How Women Are Transforming the Middle East

The DIY Balloon Hat Bible features more than 40 awesome balloon hat designs. Each of these designs is guaranteed to be a hit with kids and adults alike. At the end of each "recipe" there is also a link to view the video, so whether you learn by reading, or watching, we’ve got you covered. The designs in this book have been tested over many years and have been kid approved! They range from simple 2- balloon designs to multi- balloon masterpieces. Author Sandi Masori, CBA is a 20 year veteran of the balloon industry, and has been dubbed "America's Top Balloon Expert" by the media, having made over 57 TV appearances on local and national TV, including on The Today Show and Hallmark channel's Home And Family Show. She's also the author of 3 other best-selling books on balloons, (The DIY Balloon Bible For All Seasons, The Event Planners Essential Guide To Balloons, and The Ultimate Guide To Inflating Your Tradeshow Profits... With BALLOONS!) Sandi was the first female balloon artist to put out an instructional video for the balloon twisting industry, back in 2001- when videos were shot in beta and released on VHS. These days she puts out videos on You Tube and has been accepted to You Tube Space to make her videos there. She's delighted audiences all over the world, and is highly sought after in her home market. These days she spends her time writing books, making videos, and hanging out with her kids, who she calls her "two best creations".

THE MULTI-MILLION COPY BESTSELLING PHENOMENON Do you regularly find yourself in long, unstructured meetings which end without a decision? Are you a team leader looking for tips on increasing productivity? Or are you looking for ways to enhance collaboration? Six Thinking Hats, Edward de Bono's classic book on meetings, remains as relevant as ever. Used to huge success by big companies and organisations such as IBM, Siemens and NASA, the Six-Hats method is a proven way to: - Reduce meeting length to one quarter of what they were previously - Make decisions in just 15 minutes, rather than 3 hours - Increase productivity by nearly 500% This extremely simple tool not only increases efficiency in discussions and decision-making, but also encourages openness and trust among colleagues, resulting in happier team, a rise in productivity, and decisions which almost make themselves. 'An inspiring man with brilliant ideas. De Bono never ceases to amaze' Sir Richard Branson **This book juxtaposes the experiences of regions that have lived or are living through industrial transition in coal-mining and manufacturing centres throughout Europe, opening the way to a deeper understanding of the intensity of change and of how work helps shape new identities.**

America's Local Children's TV Shows

Appletons' Journal of Literature, Science and Art

The Sketch

Ain't No Sunshine

Eighty years Progress of the United states: showing the various channels of industry and education ... with a large amount of statistical information

Whatever happened to Bozo the Clown, to Aunt Norma, to Solomon C. Whiskers, those television celebrities who hammed it up between cartoons and contests during local kids’ shows? In Hi There, Boys and Girls! America’s Local Children’s TV Programs, Tim Hollis tracks down the story of every known local children’s TV show from markets across the United States There have been many books about children’s television on the networks, and such shows as Captain Kangaroo, Howdy Doody and Sesame Street are legends in broadcasting. For every performer on the scale of a Captain Kangaroo or a Buffalo Bob, there were five or six local personalities who were just as beloved by their viewers - and sometimes even more so - since these local stars could be counted on for appearances at stores, children’s hospitals, and shopping centers, where kids could meet them face-to-face. Hi, There, Boys and Girls! Includes a capsule history of this programming from the earliest days of radio to the early 1970s, when a combination of social changes and broadcast regulations sent most of the hosts into retirement. Walt Disney observed that while there is very little adult in a child, there is a lot of child in every adult. This book will bring back a flood of long-submerged memories for anyone who was a child during this golden era. Includes Uncle Walt (Sickles), Miss Nancy (Stillwell), Flippo the Clown, etc.

Twelve-year-old Mysti Murphy wishes she were a character in a book. If her life were fictional, she'd magically know how to deal with the fact that her best friend, Anibal Gomez, has abandoned her in favor of being a "hipster." She'd be able to take care of everyone when her dad has to spend time in the hospital. And she'd certainly be able to change her family's secret. Seventh grade is not turning out the way Mysti had planned. With the help of a hot-air balloon, her new friend Rama Khan, and a bright orange coat, can she find the courage to change?

Build cool Raspberry Pi projects with no experience required! Adventures in Raspberry Pi, 3rd Edition is the fun guide to learning programming. Starting from the very basics and building skill upon skill, you'll learn developing fundamentals—even if you've never programmed before. Learning is exciting when you're working your way through cool projects, but the concepts you learn and the skills you master will take you further than you ever thought possible. You'll learn how your Raspberry Pi 3 works and what it can do as you create stories and games, program shapes, code music, and even build Minecraft worlds with projects designed specifically for kids 11 to 15. Author Carrie Anne Philbin is a former high school teacher, and she showcases her skills with clear, easy to follow instructions and explanations every step of the way. If you're interested in programming but find other books hard to understand, this book is your ideal starting point for mastering the Raspberry Pi. Inexpensive, non-intimidating, yet surprisingly versatile, the Raspberry Pi 3 is an ideal way to learn programming. Updated to align with the newest board, this book will teach you fundamental programming skills while having a ton of fun! Get acquainted with your Raspberry Pi's bits and pieces Take control of your Pi's "insides" with simple commands Program games, code music, and build a jukebox Discover where your new skills can take you next The tiny, credit-card sized Raspberry Pi has become a huge hit among kids—and adults—interested in programming. It does everything your desktop can do, but with a few basic programming skills, you can make it do so much more. With simple instructions, fun projects, and solid skills, Adventures in Raspberry Pi is the ultimate kids' programming guide!

