**Stephen Dobyns—whom Stephen King has**

**described as "the best of the best"—is back with a comic suspense novel about a small-time con operation, a pair of combative detectives, and the pride, revenge, and deception that guide us all. Richard Russo meets Elmore Leonard. In the seaport town of New London, Connecticut, newcomer Connor Raposo has just witnessed a gruesome motorcycle accident on Bank Street. At least he thinks it was an accident. A man sliced in half by a reversing dump truck could only be an accident, right? But these days, Connor can't be sure of anything—his entire line of work is based on games of artful deception. His days at Bounty, Inc., are spent soliciting funds for improbable, bogus charities; its last venture was Free Beagles from Nicotine Addiction, Inc. The new scam is Prom Queens Anonymous, Inc., dedicated to helping former high school celebs transition to humdrum daily grown-up lives; Connor's target is Angelina Rossi—Pumpkin Queen of 1985, proud beagle owner, and ex-wife of a man named Fat Bob. Meanwhile, Manny Streeter and Benny Vikström are the local detectives assigned to the Bank Street motorcycle wreck, and despite their shared interest of proving each other wrong, the two eventually reach the same conclusion: This death by**

Among them: Who is Fat Bob, and is he actually dead? Sharply written and entertainingly absurd, Is Fat Bob Dead Yet? is packed with Stephen Dobyns's trademark characters—whimsical, neurotic, puzzling yet familiar, and impossible to pin down. Dobyns again proves why he is an American master of the suspenseful, all-too-human land of the absurd.**

Their lives seemed idyllic, although they were busy, Linda teaching third grade and Dean managing a large construction firm. That was before the accident. The accident changed everything. Now neither of them could meet the other's needs. Just as Dean was unable to satisfy Linda's emotional needs, and chafed under the workload of household and childcare obligations, Linda could not support Dean's need to work longer hours to maintain the family's financial security. What happens when the perfect life comes to a crashing halt? As their marriage unraveled, friends**

The Hands of Christ are open to the weary and brokenhearted. Perhaps Dean and Linda couldn't recognize them.**

65 million years ago at the end of the Cretaceous Period eighty-five percent of all species disappeared, including the dinosaurs. This was the second largest mass extinction in Earth's history and numerous theories have been proposed to explain it, but none of them have been correct. Now there is a new theory.

Geologist Derek Burdette and his seismologist and ex-power lifter friend, big Jeff "Mac" Mackenzie, embark on an ordinary camping trip in the North Carolina mountains. The camping trip turns into a scientific mystery when they have an alien encounter and stumble upon the real reason for the mass extinction of the dinosaurs.

International in scope and varied in its theoretical approaches, this collection of ten new critical essays examines the prevailing trends in recent crime fiction. Of particular interest are shifting, and increasingly globalized, conceptions of crime, as well as the genre's response to technological, legal, and social
