

## Griechisches Gift Kommissarin Katharina Waldmann

*Die griechische Insel Paros ist ein beschaulicher Ort, um Urlaub zu machen, und so trifft sich dort jedes Jahr aufs Neue eine eingeschworene Gemeinschaft, die bestens vertraut ist mit der Insel, ihren Einwohnern und Eigenheiten. Doch in diesem Sommer wird die Idylle im geruhsamen Inselstädtchen Naoussa zerstört: Der allseits und besonders bei den Frauen beliebte Kellner des Café Aliportas wird erhängt aufgefunden. Als dann auch noch Katharina Waldmann, die deutsch-griechische Chefin der Mordkommission Athen, zur Amtshilfe auf die Insel gerufen wird, ist jedem klar, dass ein Mord aufgeklärt werden soll. Peter Pachel inszeniert die beliebte griechische Kulisse aus Urlaub und Gastfreundschaft neu, bettet seine Charaktere zwischen Tradition und Tourismus ein und lässt sie über Homosexualität und Natur stolpern. Seine Romane sind eine Hommage an Paros und die ägäische Küche, die er mit verführerischen Köstlichkeiten und Kochrezepten beschreibt.*

*Panos Karnezis' remarkable stories are all set in the same nameless Greek village. His characters are the people who live there - the priest, the barber, the whore, the doctor, the seamstress, the mayor - and the occasional animal: a centaur, a parrot that recites Homer, a horse called History. Their lives intersect, as lives do in a small place, and they know each other's secrets - the hidden crimes, the mysteries, the little infamies that men commit. Karnezis observes his villagers with a forgiving eye, and creates a world where magic invariably loses out to harsh reality, a world at once universal, funny and utterly compelling.*

*The first comprehensive account of the booming phenomenon of deliberative mini-publics, this book offers a systematic review of their variety, discusses their weaknesses, and recommends ways to make them a viable component of democracy. The book takes stock of the diverse practices of deliberative mini-publics and, more concretely, looks at preconditions, processes, and outcomes. It provides a critical assessment of the experience with mini-publics; in particular their lack of policy impact. Bringing together leading scholars in the field, notably James S Fishkin and Mark E Warren, Deliberative Mini-Publics will speak to anyone with an interest in democracy and democratic innovations.*

***Nicolás Guagnini: Theatre of the Self is a hybrid catalogue-reader based on the exhibition of the multi-threaded performances of Buenos Aires-born New York-based Guagnini. Many of these works, spanning from 2005 until 2019, have never been seen before or have not been seen since their original live presentation. Raised in Argentina during the "Dirty War" and violent military dictatorship, Guagnini moved to New York in the late 1990s and co-founded the film production company Union Gaucha Productions with Karin Schneider in 1997. In 2005 Guagnini became co-founder of Orchard Gallery, an artist cooperative based on the Lower East Side. The work in Theatre of the Self is informed in part by autobiography, history, politics and through Guagnini's community itself. Some performances were participatory, some were not. But all were made polyvocally in collaboration with a group of artists with shared interests and concerns around performance and the moving image including Ei Arakawa, Leigh Ledare, Jeff Preiss, Aura Rosenberg, Karin Schneider among others. This publication invites internationally acclaimed art historians, curators and artists to think about the material in Guagnini's work within a unique format. Readers of the publication will be interested in contemporary art, film, political science, performance studies, and Latin American studies.***

Anthropology's long and complex relationship to magic has been strongly influenced by western science and notions of rationality. This book takes a refreshing new look at modern magic as practiced by contemporary Pagans in Britain. It focuses on what Pagans see as the essence of magic - a communication with an otherworldly reality. Examining issues of identity, gender and morality, the author argues that the otherworld forms a central defining characteristic of magical practice. Integrating an experiential ethnographic approach with an analysis of magic, this book asks penetrating questions about the nature of otherworldly knowledge and argues that our scientific frameworks need re-envisioning. It is unique in providing an insider's view of how magic is practised in contemporary western culture.