Articulating Europe

This reprint of a collection of articles addresses the challenges that European ethnology is facing. Representing a variety of localities, they give new insights and perspectives to the importance of doing empirical fieldwork and of seeing the emergence of new patterns as well as the remaking of old ones.

In the 87 issues of Snow Country published between 1988 and 1999, the reader can find the defining coverage of mountain resorts, ski technique and equipment, racing, cross-country touring, and the growing sport of snowboarding during a period of radical change. The award-winning magazine of mountain sports and living tracks the environmental impact of ski area development, and people moving to the mountains to work and live.

Now with a new Preface and Afterword by the author "Outstanding . . . [Isobel Coleman] takes us into remote villages and urban bureaucracies to find the brave men and women working to create change in the Middle East."—Los Angeles Times In this timely and important book, Isobel Coleman shows how Muslim women and men across the Middle East are working within Islam to fight for women’s rights in a growing movement of Islamic feminism. Journeying through Saudi Arabia, Iraq, Iran, Afghanistan, and Pakistan, Coleman introduces the reader to influential Islamic feminist thinkers and successful grassroots activists working to create economic, political, and educational opportunities for women. Their advocacy for women’s rights based on more progressive interpretations of Islam are critical to bridging the conflict between those championing reform and those seeking to oppress women in the name of religious tradition. Socially, culturally, economically, and politically, the future of the region depends on finding ways to accommodate human rights, and in particular women’s rights, with Islamic law. These reformers—and thousands of others—are the people leading the way forward. Featuring new material that addresses how the Arab uprisings and other recent events have affected the social and political landscape of the region, Paradise Beneath Her Feet offers a message of hope: Change is coming to the Middle East—and more often than not, it is being led by women. Praise for Paradise Beneath Her Feet "Clearly written, deeply moving, and wonderfully enlightening."—Reza Aslan, author of No god but God "[An] engrossing portrait of real Muslim women that reveals how Islamic feminists . . . are working with and within the culture, rather than against it . . . to forge 'a legitimate Islamic alternative to the current repressive system.' Coleman doesn’t diminish the enormity of the struggle, but she argues convincingly that it might yet rewrite Islam’s future."—Publishers Weekly (starred review) "A nuanced view of Islam’s role in public life that is cautiously hopeful."—The Economist "Eye-opening . . . Deeply religious, profoundly determined and modern in every way, these are twenty-first-century women bent on change. Hear them roar and see a future being born before our eyes."—Booklist

Hispanic Engineer & Information Technology is a publication devoted to science and technology and to promoting opportunities in those fields for Hispanic Americans.

Contaminants in fish. Ocean dumping. Biological diversity/integrity and endangered species. Pinelands and forest preservation. Wetlands protection. Watersheds and headwaters. In Protecting New Jersey's Environment these concerns translate into real human interest stories about people and their surroundings not only in the state- a critical site for the growth of environmentalism-but all around the country as well. And you can add even more to the list-ozone depletion, nuclear power, toxic waste, sprawl, racial inequity, brownfields remediation versus environmental justice concerns. Through a series of gripping accounts organized by geographic area, Thomas Belton considers key environmental issues in New Jersey and champions the ways common citizens have sought justice when faced with unseen health threats. Often, as people search for remedies in their neighborhoods, the challenges they face result in what Belton calls bare-knuckles environmental protection, replete with back-room political deals, infighting, criminals, and hapless victims. With people as its focus, Protecting New Jersey's Environment explores the science underpinning environmental issues and the public policy infighting that goes undocumented behind the scenes and beneath the controversies. Belton demonstrates the ways that scientists, regulators, lobbyists, and politicians interact and offers the public a go-to guide on how to seek environmental protection in practical ways.

"Entertaining Tucson Across the Decades" features thousands of local Tucson, Arizona musicians and entertainers from the 1950s through the early 2000s. Hundreds of articles published in the Entertainment Magazine, Tucson Teen and Newsreel newspapers. Interviews, original photographs, reviews and profiles that follow five decades of music in the Tucson entertainment scene.

The Channel Tunnel is a huge construction project, employing over 14,000 people at peak, and costing over 11 billion of private money. It has succeeded in spite of great financial, political and techncial difficulties, and a fundamentally flawed contract. This book tells the story of the project, based on the coverage in Construction News and with Taking the Belgian city of Antwerp as a case-study, this book argues that the direction of nineteenth century societal change was such as to make some groups of people better suited to reap the benefits of new opportunities.

Local Perspectives

Courage for Beginners

Protecting New Jersey's Environment

From Cancer Alley to the New Garden State

Newcomers to Antwerp, 1760-1860

Martha Frankel grew up in a warm, loving family of diehard gamblers, where her father?s poker games and her mother?s mah-jongg blended happily with big pots of delicious food and endless gossip. As kids, she and her cousins bet on everything?from which of their Weight Watching mothers would lose the most to who could hold their breath longest underwater or eat the most matzo. But once Frankel left for college and later became a successful entertainment journalist, gambling didn?t factor much into her life. She thought her family legacy had passed her by. In this ?fast-paced and amazingly funny? (The Times- Picayune) memoir, Frankel traces her love affair with poker, an obsession that didn?t hit until her mid-forties. And she was good at poker. Frankel won routinely, whether she was playing in her Wednesday-night poker game or in one of the seedy, out-of-the-way rooms she always managed to find when on assignment. But all this changed when she discovered online poker. It was the beginning of what one of her uncles called ?hats and eyeglasses,? a term used to describe those times when you?re losing so bad your ship is sinking until all that?s left on the water?s surface are your hat and eyeglasses. By turns hilarious and heartbreaking, Hats & Eyeglasses is a tale of passion, addiction? and those times in life when we almost lose our shirt.
