parent-teacher-student interaction is a need of the hour. A decentralized approach in education is the most effective outcome to improve the quality of education. The task force report by Raja Ramanna Committee on quality improvement on elementary education introduced the importance

of community participation and management for guaranteeing quality education and encouraging community participation through legislation by establishing SDMC. Karnataka was the first state in adopting SDMC. In 2001, the Government of Karnataka ordered that all the schools should

Introduction In everyday life, working class people come across many

situations where they have to cope with many situations and conditions, putting them in a lot of stress. Stress has become an inevitable part of human life in modern times. It is becoming a global phenomenon affecting all genres of people. The optimum level of occupational stress

“ Teachers in particular not only have the stress of dealing with so many diverse children on a day to day basis; they are also entitled with educating and helping to mold these children into productive members of society. With rules, regulations, guidelines and

What does it mean for education to be a fundamental right, and how may children benefit from it? Surprisingly, even when the right to

Online Library Government Of

education was added to the Indian Constitution as Article 21A, this question barely received any attention. The book identifies justiciability—or, more broadly, enforceability—as the most

Online Library Government Of
Karnataka Schooleducation In
Karnataka

important feature of Article 21A, meaning that children and their parents must be provided with means to effectively claim their right from the State; otherwise, it would remain a 'right' only on paper. The book

Online Library Government Of Karnataka Schooleducation In Karnataka

highlights how lack of access to the Indian judiciary means that the constitutional promise of justiciability remains unfulfilled. It deals with the possible alternative means the State may provide for the poor

Online Library Government Of Karnataka Schooleducation In Karnataka

to claim the benefits under Article 21A, and identifies the grievance-redress mechanism created by the 'Right of Children to Free and Compulsory Education Act, 2009' as a potential system of

enforcement. Even though this system is found to be deficient, the book concludes with an optimistic outlook, hoping that rights advocates may, in the future, focus on improving such mechanisms for legal

at the unique roots of the concept in India. It examines Gandhi's philosophical moorings that inform India's approach to CSR, and the role of civil society in setting an agenda for championing the