***Magic has played a part in most cultures throughout human history. Traditions and practices may differ but essential elements remain the same. This insightful history examines the roots and foundation of magic, and the way it has shaped our view of the universe and our place within it. The scope of the study is wide, covering a range of traditions from the wise woman of a sixteenth-century English village to a witchdoctor in Africa, or from the customs of the Native American shaman to those of the female shamans of Korea. From magic's origins in the Shamanic tradition came religion, which, for the world's first civilizations, had no distinction from magic. The book examines these beliefs, ideas and convictions through the ages until the present day, with the revival of a magical consciousness in the West and the new forms of goddess-centred witchcraft. The book includes an international sweep of ancient cultural traditions and details the medieval phenomena of witch-hunts that still have resonance in modern society. In addition, it explores the modern wicca movement, tracing the development from the 1900s and its links with the Celtic tradition. Drawing on the work of numerous scholars and experts as well as first-hand research by the author, this fascinating anthropological study invites reflection on the many ways that human beings have sought to relate to the world of the spirit. Lavishly illustrated with archival material, fine art illustrations of legendary magic workers, and special photography, this volume is a comprehensive examination of a fascinating and timeless subject.***

***This book highlights various aspects of shale gas production and discusses the associated problems, which have greatly influenced the current situation on the global gas market. It focuses on issues such as production technologies, environmental protection, and the impacts of shale gas production on human beings. Further, it investigates the role of shale gas in the development and implementation of foreign policy of many nations that welcomed the possibility to produce this hydrocarbon in their own countries. Taking into consideration the information published by world energy research centers, the prospects of shale gas production in different regions of the world are examined in detail. Given its coverage and scope, the book will greatly benefit specialists in the areas of hydrocarbon production, international relations and foreign policy, world economics and technologies, ecology and environmental protection.***

Hellblau leuchtet der Himmel über Paros. Katharina Waldmann bereitet sich auf das Osterfest vor. Auch einige Touristen verbringen bereits die Feiertage auf den Kykladen, so wie Marlene Winter, die sogar ein Grundstück auf der Nachbarinsel Amorgos erwerben will. Ein Treffen mit Makler Frank Felten soll die letzten Einzelheiten abklären. Doch das Abendessen in der traditionellen Taverne im Hafen von Naoussa verläuft tödlich für den Mitarbeiter der Immobilienfirma Dreamroom GmbH. Ein schrecklicher Verdacht kommt auf. Hat hier jemand nachgeholfen und wenn ja, wer hat es auf den unsympathischen deutschen Makler abgesehen? "Eine spannende, hitzeflirrende >Wer war's?<-Geschichte. Peter Pachel feiert die griechische Küche." schrieb die Zeitschrift BRIGITTE über den ersten Fall der deutsch-griechischen Kommissarin Waldmann in "Maroulas Geheimnis". Im zweiten Fall dienen die weiß-blauen Kykladeninseln, enge Gassen, weite Strände und klares Wasser erneut als Kulisse für die Ermittlungen. Die Auswahl an Kochrezepten am Ende des Buches rundet das kriminalistische Abenteuer in der Ägäis ab.

Representation is more than a matter of elections and parties. This book offers a radical new perspective on the subject. Representation, it argues, is all around us, a dynamic practise across societies rather than simply a fixed feature of government. At the heart of the argument is the straightforward but versatile notion of the representative claim. People claim to speak or stand for others in multiple, shifting, and surprising patterns. At the same time they offer images of their constituents and audiences as artists paint portraits. Who can speak for and about us in this volatile world of

representations? Which representative claims can have democratic legitimacy? The Representative Claim is set to transform our core assumptions about what representation is and can be. At a time when political representation is widely believed to be in crisis, the book provides a timely and critical corrective to conventional wisdom on the present and potential future of representative democracy.

