The final battle to defeat Herobrine will take Gameknight999 over land and under water! Herobrine is rallying all the monsters of Minecraft to one server in hopes of eliminating Gameknight999 and his friends once and for all. They destroy every village they find, threatening to continue until the User-that-is-not-a-user surrenders. Gameknight has just two things: the Oracle's command to seek out the lost ocean monument and an impenetrable riddle: "Look to the lowliest and most insignificant of creatures, for that is where your salvation will lie." Haunted by this seemingly useless clue, Gameknight searches for the mysterious underwater lair where the Book of Wisdom is hidden, which he is told holds the secret to the riddle and the key to defeating Herobrine. But at every turn lies a massive army of monsters. With no map to guide them, Gameknight and his friends will fight for their lives to reach the deep ocean destination, and a terrifying creature awaits them there. The Mystery of Herobrine series comes to an explosive conclusion on the shores of Minecraft, where one false move could spell the end for Gameknight999 and company! School's out! That means no more teachers, no more books, and lots of time to compliment Marigold Heavenly Nostrils on her good looks. In this third volume, Phoebe and her obligational best friend, Marigold, learn that summer still has plenty of surprises for the both of them. All of our old friends are back—Phoebe's part-time "frenemy" Dakota, upon whom Marigold has bestowed sentient hair, Phoebe's goofy parents, and even Lord Splendid Humility (but please, ignore his magnificence if you can)! Have fun as Phoebe and Marigold continue the "Phoebegold Detective Agency," spend a week at Wolfgang Music Camp, and find themselves in more misadventures, thanks to Marigold's enchanted sparkles! Along the way, Phoebe makes some new friends, such as Sue—her unique clarinet-playing bunkmate, Florence Unfortunate Nostrils, Marigold's estranged sister, and Camp Wolfgang's lake monster who enjoys tacos and Wi-Fi. When school resumes, read along as Phoebe enjoys (or suffers from) a brief case of popularity, mentally catalogs her grievances against dodge ball, and, with Marigold's help, rescues Dakota and her hair from the queen of the goblins. Through these wacky adventures, Phoebe and Marigold learn that their friendship is the second most magical thing of all, after Marigold's beauty, of course. Includes an introduction by Cory Doctorow and his daughter Poesy!

In this richly illustrated volume, a leading neurobiologist presents fascinating stories of plant migration that reveal unexpected connections between nature and culture. When we talk about migrations, we should study plants to understand that these phenomena are unstoppable. In the many different ways plants move, we can see the incessant action and drive to spread life that has led plants to colonize every possible environment on earth. The history of this relentless expansion is unknown to most people, but we can begin our exploration with these surprising tales, engagingly told by Stefano Mancuso. Generation after generation, using spores, seeds, or any other means available, plants move in the world to conquer new spaces. They release huge quantities of spores that can be transported thousands of miles. The number and variety of tools through which seeds spread is astonishing: we have seeds dispersed by wind, by rolling on the ground, by animals, by water, or by a simple fall from the plant, which can happen thanks to propulsive mechanisms, the swaying of the mother plant, the drying of the fruit, and much more. In this accessible, absorbing overview, Mancuso considers how

plants convince animals to transport them around the world, and how some plants need particular animals to spread; how they have been able to grow in places so inaccessible and inhospitable as to remain isolated; how they resisted the atomic bomb and the Chernobyl disaster; how they are able to bring life to sterile islands; how they can travel through the ages, as they sail around the world.

Springtime is finally arriving on Gardam Street, and there are surprises in store for each member of the family. Some surprises are just wonderful, like neighbor Nick Geiger coming home from war. And some are ridiculous, like Batty's new dog-walking business. Batty is saving up her dog-walking money for an extra-special surprise for her family, which she plans to present on her upcoming birthday. But when some unwelcome surprises make themselves known, the best-laid plans fall apart. Filled with all the heart, hilarity, and charm that has come to define this beloved clan, *The Penderwicks in Spring* is about fun and family and friends (and dogs), and what happens when you bring what's hidden into the bright light of the spring sun.*

An ancient jungle temple holds the secrets to stopping the evil Herobrine! Gameknight999's true enemy has finally surfaced: Herobrine, an artificially intelligent virus that wants to escape Minecraft and destroy mankind with their own creation--the Internet. If he is able to escape the game and get online, Herobrine will infect millions of computer systems and turn machines and weapons on their masters, threatening all of humanity. After facing Herobrine in battle and nearly dying, Gameknight realizes he's going to need much more help to defeat this seemingly invincible enemy. His NPC friends tell him of the ancient Oracle residing in the oldest jungle temple in Minecraft who knows the secret to defeating this terrible threat. The path to the temple is fraught with danger, with zombies, spiders, and creepers lying in wait behind every tree and bush. Gameknight will enlist the help of his friends on his quest, but will they reach the Oracle in time to stop Herobrine? Gameknight999 will be tested to his limits, and perhaps beyond, in this spine-tingling new adventure. A New York Times Best Seller! What will Gameknight999 do when his own friend is infected with the evil Herobrine virus? This adventure series is created especially for readers who love the fight of good vs. evil, magical academies like Hogwarts in the Harry Potter saga, and games like Minecraft, Terraria, and Pokemon GO. With the destruction of the infected Ender Dragon, the monster kings were forced to retreat.

