude to connect his historical and philosophical erudition to the visual analysis of architecture. This book unites ten different perspectives from architects whose lives and ideas intersected with Rowe's, including: Robert Maxwell Anthony Vidler Peter Eisenman O. Mathias Ungers Léon Krier Rem Koolhaas Alan Colquhoun Robert Slutzky Bernhard Hoesli Bernard Tschumi With an introduction by Emmanuel Petit and a postscript by Jonah Rowen In their critical assessment of a key 20th century formalist, these renowned architects reflect on how their own positions came to diverge from Rowe's. *Reckoning with Colin Rowe* is a thought-provoking discussion of key schools, places, concepts and people of architectural theory since the post-war years, illustrated with over forty beautiful black and white drawings and photographs.

The skills required to write an essay are the same skills required to write a speech, to prepare a persuasive argument, to prove a point, or to explain an idea. If we can help our students acquire these skills as we teach "the essay," we will have assisted them in accomplishing truly valuable life skills. *Essay Writing* contains easy-to-incorporate lessons along with tips for teaching specific concepts that range from pre-writing exercises to revising and editing to celebrating the final product. This down-to-earth look at the foundations of good essay writing is full of useful ideas and strategies that help students: build skills in writing on a wide range of topics; distinguish between formal and informal writing; use effective pre-writing techniques such as brainstorming, making an outline, gathering information, and evaluating the relevance of information; gain confidence as they begin to recognize what works and what doesn't. The book incorporates a wide range of innovative approaches to teaching essay writing - from how to "picture" and "act out" an essay to a winning format for a topic sentence and using scattergrams to turn brainstorming into constructive outlines. Throughout the book, assessment tools and marking keys support simple marking techniques that consider not just the final essay, but effort and time on task.

To better identify and assist struggling students and avoid unnecessary placement into special education services, the service delivery model response to intervention (RTI) is used with the general education population. Even though RTI has been studied in elementary schools for many years, further research on its use at the secondary academic level is scarce. *Advanced Strategies and Models for Integrating RTI in Secondary Schools* provides emerging research exploring the advanced theoretical and practical aspects of the use of RTI to assist teachers in providing research-based instructional strategies to students who are failing their academic subjects. Featuring coverage on a broad range of topics such as behavioral response, progress monitoring, and career readiness, this book is ideally designed for educators, researchers, and academic professionals seeking current research on the most effective models in place to promote positive student academic achievement.
