The Vocational Guidance Quarterly

"Some twenty-five years after its conclusion, yet with its echoes resonating once more in contemporary East-West relations, the rigors and detail of many aspects of the Cold War are becoming increasingly of interest. Furthermore, at the very same time many of the records of the period are beginning to become accessible for the first time. At the forefront of this unique conflict, that divided the world into two opposing camps for over four decades, were the security services and the agents of these secretive organizations. The Cold War Pocket Manual presents a meticulously compiled selection of recently unclassified documents, field-manuals, briefing directives and intelligence primers that uncover the training and techniques required to function as a spy in the darkest periods of modern history. Material has been researched from the CIA, MI5 and MI6, the KGB, the STASI as well as from the Middle

East security services and on into China and the East. As insightful as any drama these documents detail, amongst many other things, the directives that informed nuclear espionage, assassinations, interrogations and the "turning" of agents and impacted upon the Suez Crisis, the Hungarian Uprising, the "Cambridge Five" and the most tellingly the Cuban Missile Crisis in 1962. ¥ Full introduction and commentary provided by leading historian and former diplomat Philip Parker. ¥ Complete with a catalogue of, and often instructions for, genuine espionage devices including lock decoders, bugging equipment, a 4.5mm single-shot lipstick gun, microfilm concealing coins and cameras mounted in clothing or pens and shoe-concealed tracking devices. ¥ Presents for the first time the insightful documents, many of which inspired Cold War novelists including John Le Carré, Len Deighton and Ian Fleming, and many of which they would never have seen. "

"TRB Special Report 319 analyzes the ways that innovative transportation services--including ridesharing, carsharing, bikesharing, and microtransit--are changing mobility for millions of travelers. Such services could reduce congestion and emissions from surface transportation if regulated wisely to encourage concurrent, instead of sequential, ridesharing. Rapidly growing transportation network companies (TNCs), such as Uber and Lyft, however, are disrupting conventional taxi and limousine services and are raising policy challenges related to personal security and public safety, insurance requirements, employment and labor issues, and accessibility and equity. The committee's report offers guidance to state and local officials responsible for policy setting and regulation of for-hire transportation services in each of these areas. The report also addresses the need for greater consistency in regulations across jurisdictions and calls for TNCs to share more information about the volume, the frequency, and the types of trips they are providing, to allow for informed regulation and planning of transportation services"--provided by publisher.

The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789-1824), the Register of Debates in Congress (1824-1837), and the Congressional Globe (1833-1873)

The Oxford Dictionary of Pragmatics

Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

In conversations with drivers ranging from veterans of foreign wars to Indigenous women protecting one another, Di Cintio explores the borderland of the North American taxi. “The taxi,” writes Marcello Di Cintio, “is a border.” Occupying the space between public and private, a cab brings together people who might otherwise never have met—yet most of us sit in the back and stare at our phones. Nowhere else do people occupy such intimate quarters and share so little. In a series of interviews with drivers, their backgrounds ranging from the Iraqi National Guard, to the Westboro Baptist Church, to an arranged marriage that left one woman stranded in a foreign country with nothing but a suitcase, Driven seeks out those missed conversations, revealing the unknown stories that surround

This publication is the official theory test book for car drivers, compiled by the Driver and Vehicle Standards Agency. It contains multiple choice questions from the whole theory test question bank, with answers and explanations, dealing with topics such as: alertness and attitude, vehicle safety and handling, safety margins, hazard awareness, vulnerable road users, motorway rules and rules of the road, road and traffic signs, documents, accidents, and vehicle loading.

The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.

Featuring Good Jobs in All Major Occupations and Industries

Cambridge English for Schools 4 Student's book 4

This book is a real life story about the beauty of life when you have a wonderful income, which ultimately gave me a glamorous lifestyle. I had a lavished apartment on the Upper East Side of Manhattan, where I was always entertaining my friends and their friends. Sometimes my friends and I would use limousine just for the night out. At the end of my company contract and after about another six months without income, I sold my condominium at a reasonable price and relocated to Jersey City in New Jersey. I lived in a spacious apartment for another five months without income, then I decided to drive a yellow cab. I went to TLC for my hack license to enable me to drive a taxi. I registered with a taxi company in Brooklyn, and I became a taxi driver. Driving the taxi and continuing my job hunting at the same time was daunting. With too many summonses from police officers and TLC inspectors within a period of about four years taxi driving, my license was revoked. No more taxi driving, no more income. And my life became too miserable.

Where To Download Free Taxi Driver Log Sheet Template

Describes 250 occupations which cover approximately 107 million jobs.

*As any traveler knows, some of the best and most honest conversations take place during car rides. So, when a long-time NPR correspondent wanted to learn more about the real China, he started driving a cab--and discovered a country amid seismic political and economic change. China--America's most important competitor--is at a turning point. With economic growth slowing, Chinese people face inequality and uncertainty as their leaders tighten control at home and project power abroad. In this adventurous, original book, NPR correspondent Frank Langfitt describes how he created a free taxi service--offering rides in exchange for illuminating conversation--to go beyond the headlines and get to know a wide range of colorful, compelling characters representative of the new China. They include folks like "Beer," a slippery salesman who tries to sell Langfitt a used car; Rocky, a farm boy turned Shanghai lawyer; and Chen, who runs an underground Christian church and moves his family to America in search of a better, freer life. Blending unforgettable characters, evocative travel writing, and insightful political analysis, *The Shanghai Free Taxi* is a sharply observed and surprising book that will help readers make sense of the world's other superpower at this extraordinary moment.*