Herobrine's poisonous XP has been captured in an obsidian box and sealed tightly. Gameknight999 and his friends know that the obsidian box will have to be destroyed to eliminate the evil virus once and for all. But how? And who will be brave enough to do it? Gameknight and his friends decide to take the infected ender chest far from their village, to a place where it will do no harm. But during the voyage, Herobrine takes control of Herder and has him steal the ender chest, taking it to the Nether where the blaze-king, Charybdis, awaits. But while they're battling a host of blazes, zombie-pigmen, and ghouls, the obsidian box is broken, infecting Herder with Herobrine's XP. As Herder is overcome by the virus's poisonous wickedness, Gameknight must face his friend in battle if he hopes to defeat this monster. But how can he destroy Herobrine without destroying his friend? Time flies in this fifth volume of Dana Simpson's Phoebe and Her Unicorn! Follow the lovable duo as they experience somewhat-spooky Halloween parties, ecstatic snow days, and looming summer reading assignments. Although the journey of growing up can sometimes be difficult, along the way Phoebe and Marigold discover something more enduring than goblin fads, unicorn spa vacations, and even a Spell of Forgetting—their one of a kind friendship.

A boy and his dog . . . a girl and her . . . unicorn? It all started when a girl named Phoebe skipped a rock across a pond and accidentally hit a unicorn in the face. Improbably, this led to Phoebe being granted one wish, and she used it to make the unicorn, Marigold Heavenly Nostrils, her obligational best friend. But can a vain mythical beast and a nine-year-old daydreamer really forge a connection? Indeed they can, and that's how Phoebe and Her Unicorn unfolds. This beautifully drawn comic strip follows the unlikely friendship between a somewhat awkward girl and the magic unicorn who gradually shows her just how special she really is. Through hilarious adventures where Phoebe gets to bask in Marigold's "awesomeness," the friends also come to acknowledge that they had been lonely before they met and truly appreciate the bond they now share.

Meet Ozy and Millie, two middle-grade students in Seattle who happen to be foxes. Millie is a mischievous 10-year-old with a talent for evading homework, a habit of questioning authority, and a knack for inventing bizarre jump rope rhymes. Ozy is her calm, thoughtful

counterpart, whose adoptive father, a red dragon named Llewellyn, is full of strange stories and ancient wisdom. Also featured are Felicia, a sheep at the head of the cool clique, and Avery, a hapless raccoon who desperately wants to be popular. In this collection of funny and charming comics, the sweet, philosophical humor of author Dana Simpson (Phoebe and Her Unicorn) shines through. Evocative, funny, and gently philosophical, Ozy and Millie will delight young readers with tales of friendship and school-age fun, while transporting older fans back to the openness and wonder of childhood. Ozy and Millie also includes an introduction by the author and a "More To Explore" section with a glossary and how-to-draw section for young readers.

Bart Simpson's Guide to Life

International bestselling author of *The Healing Code* and *The Love Code* Dr. Alexander Loyd offers a radical new approach to mindfulness, a powerful tool called Memory Reengineering that enables users to level up their lives in as little as 10 minutes. We have all had negative experiences in our lives, the memories of which can cause shame, embarrassment, fear, trauma, and worse. Those memories often prevent us from reaching our goals, whether they be related to weight, career, relationships, or success in other areas. But international bestselling author Alexander Loyd has developed a set of techniques that enable users to change the stories they tell about themselves to become healthier, happier, and more successful. Memory Reengineering is a toolbox of skills that disconnect painful emotions from memories, replacing them with happier and healthier feelings. In *The Memory Code*, Dr. Loyd teaches readers that the past does not have to dictate the future. You can change your behaviors by changing the way you tell your story-and once you understand the process, you can begin to feel the effects in as little as 10 minutes. Whether you want to improve at work, fix your relationships, end an addiction, or just finally move past painful memories to achieve self-growth, *The Memory Code* will give you the power to change.

Phoebe and Marigold decide to investigate a powerful storm that is wreaking havoc with the electricity in their town. The adults think it's just winter weather, but Phoebe and Marigold soon discover that all is not what it seems to be, and that the storm may have a magical cause. To solve the case, they team up with Max, who is desperate for the electricity to return so he can play video games, and frenemy Dakota, who is aided by her goblin minions. Together, they must get to the bottom of the mystery and save the town from the magic storm.

The magical friendship of Phoebe and her best friend, unicorn Marigold Heavenly Nostrils, are back in this second adventure of a girl and her mythical creature! One year has passed since Phoebe skipped a rock across a pond, accidentally hit a unicorn in the face, and was granted a single wish—which she used to make the unicorn, Marigold Heavenly Nostrils, her obligational best friend. In some ways, not much has changed. At school Phoebe still clashes with her rival, and sometimes “frenemy,” the ever-taunting and imperious Dakota. Outside of school, she still fills her free time with extra-credit homework assignments, dramatic monologues about the injustices associated with school cliques, and imaginative conspiracy theories regarding global forces like the “powerful construction paper lobby.” But unlike before, Phoebe now has a best friend to share it with—someone to make her laugh and to listen to all her extravagant ideas. In this second volume of *Heavenly Nostrils*, titled, *Unicorn on a Roll*, the reader is invited on a journey into the lives of Phoebe and Marigold as they navigate the difficulties of grade school, celebrate the winter holidays, and explore their super hero/super villain personas together. Join in the fun, as Phoebe competes against Dakota for the leading role of “Lisa Ladybug” in their fourth-grade play—or as she struggles to “manage” the PR debacle related to her nose-picking-scandal (“I will neither confirm nor deny the events surrounding Boogergate.”). Witness a band of unicorns staging an “intervention,” and learn all the details of Marigold's secret crush on a mysterious creature she has never seen. Perhaps most importantly, watch as this surprising friendship between a charming, nine-year-old dreamer and a vain, mythical beast forever changes both of them for the better.
