A 2015 Schneider Family Book Award Winner With gentle humor and unflinching realism, Gail Giles tells the gritty, ultimately hopeful story of two special ed teenagers entering the adult world. We understand stuff. We just learn it slow. And most of what we understand is that people what ain't Speddie's think we too stupid to get out our own way. And that makes me mad. Quincy and Biddy are both graduates of their high school's special ed program, but they couldn't be more different: suspicious Quincy faces the world with her fists up, while gentle Biddy is frightened to step outside her front door. When they're thrown together as roommates in their first "real world" apartment, it initially seems to be an uneasy fit. But as Biddy's past resurfaces and Quincy faces a harrowing experience that no one should have to go through alone, the two of them realize that they might have more in common than they thought — and more important, that they might be able to help each other move forward. Hard-hitting and compassionate, *Girls Like Us* is a story about growing up in a world that can be cruel, and finding the strength — and the support — to carry on.

#1 NEW YORK TIMES BESTSELLER • This is the true story behind the immortal photograph that has come to symbolize the courage and indomitable will of America In this unforgettable chronicle of perhaps the most famous moment in American military history, James Bradley has captured the glory, the triumph, the heartbreak, and the legacy of the six men who raised the flag at Iwo Jima. Here is the true story behind the immortal photograph that has come to symbolize the courage and indomitable will of

America. In February 1945, American Marines plunged into the surf at Iwo Jima—and into history. Through a hail of machine-gun and mortar fire that left the beaches strewn with comrades, they battled to the island's highest peak. And after climbing through a landscape of hell itself, they raised a flag. Now the son of one of the flagraisers has written a powerful account of six very different young men who came together in a moment that will live forever. To his family, John Bradley never spoke of the photograph or the war. But after his death at age seventy, his family discovered closed boxes of letters and photos. In *Flags of Our Fathers*, James Bradley draws on those documents to retrace the lives of his father and the men of Easy Company. Following these men's paths to Iwo Jima, James Bradley has written a classic story of the heroic battle for the Pacific's most crucial island—an island riddled with Japanese tunnels and 22,000 fanatic defenders who would fight to the last man. But perhaps the most interesting part of the story is what happened after the victory. The men in the photo—three were killed during the battle—were proclaimed heroes and flown home, to become reluctant symbols. For two of them, the adulation was shattering. Only James Bradley's father truly survived, displaying no copy of the famous photograph in his home, telling his son only: "The real heroes of Iwo Jima were the guys who didn't come back." Few books ever have captured the complexity and furor of war and its aftermath as well as *Flags of Our Fathers*. A penetrating, epic look at a generation at war, this is history told with keen insight, enormous honesty, and the passion of a son paying homage to his father. It is the story of the difference between truth and myth, the meaning of being a hero, and the essence of the human experience of war.

My Eyes Are Up Here is a razor-sharp debut about a girl struggling to rediscover her sense of self in the year after her body decided to change all the rules. If Greer Walsh could only live inside her head, life would be easier. She'd be able to focus on excelling at math or negotiating peace talks between her best friend and . . . everyone else. She wouldn't spend any time worrying about being the only Kennedy High student whose breasts are bigger than her head. But you can't play volleyball inside your head. Or go to the pool. Or have confusingly date-like encounters with the charming new boy. You need an actual body for all of those things. And Greer is entirely uncomfortable in hers. Hilarious and heartbreakingly honest, My Eyes Are Up Here is a story of awkwardness and ferocity, of imaginary butterflies and rock-solid friends. It's the story of a girl finding her way out of her oversized sweatshirt and back into the real world.

