*This popular text describes the processes of doing teacher action research. But it is much more than a dry presentation of "methods." Filled with examples of teacher action research projects, provided by teachers themselves, the book places teachers at the heart of the action research process. Teachers' own writing about their work and research questions is featured in 11 examples of teacher action research conducted in a range of settings, grade levels, and content areas. The second edition of Teachers Doing Research is fully updated and substantially reorganized and revised, including four totally new chapters and six new teacher stories. This edition: *provides more specifics on teacher action research processes and a variety of methodological options for teachers who do research in their classrooms and schools (Chapters 1-5); *includes more specifics on data collection and interpretation methods (Chapter 3); *balances a detailed introduction to technology for novice researchers with discussion of issues and questions related to technology-based teacher research (Chapter 4). Information on Web sites related to topics addressed in the chapters and teacher research stories is integrated throughout the book. A new Teachers Doing Research Web site (www.teachersdoingresearch.com) invites readers, teacher research participants, preservice candidates, and teacher educators to participate in dialogue with the authors and editors of this text, and with each other; *gives expanded attention to teacher action research with preservice teachers and to university/school collaboration (especially in Chapter 6); *examines the connections between teacher action research and the larger arena of educational research (Chapter 8); *broadens the context for teacher action research, through discussion of its influence on school reform both in the United States and internationally. International examples of urban teacher research are included (Chapter 9); and *offers new In Practice sections to engage readers in opportunities to respond to what they are reading and to try out related activities.*

The development and role of the Indian Civil Service was one of the dominant features of the period of the East India Company, and later, British rule in India. It is extraordinary how people employed by a trading company in a foreign land transformed into the most powerful civil service in the world. It was also the first civil service in the modern world where recruitment was on the basis of open competition and not through patronage. Though much criticized, it developed its own character and traditions. It is really unusual that such a service - defined as the 'steel frame', on which depended the fortunes and the survival of a huge empire - continued essentially with the same structure and traditions, along with the administrative systems developed over a century, into Independent democratic India. Although much has changed, even today the Indian Administrative Service retains some basic characteristics from the past. This system of governance as it evolved in India is indeed fascinating story. Well researched and detailed in its presentation, Deepak Gupta looks at changes from the past, its present, and also the future of the IAS. He also suggests some measures so that it could reinvent itself to play the important role envisaged by the makers of our Constitution.

In this lively, informative and insightful book, Shashi Tharoor brilliantly demonstrates how Indian diplomacy has come of age and forecasts where it will need to focus in the new millennium. He surveys India's major international relationships in detail, evokes the country's soft power and offers his thoughts on a new 'grand strategy' for the nation, arguing that India must move beyond non-alignment to multi-alignment. Stimulating, reflective, elegantly written and passionately engaged, Pax Indica is another substantial achievement from one of the finest Indian authors of our times.

Disha's 'Mission IAS' is acclaimed as one of the most authoritative and comprehensive books of high-quality reference materials to understand the pattern, syllabus, level & Scope of IAS exam and to devise a strategy to prepare and crack the exam. The Main features of the thoroughly Revised & Updated 2nd edition book are --

- Exclusively designed to cater to the aspirants of IAS - Prelims & Main Exam.
- Covers exam patterns of CSAT (Prelims & Main - English, GS & optional subjects) as well as Interview.
- Covers service profile -- recruitment, training, functions, promotions, designations, remunerations of 'All India Services' & 'Central Civil Service' -Group 'A' & 'B' under UPSC -- Civil Service Exams like IAS, IPS, IFS, IRS, etc.
- Infographics, bar charts and data in tabular form facilitating information quickly and clearly.
- Language is lucid making problem-solving fun to candidates of diverse backgrounds.
- Keeping the whole coverage of the book in accordance with the syllabus and pattern of the exam, it will act as a standard reference and preparation material for all the needs of aspirants of CSAT.
- Preparation material is in line with the analysis of Previous Years' Exams Papers which will help aspirants know the trend of the questions and the difficulty level of the same.

A visionary look at the evolution and future of India In this momentous book, Nandan Nilekani traces the central ideas that shaped India's past and present and asks the key question of the future: How will India as a global power avoid the mistakes of earlier development models? As a co-founder of Infosys, a global leader in information technology, Nilekani has actively participated in the company's rise during the past twenty-seven years. In Imagining India, he uses his global experience and understanding to discuss the future of India and its role as a global citizen and emerging economic giant. Nilekani engages with India's particular obstacles and opportunities, charting a new way forward for the young nation.

This is the thrilling story of an IAS aspirant whose journey began in the humble settings of a modest village. The story runs through four crisscrossing streams. First, is an ambitious but reluctant youth embarking on a journey to achieve the unimaginable. Second, is a vulnerable human being hanging between the contrasting pulls of choice and destiny. The third stream is a silent student of the book called life, where in the course of this odyssey, some invaluable and timeless lessons of wisdom dawn on the traveller. The fourth stream is that of an experiential guide and master who has insightful lessons to share with his fellow travellers and their guardians. The narrative has a universal appeal, resonating with the quest of all who dare to dream and desire to achieve.
