永遠のエロティカ

After the austerity, horror, and bloodshed of World War I, France longed

for joy, light-heartedness, and sexual freedom. Men and newly emancipated women alike rejected pre-war values and moral restraints. They embraced new lifestyles, and discovered a lust for extravagance, partying, and erotic experimentation that had the inter-war era known as the Roaring Twenties, or the "mad years," and Paris as the City of Pleasure. In this uncensored and fascinating photographic record of the period, historian Alexandre Dupouy pulls

backs the bedcovers on Paris's eye-opening erotic life, revealing the delights of its fetish scene, its licensed brothels and gay nightclubs, the first sex shop chains, erotic photography, pornography, and much more. This is an uncensored, titillating, and utterly fascinating look at the sexual excesses of the inter-war period in what was the world's most decadent city. All 26 episodes of the Kake comic serial have been collected in one volume--a

reflection of a time when gay men were men, sex was carefree, and everyone wore a big, thick, mustache.

As war raged on in Vietnam and the Cold War continued to escalate, Hollywood began to heat up, recovering from its commercial crisis with box-office successes such as Star Wars, Jaws, The Exorcist, and The Godfather. Thanks to directors like Spielberg and Lucas, American cinema gave birth to a new phenomenon: the blockbuster.

Meanwhile, across the Atlantic, while the Nouvelle Vague died out in France, its influence extended to Germany, where the New German Cinema of Fassbinder, Wenders, and Herzog had its heyday. The sexual revolution made its way to the silver screen (cautiously in the U.S., more freely in Europe) most notably in Bertolucci's steamy, scandalous Last Tango in Paris. Amid all this came a wave of nostalgic films (The Sting, American Graffiti) and

the combined impact of Renaissance, Reformation and Revolt resulted in the radically new conditions - political, economic and intellectual - of the Dutch Republic in its Golden Age. While many aspects of this rich and nuanced era have been studied before, the emphasis of this volume is on a series of interactions and interrelations: between communities and their varying but often cognate languages; between different but overlapping spheres of

The chapters are written by historians, linguists, bibliographers, art historians and literary scholars based in the Netherlands, Belgium, Great Britain and the United States. physiological potency, attract mates amorously, and—in some instances—prevent such attraction or divert it elsewhere. Over time, these means have taken many forms: love elixirs, spells, and rites have been part of virtually every civilization through the ages. This survey explores the evolution of love potion practices over the centuries and across the world. Separate chapters focus on ancient Greece, Rome, India, and the Orient, as well as the Middle Ages and modern times. Author Harry E. Jean-Pierre Vernant delineates a compelling new vision of ancient Greece that takes us far from the calm and familiar images of Polykleitos and the Parthenon, and reveals a culture of slavery, of blood sacrifice, of perpetual and ritualized warfare, of ceremonial hunting and ecstasies. In his provocative discussions of various institutions and practices including war, marriage, and the city state, Vernant unveils complex and previously unexplored intersections of the religious, social, and political structures of ancient Greece. He concludes with a genealogy of the study of myth from antiquity to the present, and offers a critique of structuralism. Tragic genius: One of the great forerunners of 20th century painting
This richly illustrated and expert study follows Vincent van Gogh from the early gloom-laden paintings in which he captured the misery of peasants and workers in his homeland, through his bright and colorful Parisian period, to the work of his final years, spent under a southern sun in Arles. Here, at last, he found the light that produced the unmistakable Van Gogh style. At Arles, Saint-Rémy and Auvers-sur-Oise, in the feverish burst of creative energy that marked his last two and a half years, he produced the 465 paintings on which his immortality rests. Vincent van Gogh (1853-1890) craved recognition during his lifetime but was denied it until after his self-inflicted death. Today he is universally seen as one of the great forerunners of 20th-century painting, and one of the tragic masters of art. About the Series:
