"In The Pechenegs: Nomads in the Political and Cultural Landscape of Medieval Europe Aleksander Paro offers a reflection on the history of the Pechenegs, a nomadic people which came to control the Black Sea steppe by the end of the ninth century. Nomadic peoples have often been presented in European historiography as aggressors and destroyers whose appearance led to only chaotic decline and economic stagnation. Making use of historical and archaeological sources along with abundant comparative material, Aleksander Paro offers here a multifaceted and cogent image of the nomads’ relations with neighboring political and cultural communities in the tenth and eleventh centuries” --

Over the past decade there has been a gradual shift away from simply relying on engineering solutions to individual landslide problems, to the use of a variety of strategies to manage the problems over a broad area. Such alternative strategies include the use of building codes, land use planning controls, preventing water leakage, early warning systems and insurance schemes.This book addresses these developments and provides a multidisciplinary perspective on landslide management.

Il cappello del prete

*Raised in a family of four, Kylila thinks she has the most ideal family. After her village has been burnt down, her deep, dark secret in her life begins to unfold. Having the powers to save or destroy the world, which would Kylila choose?*

*Un best-seller di fine ottocento. Nello scenario di Napoli e della sua periferia De Marchi colloca la storia di un delitto. I due protagonisti, U barone e U preвете, sono entrambi esseri abietti: l'assassino è il barone Carlo Coriolano di Santafusca, un nobile decaduto vizioso, dissoluto e dedito alle pratiche più immorali accennate, sia pure piuttosto pudicamente, nel capitolo intitolato "L'orgia" dove, tra l'altro, si legge che l' "onda bionda e spumosa" della Sciampagna "spruzzò i seni delle ragazze" e dove "donne sdraiate e seminude [...] fumavano le loro sigarette"; ma oltre a ciò il nobile libertino è anche un darwiniano e acceso materialista, ma anche forte del suo privilegiato ruolo sociale per ritenersi al di sopra della giustizia e delle leggi dello stato. L'assassinato invece è don Cirillo, un prete ricchissimo grazie al lotto e all'usura, pure chiacchierato perché i numeri giusti per vincere al lotto li dà alla bella moglie del cappellaio... Sono in scena, insomma, due squallidi personaggi che rappresentano il peggio della nobiltà e della chiesa, gli istinti più meschini e sfrenati.*

*This antiquarian volume contains a complete manual of the art of angling for roach, with comments on methodology, equipment, tactics, and other information useful to the roach fisherman. Written in simple, plain language and including much in the way of practical instructions and useful tips and hints, this text will prove invaluable to the roach fisherman, and makes for a great addition to collections of angling literature. The chapters of this book include: The Roach, Descriptive, Statistical, Roach Waters, The Roach Fisherman, Baits and Ground-Baits, Major Tactics and Major Considerations, Methods and Styles, Odds and Ends In Lighter Vein, and Hempseed Fishing for Roach. We are republishing this antiquarian volume now complete with a specially commissioned new introduction on the history of fishing.*

Celebrate real-life heroes in the US Marine Corps with this early introduction board book series to the US military branches. The Mini Military series focuses on introducing young readers to the various branches of the US military. Lil' Marine highlights what it's like to be in the US Marine Corps, focusing on uniforms, bases, and parachutes, and introducing toddlers to military vehicles, such as the amphibious assault vehicles and aircraft. Perfect for military families, those with veterans in their family, or for anyone looking to expose their youngest readers to parts of American society, this book and the series is sure to inspire and celebrate our brave service men and women.

What caused the fall of Rome? Since Gibbon's day scholars have hotly debated the question and come up with the answers ranging from blood poisoning to immorality. In recent years, however, the most likely explanation has been neglected: was it not above all else a military collapse? Professor Ferrill believes it was, and puts forth his case in this provocative book.

The book won the Best Book Award for 1991 from the American Military Institute.

The Fall of the Roman Empire

Nomads in the Political and Cultural Landscape of Medieval Europe

Building on data that is more comprehensive and reliable than ever before, covering 234 countries and territories, the Global Forest Resources Assessment 2015 shows encouraging signs of improved forest management and a global slowdown in deforestation. However these trends need to be strengthened, especially in countries that are lagging behind.

What is Yoruba Transcript? Simply put, the digital way to write in Yoruba, that is, without accents.In the 18th century, Bishop Samuel Ajayi Crowther’s quest to translate the Holy Bible into Yoruba led to the creation of an orthography for Yoruba. Thereafter resulted in the publication of the first Yoruba dictionary. Bishop Crowther found out during his compilation that some Yoruba phonetics were not represented by Latin alphabets, so he introduced tonal accents, which didn’t make it very reader friendly. Transcript replaces accents with conventional alphabets to make Yoruba language conform to international standards. This has made Yoruba more reader friendly, more writer friendly and this has now given rise to Yoruba language being more user friendly. Yoruba Proverb Adaba ough naanint ivell. Papar injonon, Eyyel okoul folaut. Also Included in the book is 15,000 words Dictionary of Yoruba Language and hundreds of Yoruba proverbs and niches.

