This seventh, revised edition of the IMF Glossary: English-French-Spanish contains approximately 4,000 records that are believed to be the most useful to translators dealing with IMF material. The main body of the Glossary consists of terms, phraseological units, and institutional titles covering areas such as macroeconomics, money and banking, public finance, taxation, balance of payments, statistics, accounting, and economic development. It contains terminology relating to the IMF's organization and operations, as well as from the Articles of Agreement, By-Laws, Rules and Regulations, and other major IMF publications. Since the Glossary is concept-based, synonyms are consolidated into one single entry. Cross- references refer to the main entry under which the various synonyms are listed ("see") and also draw the user's attention to terms that are related but not synonyms ("see also"). Currency units of countries and monetary unions, an IMF organizational chart in the three languages, and color-coded French and Spanish indexes are provided in appendixes.

International Electronics Directory '90: The Guide to European Manufacturers, Agents and Applications, Part 2 focuses on information on manufacturers, agents, and applications. The book first presents a list of companies and abbreviations. The text then underscores a classified list of products and services. This includes electronics for office administration, aerospace industry, security and alarm systems, automobile industry, and banking; computers and ancillary equipment; consumer electronics; and electronics for environmental monitoring. Other products and services mentioned include electronics for textile machines, oceanology, metalworking industry, and packaging machines. The selection also provides an alphabetical list of products. This includes accelerometers, access control systems, backplanes, bank note counters, document scanners, drying equipment, flight data recorders, machine vision systems, magnetic tape and cassette recorders, and underwater navigational equipment. The text is a valuable source of information for readers wanting to know about manufacturers, agents, and applications.