Ein wunderschöner Herbstmorgen in der Eifel. Emil durchstreift mit seinem Frauchen Lisa den Wald rund um den Elefantenkopf, als ihm plötzlich ein verdächtiger Duft in die Nase steigt. Er nimmt die Spur auf, folgt ihr in das Dickicht und entdeckt die Leiche von Melanie Pütz. Wer hat die Frau ermordet? Das muss Kommissar Josef Kolvenbach mit seinen Kollegen herausfinden. War es ihr Exfreund? Oder einer ihrer Kunden, die sie beim Jobcenter zu betreuen hatte? Kolvenbach sticht mitten in ein Wespennest aus enttäuschten Hoffnungen, verletzter Würde und beleidigten Egos; nur eine heiße Spur findet er nicht. Die Suche scheint aussichtslos, die Ermittlungen treten auf der Stelle - bis die Beamten unvermittelt Hilfe von völlig unerwarteter Seite erhalten. Denn einer der Beteiligten hat den richtigen Riecher und weiß auch, wie er ihn einsetzen muss: Emil! Aber bevor er helfen darf, muss er den Menschen erst einmal begreiflich machen, wie überlegen seine Nase dem Riechorgan der Zweibeiner ist. Und dabei ist er noch nicht einmal ein Polizeihund! Mit ihrem neuen Buch taucht Antonia Pauly tief ein in den Lebensalltag der Eifel, eine Gegend, die ihr mindestens so vertraut ist wie ihrem vierbeinigen Helden. Mit großer Sympathie für Land, Leute und Tiere erzählt sie von einer spannenden Tätersuche - ein kriminalistischer Leckerbissen nicht nur für Hundeliebhaber!

*Citizenship is a core concept for the social sciences, and citizenship is also frequently interpreted, challenged and contested in different political arenas. Shaping Citizenship explores how the concept is debated and contested, defined and redefined, used and constructed by different agents, at different times, and with regard to both theory and practice. The book uses a reflexive and constructivist perspective on the concept of citizenship that draws on the theory and methodology of conceptual history. This approach enables a panorama of politically important readings on citizenship that provide an interdisciplinary perspective and help to transcend narrow and simplified views on citizenship. The three parts of the book focus respectively on theories, debates and practices of citizenship. In the chapters, constructions and struggles related to citizenship are approached by experts from different fields. Thematically the chapters focus on political representation, migration, internationalization, sub-and transnationalization as well as the Europeanisation of citizenship. An indispensable read to scholars and students, Shaping Citizenship presents new ways to study the conceptual changes, struggles and debates related to core dimensions of this ever-evolving concept.*

He stresses the importance of a closer understanding of Fassbinder's career through a re-reading of his films as textual entities. Approaching the work from different thematic and analytical perspectives, Elsaesser offers both an overview and a number of detailed readings of crucial films, while also providing a European context for Fassbinder's own coming to terms with fascism.*

The wry and rueful Columbo of Austria investigates a grisly murder at a beloved restaurant where snooty Viennese gourmands go to eat ... fried chicken. At a wildly popular chicken shack in the Austrian countryside, a gruesome discovery is made in the pile of chicken bones waiting to be fed into the basement grinder: human bones. But when former-police detective now private eye Simon Brenner shows up to investigate, the woman who hired him has disappeared ... Brenner likes chicken, though, so he stays, but finds no one will talk. And as he waits for the disappeared manager, there's one ghastly find after another. Perhaps the most raucous book in the series, *The Bone Man* manages to make fun of institutions from high cuisine to soccer while nonetheless building relentless suspense based in all-too-real social issues. Smart, tense, and funny, the book makes clear why Carl Hiaasen called Wolf Haas "the real deal."

Traces the life of the romantic adventurer from his secret childhood in a convent, to his escapades as a libertine, to his unavoidable fall into chaotic love, in a tale set against a backdrop of the Spanish Golden Age. A first novel. Reprint.

In the wake of the Fischer Controversy on the origins of World War I there emerged in West Germany a younger generation of historians who took a critical 'revisionist' view of the Bismarckian Empire and began to analyze the political development of the Hohenzollern monarchy against the background of the country's social and economic power structures. Professor Wehler became one of the most prominent exponents of this approach and his structural analysis of the 'Kaiserreich' created a considerable stir when it was first published. It has since, with its incisive and rigorous analysis, become a classic in the field.