*Follows the stories of the main character--referred to as the Barefoot Countess--a former singer and her mute pastry-seller husband, a mother and her gay son, and an alcoholic professor, as each survives on an abandoned Havana estate.*

*Bringing together the work of leading researchers, this book provides a clear and accessible overview of current research on destination recommendation systems. These systems guide consumer behaviour by enabling Internet users to quickly and effectively find relevant information about travel destinations, attractions, accommodation and transportation. The chapters in this book cover consumer behaviour, perceptual factors influencing consumer choice, and the design of destination recommendation systems. The book examines four different types of destination marketing system and concludes by analysing the future of recommendation systems for travellers.*

?This proceedings volume gathers together selected peer-reviewed papers presented at the second edition of the XXVI International Joint Conference on Industrial Engineering and Operations Management (IJCIEOM), which was virtually held on February 22-24, 2021 with the main organization based at the Pontifical Catholic University of Rio de Janeiro, Brazil. Works cover a range of topics in industrial engineering, including operations and process management, global operations, managerial economics, data science and stochastic optimization, logistics and supply chain management, quality management, product development, strategy and organizational engineering, knowledge and information management, sustainability, and disaster management, to name a few. These topics broadly involve fields like operations, manufacturing, industrial and production engineering, and management. This book can be a valuable resource for researchers and practitioners in optimization research, operations research, and correlated fields.

This classic work of scholarship scrutinizes all aspects of Roman military forces throughout the Roman Empire, in Europe, North Africa, and the Near and Middle East. Graham Webster describes the Roman army's composition, frontier systems, camps and forts, activities in the field (including battle tactics, signaling, and medical services), and peacetime duties, as well as the army's overall influence in the Empire. First published in 1969, the work is corrected and expanded in this third edition, which includes new information from excavations and the finding of contemporary scholars. Hugh Elton provides an introduction surveying scholarship on the Roman army since the last edition of 1985.

*New information and strategies for managing the energy crisis from the perspective of growing economies are presented. Numerous case studies illustrate the particular challenges that developing countries, many of which are faced with insufficient resources, encounter. As a result, many unique strategies to the problems of energy management an conservation, environmental engineering, clean technologies, biological and chemical waste treatment and waste management have been developed.*

*In English for the first time, a guide to the true secret structure of the Illuminati and their invisible network made of various power structures, author Leo Lyon Zagami uses their internal documents and reveals confidential and top-secret events. His book contends that the presence of numerous Illuminati brotherhoods and secret societies—just as those inside the most prestigious U.S. universities such as Yale or Harvard—have always been guides to the occult. From the Ordo Templi Orientis (OTO)'s infiltration of Freemasonry to the real Priory of Sion, this book exposes not only the hidden structure of the New World Order and the occult practices but also their connections to the intelligence community and the infamous Ur-Lodges.*

This publication offers a comprehensive look at the management of oaks in urban areas. As development moves into oak woodland areas, more and more oaks are becoming "urban" oaks. Oaks are highly valued in urban areas for their aesthetic, environmental, economic and cultural benefits. However, significant impacts to the health and structural stability of oaks have resulted from urban encroachment. Changes in environment, incompatible cultural practices, and pest problems can all lead to the early demise of our stately oaks. Using this book you'll learn how to effectively manage and protect oaks in urban areas - existing oaks as well as the planting of new oaks. Three key areas are addressed: selection, care, and preservation. You'll learn how cultural practices, pest management, risk management, preservation during development, and genetic diversity can all play a role in preserving urban oaks. Arborists, urban foresters, landscape architects, planners and designers, golf course superintendents, academics, and Master Gardeners alike will find this to be an invaluable reference guide.

The Military Explanation

The History of Italy

**In 1537 Francesco Guicciardini, adviser and confidant to three popes, governor of several central Italian states, ambassador, administrator, military captain--and persona non grata with the ruling Medici after the siege of Florence--retired to his villa to write a history of his times. His Storia d’Italia became the classic history of Italy--both a brilliant portrayal of the Renaissance and a penetrating vision into the tragedy and comedy of human history in general. Sidney Alexander’s readable translation and abridgmet of Guicciardini’s four-volume work earned the prestigious 1970 P.E.N. Club translation award. His perceptive introduction and notes add much to the understanding of Guicciardini’s masterpiece.**
