In Spark of Life, a powerful classic from the renowned author of All Quiet on the Western Front, one man’s dream of freedom inspires a valiant resistance against the Nazi war machine. For ten years, 509 has been a political prisoner in a German concentration camp, persevering in the most hellish conditions. Deathly weak, he still has his wits about him and he senses that the end of the war is near. If he and the other living corpses in his barracks can hold on for liberation—or force their own—then their suffering will not have been in vain. Now the SS who run the camp are ratcheting up the terror. But their expectations are jaded and their defenses are down. It is possible that the courageous yet terribly weak prisoners have just enough left in them to resist. And if they die fighting, they will die on their own terms, cheating the Nazis out of their devil’s contract. “The world has a great writer in Erich Maria Remarque. He is a craftsman of unquestionably first rank, a man who can bend language to his will. Whether he writes of men or of inanimate nature, his touch is sensitive, firm, and sure.”—The New York Times Book Review

She has been brought home from a distant land by a mysterious rider she claims is her brother Konstandin. But unbeknownst to her, Konstandin has been dead for years. What follows is chain of events which plunges a medieval village into fear and mistrust. Who is the ghost rider?

Text in English and Albanian, translated from a work originally written in German and Albanian.

Most schools are safe places for children but that does not mean that members of a school community live and learn together in harmony at all time. Violence towards children can take place in a variety of forms, including physical and verbal abuse and bullying. This is a practical handbook for schools to use when training staff in techniques for reducing violence. In particular, it addresses two issues: how to establish and maintain a learning environment where violence is not tolerated and how to respond to violence when it occurs so that this environment is protected. Each chapter covers a critical area for school policy, describes the issues, and proposes activities designed to be combined into a training programme to meet the specific needs of a group of staff. This includes teachers and the growing number of support staff in European schools. School leaders, administrators and educationalists should find this guide a useful addition to the resources for reducing violence in schools available in their own country.

Morfologjia

This book is the first comprehensive survey of mood in the languages of Europe. It gives readers access to a collection of data on mood. Each article presents the mood system of a specific European language in a way that readers not familiar with this language are able to understand and to interpret the data. The articles contain information on the morphology and semantics of the mood system, the possible combinations of tense and mood morphology, and the possible uses of the non-indica-tive mood(s). The papers address the explanation of mood from an empirical and descriptive perspective. This book is of interest to scholars in the fields of mood and modality, language contact, and areal linguistics and typology.

Approximately five million people worldwide speak Albanian. The opening of Albania in the 1990s to broader trading and diplomatic relations with other nations has created a need for better knowledge of the language and culture of this country. This book teaches the student to communicate in everyday situations in the language, with each chapter introducing a new situational context. Students learn to discuss work, vacations, health, and entertainment. Students also learn to practice basic skills such as shopping, ordering tickets, and renting an apartment. Upon completing this textbook, students will be at the A2/B1 level of proficiency on the scale provided by the Common European Framework of Reference for Languages (CEFR). The textbook includes:
• eighteen lessons based on real-life situations, including three review lessons
• dialogues to help introduce vocabulary and grammatical structures
• comprehension questions and exercises
• related readings at the end of each chapter
• full translations for all examples discussed in grammar sections
• a series of appendixes with numerous charts summarizing main classes of nouns, adjectives, and verbs
• an appendix with the solutions to most of the exercises in the book
• a glossary with all the words in the dialogs and readings.

Northern Albania and Montenegro are the only regions in Europe to have retained a true tribal society up to the mid-twentieth century. This book provides the first scholarly investigation of this tribal society, a pioneer work that offers a detailed survey of all the major Albanian-speaking tribes in Albania, Montenegro and Kosovo. Robert Elsie provides comprehensive material on the 69 different tribes, including data on their locations, religious affiliations, tribal structures and relations, population statistics, tribal folklore, legends and history. Also included are excerpts from the works of prominent nineteenth and early-twentieth century writers, such as Edith Durham and Johann Georg von Hahn, who travelled through the tribal regions, as well as short biographies on prominent figures linked to the tribes. As the first book of its kind, The Tribes of Albania will be of interest to scholars and students of the Balkans, of southeastern European anthropology, ethnography and history.

A haunting classic from the author of All Quiet on the Western Front, Shadows in Paradise reveals the deepest scars of the men and women who experienced the Holocaust. After years of hiding and surviving near death in a concentration camp, Ross is finally safe. Now living in New York City among old friends, far from Europe ’ s chilling atrocities, Ross soon meets Natasha, a beautiful model and fellow émigré, a warm heart to help him forget his cold memories. Yet even as the war draws to its violent close, Ross cannot find peace. Demons still pursue him. Whether they are ghosts from the past or the guilt of surviving, he does not know. For he is only beginning to understand that freedom is far from easy—and that paradise, however perfect, has a price. “ The world has a great writer in Erich Maria Remarque. He is a craftsman of unquestionably first rank, a man who can bend language to his will. Whether he writes of men or of inanimate nature, his touch is sensitive, firm, and sure. ” —The New York Times Book Review

"We live in an era where the university system is undergoing great changes owing to developments in financing policies and research priorities, as well as changes in the society in which this system is embedded. This change toward a more market-oriented university, which also has immediate effects in academic peripheries such as the Balkans, the Middle East, or South-East Asia, is of great influence for the pedagogical practice of "less profitable" academic areas such as the Humanities: philosophy, languages, sociology, anthropology, history.Because of the absence of a historically grounded establishment of the Humanities, academic peripheries, usually accompanied by a weak civil society infrastructure, seem to offer the most fertile ground for rethinking the Humanities, their pedagogical practice, and their politics, as well as the greatest threats, such as the ongoing capitalization of research, and profitability as the norm of educational achievement. The sprawling presence of for-profit universities and in academic peripheries such as Albania and Kosovo is indicative of this problematic, as are consistent underfunding of universities and the relentless budget cuts in American and English, and to a lesser extent European, universities. Motivations for this ongoing attack on the university are often driven by a political system or a politics with an aggressive stance to critical thought."
