This stunning picture book from the bestselling team of Jean-Luc Fromental and Joelle Jolivet cleverly introduces many of the bones that make up the human body. A mysterious beast is terrorizing the resident skeletons of Bonesville. Under cover of darkness, it steals a different bone from each townsponser, from cranium to phalanges. It takes the washerwoman s humerus, the butcher s fibula, and Dr. Strongbones s coccyx. Thanks to his patience and cleverness, Detective Sherlock Bones traps the monster, revealing that the beast is only the harmless Spot of the Baskervilles, on a mission to rebuild the lost skeleton of his master, Dr. Watsbones. Jolivet s bold illustrations and Fromental s witty storytelling make for a winning combination in this striking picture book, perfect for young Sherlock Holmes fans. "

With warmth, lucidity and good humour, Pagnol, a boy from the city, recounts the glorious summer days he spent exploring the sun-baked Provençal countryside. He vividly captures the atmosphere of a childhood filled with the simple pleasures: a meal, a joke, an outing shared with his close-knit and loving family. These heart-warming stories remind us of how children can invest the smallest event or statement with incredible significance, how mysterious the workings of the adult world can seem to them and how painful the learning process can often prove. However, Pagnol's writing is filled with enormous optimism and delight. And his triumph in these classic memoirs is to have created that rare thing, a work suffused with joy. ‘Pagnol’s place in the history of French culture is secure. The Prousts and Sartres may be admired, but Pagnol is loved’ Times Literary Supplement

La police du pays entier est mobilisée depuis dix jours. Un petit garçon de 10 ans a disparu. La dernière fois qu’il a été aperçu, il était en compagnie d’une quasi-inconnue, une certaine Edmée. Son père, directeur de l’Observatoire de Paris, qui l’élève seul, l’avait confié à l’improviste, un soir de désarroi, à cette opticienne-astronome venue régler certaines lentilles délicates. Elle lui inspirait confiance. Depuis, l’enfant la revoyait de temps en temps. Edmée est spéciale, elle est bizarre, témoignent ses collègues. Meticuleuse mais silencieuse. Secrète. On l’a vue subtiliser des clichés d’étoiles et de météorites. Elle a été licenciée depuis. Qui est-elle vraiment ? Une illuminée ? Une vulgaire kidnapeuse ? Une espionne ? Ou fait-elle partie de ces êtres qui traversent la vie des autres, comme des comètes, pour leur permettre d’accomplir une tâche, un destin, des retrouvailles ?

Elise Gravel wants to write a totally drab book; her characters want to let loos. Who's gonna win? Don't take the title as a metaphor: it really is the worst book ever. Governor General Literary Award winning children’s book author and illustrator Elise Gravel takes readers on an unexpected journey through the world’s most boring book. The story’s characters and omniscient readers alike quickly become annoyed by the author’s bland imagination and rebel against her tired tropes and stale character choices, spouting sass in an attempt to get her attention and steer the narrative in a more interesting direction. After all, you don’t even have to buy the book, but the characters? They’re stuck in there for an eternity, and they’re going to do their best to make the most of it, or at least have a little fun where they can. As the charming and bizarre true nature of the characters overpowers the dry attributes given to them by the author, this once blasé story quickly picks up speed, transforming the story into something much more unique than originally promised. With Gravel’s signature goofy characters behind the wheel, no silly twist or rude body function is off the table!

This ambitious and vivid study in six volumes explores the journey of a single, electrifying story, from its first incarnation in a medieval French poem through its prolific rebirth in the nineteenth and twentieth centuries. The Juggler of Notre Dame tells how an entertainer abandons the world to join a monastery, but is suspected of blasphemy after dancing his devotion before a statue of the Madonna in the crypt; he is saved when the statue, delighted by his skill, miraculously comes to life. Jan Ziolkowski tracks the poem from its medieval roots to its rediscovery in late nineteenth-century Paris, before its translation into English in Britain and the United States. The visual influence of the tale on Gothic revivalism and vice versa in America is carefully documented with lavish and inventive illustrations, and Ziolkowski concludes with an examination of the explosion of interest in The Juggler of Notre Dame in the twentieth century and its place in mass culture today. Volume 3: The American Middle Ages hinges upon two figures influenced by the juggler: Henry Adams, scion of Presidents and distinguished cultural historian whose works contributed to the rise of medievalism in America during the Gilded Age, and Ralph Adams Cram, the architect whose vision of Gothic accounts directly or indirectly for the campuses of West Point, Princeton, Yale, Chicago, Notre Dame, and many other universities across America. The Juggler of Notre Dame and the Medievalizing of Modernity is a rich case study for the reception of the Middle Ages in modernity. Spanning centuries and continents, the medieval period is understood through the lens of its (post)modern reception in Europe and America. Profound connections between the verbal and the visual are illustrated by a rich trove of images, including book illustrations, stained glass, postage stamps, architecture, and Christmas cards. Presented with great clarity and simplicity, Ziolkowski's work is accessible to the general reader, while its many new discoveries will be valuable to academics in such fields and disciplines as medieval studies, medievalism, philology, literary history, art history, folklore, performance studies, and reception studies.

On his first vacation without his parents, eight-year-old Myron faces a scary grandfather, teasing older cousins, his first dive off the ten-foot board, and his grandmother's encouragement to write his mother daily, telling her of his adventures.
