In the spring of 2010, Harvard Business School 's graduating class asked HBS professor Clay Christensen to address them—but not on how to apply his principles and thinking to their post-HBS careers. The students wanted to know how to apply his wisdom to their personal lives. He shared with them a set of guidelines that have helped him find meaning in his own life, which led to this now-classic article. Although Christensen 's thinking is rooted in his deep religious faith, these are strategies anyone can use. Since 1922, Harvard Business Review has been a leading source of breakthrough ideas in management practice. The Harvard Business Review Classics series now offers you the opportunity to make these seminal pieces a part of your permanent management library. Each highly readable volume contains a groundbreaking idea that continues to shape best practices and inspire countless managers around the world.

From medieval Runnymede to twentieth-century Jarrow, from King Alfred to George Orwell by way of John Lilburne and Mary Wollstonecraft, a rich and colourful thread of radicalism runs through a thousand years of British history. In this fascinating study, Edward Vallance traces a national tendency towards revolution, irreverence and reform wherever it surfaces and in all its variety. He unveils the British people who fought and died for religious freedom, universal suffrage, justice and liberty - and shows why, now more than ever, their heroic achievements must be celebrated. Beginning with Magna Carta, Vallance subjects the touchstones of British radicalism to rigorous scrutiny. He evokes the figureheads of radical action, real and mythic - Robin Hood and Captain Swing, Wat Tyler, Ned Ludd, Thomas Paine and Emmeline Pankhurst - and the popular movements that bore them. Lollards and Levellers, Diggers, Ranters and Chartists, each has its membership, principles and objectives revealed.

Tsotsi is an angry young gang leader in the South African township of Sophiatown. A man without a past, he exists only to kill and steal. But one night, in a moonlit grove of bluegum trees, a woman he attempts to rape forces a shoebox into his arms. The box contains a baby, and his life is inexorably changed. He begins to remember his childhood, to rediscover himself and his capacity for love. Turned into an Oscar-winning movie in 2006, Tsotsi's raw power and rare humanity show how decency and compassion can survive against the odds.

As the 2016 election campaign attests, the Grand Old Party—once moderate and even magnanimous—has fallen into a prison of its own making when it comes to presidential politics. After the debacle of the George W. Bush presidency and the rout of the Romney candidacy, Republicans said they must broaden their base, become more inclusive, and return to the warmth of Reagan idealism. Instead, what we have is a bitter, backbiting, and race- and gender-baiting campaign with a candidate more exclusive than any before him. How did we get here and how do we get out? This book tracks the modern history of the Republican Party and shows its decline, even while shining a light on its high points and urging it back in a positive direction. Every reader interested in the US presidential election, the primary process, and the clash of politics and culture will find something enlightening in John White 's exposition. Above all, he puts the Age of Trump into perspective, looking back as well as forward in his analysis. Who is this book for? Students of American government, political parties, campaigns & elections Scholars in political science and political history General readers interested in the current presidential campaign and the health of American democracy Features 1. Current. Anticipates the current state of the Republican Party, at odds with itself as much as with the American public. Includes 2014 midterm election data with an eye toward the 2016 presidential contest. 2. A broad historical sweep. Covers a broad historical period from the 1950s (Eisenhower era) to the present, with a strong emphasis on the Reagan years which represent the GOP at its zenith. 3. Efficient use of polling and demographic data. Takes a broad swath of historical data (including polling data) and presents it in a condensed, readable format. At the same time, the reader is not inundated by polling and demographic data. 4. Bold. Any reader will come away from this book understanding that the GOP predicament is likely to last for some time to come. The problems Republicans face are both intellectual and political. They are not likely to be solved by any one candidate or election and will be compounded and confounded by the events of 2016.

*"Report of the Dominion fishery commission on the fisheries of the province of Ontario, 1893", issued as vol. 26, no. 7, supplement.*

*It has, improbably, been called uncommonly lucid, even riveting by The New York Times, and it was a finalist for the 2004 National Book Awards nonfiction honor. It is a literally chilling read, especially in its minute-by-minute description of the events of the morning of 9/11 inside the Twin Towers. It is The 9/11 Commission Report, which was, before its publication, perhaps one of the most anticipated government reports of all time, and has been since an unlikely bestseller. The official statement by the National Commission on Terrorist Attacks Upon the United States-which was instituted in late 2002 and chaired by former New Jersey Governor Thomas Kean-it details what went wrong on that day (such as intelligence failures), what went right (the heroic response of emergency services and self-organizing civilians), and how to avert similar future attacks. Highlighting evidence from the day, from airport surveillance footage of the terrorists to phone calls from the doomed flights, and offering details that have otherwise gone unheard, this is an astonishing firsthand document of contemporary history. While controversial in parts-it has been criticized for failing to include testimony from key individuals, and it completely omits any mention of the mysterious collapse of WTC 7-it is nevertheless an essential record of one of the most transformational events of modern times.*