**Unbekannte verprügeln im Frankfurter Bahnhofsviertel einen Mann und verletzen ihn schwer. Einige Tage später wird in Bad Homburg ein anderer Mann auf offener Straße zusammengeschlagen und auf die Intensivstation gebracht. Obwohl beide Opfer Sachbearbeiter bei der gleichen Wiesbadener Versicherung tätig waren, glaubt die Polizei nicht an einen Zusammenhang. Doch dem Zufall bleibt bei der Abteilungsleiterin selten etwas überlassen und somit beauftragt sie Privatermittler Roland Bernau mit dem Fall. Während seiner Recherchen in den Akten der Versicherung wird dem agilen Ex-Polizist schnell klar, dass es sich bei den Schadensfällen, an denen die beiden Männer zuletzt gearbeitet hatten, um Probleme in Kliniken handelte, und zwar hauptsächlich im Taunus. Ein Termin mit dem ehemaligen Chefarzt, Prof. Dr. Krahe, dessen Meinung öfters von Richtern und Staatsanwälten angeforderte wurde, soll Informationen und Einblicke für den Ermittler bringen. Doch der inzwischen deutlich über siebzig Jahre alte Mann wird kurz vorher vor einem Bordell brutal zusammengeschlagen und stirbt. Wer sind die Angreifer, die auf einem auffälligen Motorrad davonfahren? Und was hat der pensionierte Chefarzt aus Fulda mit dem Frankfurter Rotlichtviertel zu tun? Olaf Jahnke liefert eine spannende Geschichte über Vertrauen, Betrug und Gesundheit, basierend auf Ereignissen, die er im Rahmen seiner jahrelangen Arbeit für Fernseh- und Zeitungsreportagen erlebt hat. Seine Erfahrungen und Kontakte ermöglichten ihm, diesen packenden Krimi zu schreiben.**

**Organic Computing has emerged as a challenging vision for future information processing systems. Its basis is the insight that we will increasingly be surrounded by and depend on large collections of autonomous systems, which are equipped with sensors and actuators, aware of their environment, communicating freely, and organising themselves in order to perform actions and services required by the users. These networks of intelligent systems surrounding us open fascinating application areas and at the same time bear the problem of their controllability. Hence, we have to construct such systems as robust, safe, flexible, and trustworthy as possible. In particular, a strong orientation towards human needs as opposed to a pure implementation of the tech-nologically possible seems absolutely central. The technical systems, which can achieve these goals will have to exhibit life-like or "organic" properties. "Organic Computing Systems" adapt dynamically to their current environmental conditions. In order to cope with unexpected or undesired events they are self-organising, self-configuring, self-optimising, self-healing, self-protecting, self-explaining, and context-aware, while offering complementary interfaces for higher-level directives with respect to the desired behaviour. First steps towards adaptive and self-organising computer systems are being undertaken. Adaptivity, reconfigurability, emergence of new properties, and self-organisation are hot top-ics in a variety of research groups worldwide. This book summarises the results of a 6-year priority research program (SPP) of the German Research Foundation (DFG) addressing these fundamental challenges in the design of Organic Computing systems. It presents and discusses the theoretical foundations of Organic Computing, basic methods and tools, learning techniques used in this context, architectural patterns and many applications. The final outlook shows that in the mean-time Organic Computing ideas have spawned a variety of promising new projects.**

'It's Saturday and everything is different. No, I didn't go to the market this morning and I didn't have my usual coffee on Westerstraat. And no, I wasn't getting ready for a new semester at college. Next Monday, January 31st, I have to admit myself at the hospital for my first chemotherapy session. For the next two months, I'm expected each week for a fresh shot of vincristine, etoposide, ifosfamide and loads more exciting abracadabra.' Sophie is twenty-one when she is diagnosed with a rare, aggressive form of cancer. A striking, fun-loving student, her world is reduced overnight to the sterile confines of a hospital. But within these walls Sophie discovers a whole new world of white coats, gossiping nurses, and sexy doctors; of shared rooms, hair loss, and eyebrow pencils. As wigs become a crucial part of Sophie's new life, she reclaims a sense of self-expression. Each of Sophie's nine wigs makes her feel stronger and gives her a distinct personality, and that is why each has its own name: Stella, Sue, Daisy, Blondie, Platina, Uma, Pam, Lydia, and Beb é . There's a bit of Sophie in all of them, and they reveal as much as they hide. Sophie is determined to be much more than a cancer patient. With refreshing candor and a keen eye for the absurd, Sophie van der Stap's The Girl With Nine Wigs makes you smile when you least expect it.