He's exhausted by being at once too black and not black enough for his African American peers and worn down by the expectations of his own Liberian family and community. When his frustration finally spills into violence and his parents send him back to Monrovia to reform school, the story shifts. Like Kollie, readers travel back to Liberia, but also back in time, to the early twentieth century and the point of view of Togar Somah, an eighteen-year-old indigenous Liberian on the run from government militias that would force him to work the plantations of the Congo people, descendants of the African American slaves who colonized Liberia almost a century earlier. When Togar's section draws to a shocking close, the novel jumps again, back to America in 1827, to the children of Yasmine Wright, who leave a Virginia plantation with their mother for Liberia, where they're promised freedom and a chance at self-determination by the American Colonization Society. The Wrights begin their section by fleeing the whip and by its close, they are then the ones who wield it. With each new section, the novel uncovers fresh hope and resonating heartbreak, all based on historical fact. In

Inglourious Basterds meets Stranger Things in this dark and thrilling tale of power, shadow, and revenge set during World War II. World War II is raging, and five teens are looking to make a mark. Daniel and Rebeka seek revenge against the Nazis who slaughtered their family; Simone is determined to fight back against the oppressors who ruined her life and corrupted her girlfriend; Phillip aims to prove that he's better than his worst mistakes; and Liam is searching for a way to control the portal to the shadow world he's uncovered, and the monsters that live within it--before the Nazi regime can do the same. When the five meet, and begrudgingly team up, in the forests of Germany, none of them knows what their future might hold. As they race against time, war, and enemies from both this world and another, Liam, Daniel, Rebeka, Phillip, and Simone know that all they can count on is their own determination and will to survive. With their world turned upside down, and the shadow realm looming ominously large--and threateningly close--the course of history and the very fate of humanity rest in their hands. Still, the most important question remains: Will they be able to save it? Girls Like Us

Zeroing in on the moments of comic confusion and tender transformation that make up one boy's wild ride through childhood and adolescence, this collection of stories follows Will, a boy with an overactive imagination who grapples with "what kind of man will I become?"

Modern history unearthed as a boy becomes an innocent victim of corruption in Bolivia's crime world, where the power of family is both a prison and a means of survival. It's 1999 in Bolivia and Francisco's life consists of school, soccer, and trying to find space for himself in his family's cramped yet boisterous home. But when his father is arrested on false charges and sent to prison by a corrupt system that targets the uneducated, the poor, and the indigenous majority, Francisco and his sister are left with no choice: They must move into prison with their father. There, they find a world unlike anything they've ever known, where everything—a door, a mattress, protection from other inmates—has its price. Prison life is dirty, dire, and dehumanizing. With their lives upended, Francisco faces an impossible

decision: Break up the family and take his sister to their grandparents in the Andean highlands, fleeing the city and the future within his grasp, or remain together in the increasingly dangerous prison. Pulled between two undesirable options, Francisco must confront everything he once believed about the world and his place within it. In this heart-wrenching novel, Melanie Crowder sheds light on a little-known era of modern South American history—where injustice still looms large—and proves that hope can be found, even in the most desperate places. Perfect for fans of Ruta Sepetys, Matt de la Pena, and Jacqueline Woodson. Meet Mare, a grandmother with flair and a fascinating past. Octavia and Tali are dreading the road trip their parents are forcing them to take with their grandmother over the summer. After all, Mare isn't your typical grandmother. She drives a red sports car, wears stiletto shoes, flippy wigs, and push-up bras, and insists that she's too young to be called Grandma. But somewhere on the road, Octavia and Tali discover there's more to Mare than what you see. She was once a willful teenager who escaped her less-than-perfect life in the deep South and lied about her age to join the African American battalion of the Women's Army Corps during World War II. Told in alternating chapters, half of which follow Mare through her experiences as a WAC member and half of which follow Mare and her granddaughters on the road in the present day, this novel introduces a larger-than-life character who will stay with readers long after they finish reading.

Guess what -- Gary Paulsen was being kind to Brian. In Guts, Gary tells the real stories behind the Brian books, the stories of the adventures that inspired him to write Brian Robeson's story: working as an emergency volunteer; the death that inspired the pilot's death in Hatchet; plane crashes he has seen and near-misses of his own. He describes how he made his own bows and arrows, and takes readers on his first hunting trips, showing the wonder and solace of nature along with his hilarious mishaps and mistakes. He shares special memories, such as the night he attracted every mosquito in the county, or how he met the moose with a sense of humor, and the moose who made it personal.
