IELTS Target 5.0: Preparation for IELTS General Training - Leading to IELTS Academic IELTS Target 5.0 is aimed at students wishing to prepare for the IELTS exam while studying at pre-intermediate level. The main focus of preparation is IELTS General Training, as this is more appropriate for this level of student. Additional bridging material is incorporated later in the course for those students wishing to continue with IELTS Academic. The IELTS General Training section consists of three five-unit sections that take the student from a strong elementary to intermediate level. The earlier units focus on basic skills and basic language, including sentence structure and spelling. The IELTS Academic section consists of five units that prepare students for the academic content of reading passages and the more challenging writing tasks. By the end of the course, students will be working with text and language that is close to that found in the exam. Exam tips are provided throughout the course to familiarize students with the various exam tasks and to provide advice on how to obtain the highest score possible. Each unit consists of five modules: Speaking and Vocabulary. This prepares students for the type of interaction they can expect with the examiner. The vocabulary selected is that most frequently encountered during the speaking exam. Listening: This module is in two parts. The first part engages students in a topic and pre-teaches key vocabulary, before focusing on a key skill or particular IELTS exam technique. The second part practises the skill. Reading: As with the Listening module. Writing: This deals with both parts of the writing exam, each unit focusing on a different writing skill or writing technique. There is a focus on guided writing, with model compositions for all writing tasks. Consolidation and Exam Practice: The first part revises the speaking focus and vocabulary in the first module. The second part practises listening, reading or writing skills under something closer to exam conditions. Each Academic unit consists of Reading and Writing Modules only. The course also includes end-of-section review material, mock tests and an accompanying workbook. Key Features Comprehensive 240-hour course IELTS General Training ideal for students on lower band scores Provides foundation for further General Training or Academic study Four sections provide flexibility of use Clear, scaffolded activities Simplified and authentic exam work Focus on real student needs

Learning different words becomes essential when someone wants to have mastery over the language, other than one's mother tongue. Specifically, the students who are appearing for IELTS, DUOLINGO, TOEFL, CAE, OET or PTE must know the common and uncommon words of the English language, as a certain percentage of grading depends on the appropriate usage of the lexical resource. As all the words of the English language may be difficult to learn, it is imperative to learn at least 800-1000 words which are important to communicate in the English language. Keeping in view the levels of common students, in the first section, some of the common and uncommon words are presented in different parts with usage and examples to enhance the spelling power and lexical resource of the students. Besides, We usually learn our mother tongue just by listening to others and sometimes by just imitating others' speaking styles. It is a fact that nobody learns the grammar of his native language. However, to learn any language other than the native language, we need to know the basics of the grammar of that particular language, which we want to learn. Learning the basics of any language becomes essential when someone wants to have mastery over the language. Specifically, the students who are appearing for IELTS, TOEFL, CAE or PTE must know the basics of the English language as a certain percentage of grading depends on the actual usage of grammar. As the whole grammar may be difficult to learn, it is imperative to learn at least the parts of speech, which are important to learn to write and speak correct sentences of the English language. There are eight parts of speech like 1. Noun, 2. Pronoun, 3. Verb, 4. Adverb, 5. Adjective, 6. Preposition, 7. Conjunction, 8. Interjection, but in certain English-speaking countries, nine parts of speech are considered as they include the article as the ninth part. In this book, nine parts of speech, their usage with examples and worksheets with answers for practice are explained systematically. Finally, this book explains how the rules of the basic grammar are used for making sentences of daily and academic use
